17. Win/Winback Access Lines NRC Waiver for Customers with 1-3 Lines

a. Description

Eligible business customers may qualify for a waiver of the nonrecurring Service Charge (NRC waiver), for the installation of each Measured Rate Business Service (see Guidebook Part 4, Section 2.) access line (access line), for up to a maximum of three access lines, if the customer agrees to retain the access lines for a period of 12 consecutive months (one year). The customer will also receive a waiver of the nonrecurring charges associated with the installation of certain optional features listed in c. following.

Eligible business customers are those customers who qualify as a "Winback" or "Win" customer. A "Winback" customer is a customer who has discontinued their business service with the Company for the purpose of establishing service with a Competitive Local Exchange Carrier (CLC) operating within the Company's territory and who is now returning their service to the Company. A "Win" customer is a customer who established their service with a CLC operating within the Company's territory and now establishes their service with the Company. Winback and Win also includes customers who established service with a CLC that is an affiliate of the Company.

b. Regulations

- (1) The customer must agree to retain the 1-3 access lines for a minimum period of 12 consecutive months (one year).
- (2) Access lines eligible for the waiver include the following USOCs:
1MB++, 1MS++. (C)
- (3) Foreign Exchange Service is not eligible for this NRC waiver.
- (4) The NRC waiver is not available on any business service or package that includes a waiver of nonrecurring charges.

- (1) ADSL Service, when purchased from this Guidebook, may not be used in connection with an interstate application. ADSL Service which is used for interstate applications is provided only from the Company's interstate service offering. The interstate classification is determined by the origination and termination of the communication, including the set-up and actual transmission.
- (2) The End-User will be connected to ADSL Service at the same Network Interface Device employed by AT&T California for applicable voice service which are limited to 1MR, 1FR, 1MS and 1MB service. (C)
- (3) ADSL Service provides connectivity from the End-User's local exchange service to a host computer, i.e. a corporation's internal data network via the Company's ATM Cell Relay Service.
- (4) The rules and regulations specified herein for ADSL Service are in addition to the applicable rules and regulations found in this Guidebook and other Company tariffs.
- (5) The rates for ADSL Service as found in Sections 8.4.3.2, 8.4.3.3 and 8.4.3.4 are in addition to applicable rates and charges, rules and regulations for Customer's local exchange service as found in the AT&T California Local Exchange A Tariff and/or this Guidebook.
- (6) ADSL orders can only be accepted if the line is specified and available for provisioning.
- (7) If the Company has reason to believe that permitting the commencement or continuation of providing ADSL in this Guidebook schedule is adversely affecting or would adversely affect the Company's ability to provide, complete or maintain the level of or quality of its services to its Customers, the Company may refuse to provide ADSL or may discontinue providing such service.
