BellSouth SPA CNM - FlexServ Service includes surveillance (monitoring) and reconfiguration of the customer's Special Access (a.k.a BellSouth SPA) DS0, DS1, and DS3 services equipped with BellSouth SPA CNM - FlexServ Service.

When the customer has accessed BellSouth SPA CNM - FlexServ Service, monitoring consists of unsolicited signals of major and minor facility alarms (carrier group alarms, bit error rate, bipolar violations, slip errors, errored seconds, out-of-frame alarms and invalid connections). (Invalid connections are connections between Special Access (a.k.a. BellSouth SPA) services with incompatible signals or between services without BellSouth SPA CNM - FlexServ Service. Customer requests for such connections will be denied). The Telephone Company shall not be responsible for service interruptions, troubles, loss of customer data, or any other losses resulting from attempted invalid connections.

Reconfiguration provides the customer with the ability to direct the Telephone Company to connect or disconnect the customer's Special Access (a.k.a. BellSouth SPA) services with BellSouth SPA CNM - FlexServ Service to or from each other at a central office or central offices where the customer has purchased BellSouth SPA CNM - FlexServ Service on those services. The minimum entrance eligibility requirement for this Plan is 500 voice grade special access local channels provided by BellSouth in the BellSouth region. These local channels may be provided with or without any associated interoffice channels, but any associated interoffice channels must be subject to the Plan.

In addition to meeting this minimum eligibility requirement, customers electing the Plan must also agree to the terms and conditions specified in 7.4.13.2, following.

This requirement applies to all local and interoffice channels existing at the time of Plan election, all local and interoffice channels ordered when the Plan is elected, and all local or interoffice channels added at a subsequent date during the service commitment period.

The minimum service commitment period for which the Voice Grade (a.k.a. BellSouth SPA DS0 VG) Rate Stability Plan is provided and for which stabilized rates and charges are applicable is thirty-six months.

on the anniversary of the date on which the customer advises the Telephone Company (by signing a written agreement) of his desire to participate in the Plan. For example, a customer with 1000 voice grade local channels who selects a 60 month service commitment period will have growth requirements as follows:

The Local Channel Shortfall charge is calculated by averaging the customer's applicable two-wire and four-wire Voice Grade (a.k.a. BellSouth SPA DSO VG) Local channel rate and multiplying the average rate by six.

(1) Recurring Rates (Cont'd)

Different customers may have different plan establishment dates, and stabilized rates offered under this Plan may be different for the different Plan effective dates. However, each customer electing the Plan will have only one service plan establishment effective date, which will apply to all of the customer's rate elements subject to the Plan, whether those rate elements are existing and converted to the Plan, added at the time of plan establishment, or added at a later date during the rate stability service commitment period.

Prior to the expiration of a customer's commitment period, the existing commitment period may be replaced by a currently offered Voice Grade (a.k.a. BellSouth SPA DSO VG) Rate Stability Plan period, at the stabilized rates then in effect. A customer choosing a new commitment period will not incur termination liability charges if the length of the new commitment period is equal to or longer than the time remaining in the existing service agreement. However, one-half the nonrecurring conversion charge will apply for local channels converted to the new plan period. Billing for any services added to the Plan will be at the stabilized rate level. However, billing will not begin until the services are installed.

The Plan does not apply to the nonrecurring charges applicable for service installation. The charges specified in 7.5.3 (A) and (B), following will apply.

The Plan does not apply to the rates and charges for optional features and functions. Rates and charges specified in 7.5.3(C), following, apply for any optional features or functions required, whether existing or ordered at the time of plan election, or added at some future date.

(B) Termination Liability

A Termination Liability Charge shall apply to customers requesting complete termination of the Rate Stability Plan prior to the expiration of the selected service commitment period unless the customer has established a new plan as described in 7.4.13.5(A)(1), preceding or in 7.4.13.5(D), following. The Termination Liability Charge is calculated by multiplying the average of the two-wire and the four-wire Voice Grade (a.k.a. BellSouth SPA DSO VG) local channel rates in effect on the date the Plan was established by the guaranteed quantity as determined on the previous plan establishment anniversary date, times the number of whole months remaining in the selected service commitment period.

