(A) The AT&T® United Kingdom and Germany Value Plus Plan is a direct dialed outbound international long distance service offered to residential Customers on switched access lines. Service is offered on a flat rate basis, twenty-four hours per day, seven days per week. Customers must dial 1 plus the country code or area code, if applicable, and the terminating number to complete a call utilizing this service.

(B) For a MRC, the Customer receives a block of 3,000 minutes for placing (1) 1+ Direct-Dialed International calls originating in the United States from a Customer's presubscribed line and terminating to Germany and United Kingdom. All usage in excess of the block of time will be billed at a fixed rate per minute. Calls are billed in one (1) minute increments after an initial period, for billing purposes, of one (1) minute. This plan does not provide call detail information on the Customer's monthly bill for calls to Germany, except for applicable international mobile termination charges. Call detail information for international calls to other countries will be provided. This plan is only offered in conjunction with the Company's interstate long distance service. Customers may not subscribe to more than one international calling plan on the same account.

(C) Per minute charges apply to calls to other international countries based on the country called and the duration of the call in addition to the MRC. An international wireless termination charge applies to all applicable calls.

(D) In order to be eligible for this plan, the Company must be able to verify that the Customer meets the following eligibility requirements. Customers who no longer meet these eligibility requirements will not be eligible for this plan and may be offered an alternative plan or have their service suspended, restricted or canceled without notice.

.1 This plan is available to Customers with one to three lines at a location.

.2 Customers must subscribe to the Company's Affiliated ILEC.

.3 This plan is not available on an account that is the recipient of charges billed from another location.

.4 Customer lines associated with educational institutions (colleges, universities, etc.) are not eligible for this plan.

.5 The block of time minutes cannot be used for calls that include multi-party conference calls (except those calls placed by using the Three-Way Calling features are included), calls to 900 numbers or other calls to access information services, directory assistance, operator services, international calling to countries other than Germany, domestic calls, and toll free calling services.
