

**BUSINESS SERVICE GUIDE FOR
INTEREXCHANGE INTERSTATE, AND INTERNATIONAL SERVICES**

SECTION 5 – INTERNATIONAL SERVICE DESCRIPTIONS, RATES, AND CHARGES

5.1 General

- 5.1.1 Customers are billed based on their usage of the Company's services. Rates may vary by service type, call duration, time of day, rate period, day of week, mileage, call type, calling plan and foreign location. Fixed recurring charges, not dependent upon usage, are billed in advance. Usage-based charges are billed after each usage cycle.
- 5.1.2 Customers will be charged for each individual call placed through the Company. Call duration is determined as described in Section 3 of this pricing and service guide. For distance or time of day sensitive offerings, charges are determined based on the applicable rate periods found in Section 3 unless otherwise specified in this pricing and service guide.
- 5.1.3 Outbound direct dial services are available from originating locations within the United States. Calls may be placed between the United States and those countries listed herein. Inbound international toll-free service is available to Customers. Toll-free calls may be originated from locations within Canada.
- 5.1.4 Operator Services are available from originating locations within the United States where Customers have the ability to dial directly to the Company's network. Calls may be placed between the United States and those countries listed herein.
- 5.1.5 Calls to or from a foreign country or area, or calls routed through a foreign country or area, are subject to such restrictions as may be enforced from time to time by the authorities in that country or area.
- 5.1.6 A per country charge will be added to the per minute rates of international calls terminating to wireless communication devices including but not limited to, cellular phones, pagers, personal computers and personal digital assistants or to a portable telephone number where a forwarding, tracking or other type of location service is used. In addition, many telecommunications companies outside the United States impose additional fees to complete telephone calls to telephone number ranges associated with special services as designated by the foreign telephone administration. These special services may or may not be wireless. In order to recover these fees, AT&T Long Distance Service adds a mobile termination charge to all calls completed to the associated number range in the affected countries. The amount of the charge varies by country. See Section 5.7 of this pricing and service guide for the applicable International Mobile Termination Charge.

5.4 Business International Message Telecommunications Service

The Business International Message Telecommunications Service is a direct dialed outbound international long distance service offered to business Customers from switched access lines. Service is offered twenty-four hours per day, seven days per week. Charges depend on the country called, the time of day in which the call was made and the duration of the call. Customers must dial 1 plus the country code or area code, if applicable, and the terminating number to complete a call utilizing this service.

To be eligible for this service Customers must subscribe to local exchange service provided by the Company's affiliated incumbent local exchange company. (C)

All calls are billed in one (1) minute increments after an initial period, for billing purpose, of one (1) minute. This service is only offered in conjunction with a Company's Business interstate long distance service. No monthly recurring charge applies for this service. (C)

Inbound international toll free service originated from locations within Canada is available to Customers of this service who also subscribe to AT&T Long Distance Toll FreeSM Service in Section 4.7 of this Service Guide. The rate table in Section 5.4.2 also contains the per-minute rates for AT&T Long Distance Toll FreeSM Service originating in Canada and terminating throughout the United States. (C)

5.4.1 Time of Day Rate Periods

Time of day rates, as defined in Section 3.2.3 of this Business Service Guide apply to this plan. (C)

SECTION 5 – INTERNATIONAL SERVICE DESCRIPTIONS, RATES, AND CHARGES

5.7 International Mobile Termination Charge

The following per country charge will be added to the per minute rates of international calls terminating to wireless communication devices including but not limited to, cellular phones, pagers, personal computers and personal digital assistants or to a portable telephone number where a forwarding, tracking or other type of location service is used. In addition, many telecommunications companies outside the United States impose additional fees to complete telephone calls to telephone number ranges associated with special services as designated by the foreign telephone administration. These special services may or may not be wireless. In order to recover these fees, AT&T Long Distance Service adds a mobile termination charge to all calls completed to the associated number range in the affected countries. The amount of the charge varies by country.