(C) Plan Expiration

At the end of the service commitment period, the customer may choose either of the following options: (1) on the expiration date of the initial service commitment period, the customer's rates for the services subject to the Plan will convert to the rates then in effect in 7.5.3(A) and (B), or (2) the customer may elect a new rate stability plan, subject to the terms and conditions then in effect for the Voice Grade (a.k.a. BellSouth SPA DSO VG) Rate Stability Plan. If the customer chooses to convert to a new rate stability plan, the new plan establishment effective date will be the day following the expiration date of the initial plan. Stabilized rates for the new plan will be the appropriate rates from 7.7.1, following, for the new plan establishment effective date. Option 1 will be the default in the event the customer does not notify the Company of its intentions prior to the Plan's expiration. No Termination Liability Charges will apply after expiration of the initial Plan, unless the customer has made those services subject to a new plan.

(D) Service Upgrades

Prior to the expiration of a customer's selected service commitment period, the customer may request service provided under the Rate Stability Plan to be upgraded to a higher order of service provided by the Company (i.e., digital services) under the terms of the Channel Services Payment Plan (CSPP) as stipulated in 2.4.8(A) preceding.

(1) Effective November 20, 2019, this Service will no longer be available for purchase by new or existing customers, and service agreements may no longer be renewed. In addition, requests to move, add or change existing service arrangements will not be accepted. Following the expiration of a customer's existing term agreement, service will be provided on a month-to-month basis at the applicable monthly extension rates until the service is discontinued. This two-wire exchange line and its associated rates and charges are in addition to the derived data channel rates and charges.

The DSO-B interface charge is applicable for each group of a maximum of twenty multiplexed derived data channels. Each of the twenty channels in a DSO-B interface channel group operates at a bit rate of 2.4 Kbps. An interoffice channel is required when the customer's serving wire center and the serving wire center of the customer's terminating premises are not the same.

Monthly rates and nonrecurring charges specified in 7.5 following apply for DDCS.

DDCS is available under several payment plans: Month-to-month (with a minimum of one month), Plan A (24-48 Months) or Plan B (49-72 Months). Plans A and B are provided under conditions specified in the Channel Services Payment Plan (CSPP), 2.4.8(A) preceding, except as modified following:

In order to accommodate more flexible customer situations, SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) is available under an Area Commitment Plan (ACP) as described in 2.4.8(B) preceding. The ACP commitment for SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) is made based on a level of SMARTPath service area connections. SMARTPath Area Junction connections will receive the same rate treatment for credits and shortfall charges as long as the associated SMARTPath Area Connection qualifies under the ACP. ACP termination liability charges will be calculated using the SMARTPath Area Connection and the Central Office SMARTPath Area Junction rates. The ACP shortfall charge will not apply for 12 months after SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) first becomes available in an ACP billing area.

Termination liability charges for SMARTPath service (a.k.a. BellSouth SPA DS1 Shared Ring) under CSPP or ACP will be calculated using the procedures for DS1 High Capacity service (a.k.a. BellSouth SPA DS1), as specified in 7.4.16(A) and 2.4.8(B) preceding, respectively.

The rates applicable to a month-to-month payment plan are subject to Telephone Company initiated changes. Rates stabilized under an ACP arrangement are exempt from Telephone Company initiated increases, however, decreases for any rate element will automatically flow through to the customer.

Customers may request a C-Bit Parity framing format for a DS3 level circuit. If the request is made at the time the circuit is installed, there is no additional charge. When a request for C-Bit Parity framing format is made for an existing circuit, a nonrecurring charge will be applicable for rearranging the framing format on the circuit. This charge will also be applicable if a customer requests that the C-Bit Parity framing format be removed from a circuit. This charge is specified in 7.5.17 following and is applied on a per circuit basis.

- (A) A termination liability charge will be applicable if services provided under a CSPP arrangement are disconnected prior to the end of the chosen service period. The termination charge is equal to the applicable rate per rate element for the current contract multiplied times the difference in months between the time the CSPP contract has been in effect and the minimum contract length multiplied times a factor. The factor is 50 percent for contracts that have been in effect twelve months or less, or 20 percent for contracts that have been in effect longer than twelve months.
- (B) No charges apply for the conversion of existing Voice Grade (a.k.a. BellSouth SPA DSO VG) service under a month-to-month payment plan to a CSPP arrangement.
- (C) Plan C offered under the CSPP arrangement, as specified in 2.4.8(A) preceding, is not available for Voice Grade (a.k.a. BellSouth SPA DSO VG) service.

In order to accommodate more flexible customer situations, certain elements of Voice Grade (a.k.a. BellSouth SPA DSO VG) service are available under an Area Commitment Plan (ACP) as described in 2.4.8(B) preceding. The ACP commitment for Voice Grade (a.k.a. BellSouth SPA DSO VG) service is made based on a level of local channels and interoffice channel miles. Voice Grade (a.k.a. BellSouth SPA DSO VG) Interoffice Channel-Fixed rate elements will receive the same rate treatment for credits and shortfall charges as long as the associated circuit mileage charges qualify under the ACP. The ACP A and ACP B rates for Voice Grade (a.k.a. BellSouth SPA DSO VG) service are the same as the Plan A and Plan B rates shown for CSPP.

- (D) No charges apply for the conversion of an existing Voice Grade (a.k.a. The customer will be given recognition for previous service for each circuit converted from the Voice Grade (a.k.a. - (A) Monthly recurring rates and nonrecurring charges apply as specified in 7.5.5 following for each Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video Network) service. These rates and charges are only valid for locations where facilities exist. If new facilities must be constructed, special construction charges may apply.

Dedicated, digital video channels are available at a transmission rate over 100 Mbps. Customers are required to subscribe to a minimum of 8 video channels that connect the digital video switch to the customer designated end locations. These 8 video channels may be any combination of video channels on an Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video) service Single Channel and/or Multiple Channel System.

Rate categories include Local Channels and Interoffice Channels. There are two types of Local Channels and Interoffice Channels:

- Single Channel Systems
- Multiple Channel Systems

Only one nonrecurring charge is applicable for one to six video channels installed on the same system at the same time.

In addition, a Multiple Channel System Interoffice Interface is available for interoffice transport of multiple video signals, in the same direction. No video channelization is required for this Multiple Channel System Interoffice Interface. Rates and Charges for this Multiple Channel System Interoffice Interface are in addition to the Multiple Channel System Interoffice Channel rate elements, i.e. airline mileage and applicable regenerators.

Two 15 kHz audio channels are provided with each video channel. The customer may order two additional 15 kHz audio channels per video channel, per site. Customers may opt for four 20 kHz audio channels, at rates and charges set forth in 7.5.5.3.1.A.4 in lieu of the two 15 kHz audio channels previously discussed.

- (B) Moves to a building (customer premises) in a wire center serving area different than the customer's existing serving wire center serving area will not be treated as a discontinuance and start of service. Nonrecurring move charges are applicable for Uncompressed Switched Video Service as set forth in 7.5.5.3.1.C. Separate facilities are needed for each transmit and receive circuit.

(C) Payment Plans

Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video Network) service is provided on a month-to-month basis or under conditions specified in the Channel Services Payment Plan (CSPP), Section 2.4.8 preceding, except as modified following:

- (1) Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video) service is initially available under Payment Plan A with a 36 month commitment period for the minimum 8 video channels. Additional 15 kHz audio channels, and Single Channel Systems above the minimum requirement, may be ordered under Payment Plan A with a 36 month commitment period or on a month-to-month basis. At the end of 36 months continuous service, customers may continue all service on a month-to-month basis or renew their arrangement for another 36-month CSPP commitment. The rates applicable for the renewed arrangement will be those applicable for new Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video) service. Month-to-month rates are subject to Telephone Company initiated changes and are available only after completion of an initial 36-month commitment period, except as modified preceding.
- (2) On a per arrangement basis, all rate elements provided under Payment Plan A will be coterminous. For example: all LCs and IOCs of the same Multiple Channel System will be disconnected at the same time.
- (3) On a per arrangement basis, all rate elements provided under a month-to-month basis are coterminous with the minimum requirement of 8 video channels. For example: if a customer has only 8 channels and a request is received to disconnect fewer than 8, all channels will be disconnected.

(D) Termination Liability

- (1) A termination liability charge will be applicable if Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video Network) services are disconnected prior to the end of 36 months except for additional 15 kHz audio channels and Single Channel Systems (above the minimum requirement) which may also be purchased on a month to month basis. The applicable charge is equal to the number of months remaining in the 36-month service period times the monthly rates for Uncompressed Switched Video (a.k.a. BellSouth SPA Uncompressed Switched Video) service which includes Local Channels and Interoffice Channels. Termination liability charges are not applicable for Uncompressed Switched Video (a.k.a.
