Service Charges applicable

CONNECTING ARRANGEMENTS FOR CUSTOMER-PROVIDED PUBLIC ADDRESS OR LOUDSPEAKER PAGING SYSTEMS (MAINTENANCE ONLY)**Regulations**

The rates and regulations contained in this Section for connection with customer-provided Public Address or Loudspeaker Paging Systems when associated with Centrex Service with switching equipment located on the customer's premises apply only to service ordered by customers prior to January 1, 1975, and to subsequent additions which in the opinion of the Telephone Company do not require a change out of equipment.

Customer-provided Public Address or Loudspeaker Paging Systems, which include amplifiers, receiving speakers, and associated wiring used to transmit paging messages or announcements in one direction only, may be used in connection with Telephone Company facilities furnished for Centrex Service with switching equipment located on the customer's premises subject to the following conditions:

Connection with Telephone Company Facilities

Connection of customer-provided Public Address or Loudspeaker Paging Systems with facilities of the Telephone Company shall be made only through connecting equipment or arrangements furnished by the Telephone Company. The connecting equipment or arrangements will include a connecting block or equivalent to which the customer-provided Public Address or Loudspeaker Paging System will be connected.

Telephone Company facilities when so connected may be used only to transmit messages or signals to customer-provided Public Address or Loudspeaker Paging Systems. Such Public Address or Loudspeaker Paging Systems may not be used to originate messages into Telephone Company facilities.

Responsibility of the Telephone Company

The use of customer-provided Public Address or Loudspeaker Paging Systems in connection with the facilities of the Telephone Company is permitted only on the condition that the liability of the Telephone Company for damages arising out of failures or defects in the connecting equipment or arrangements, not caused by the negligence of the customer, or of the Telephone Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the connecting equipment or arrangements for the period of service during which such failure or defect in the connecting equipment or arrangements occurs.

CONNECTING ARRANGEMENTS FOR CUSTOMER-PROVIDED PUBLIC ADDRESS OR LOUDSPEAKER PAGING SYSTEMS (MAINTENANCE ONLY) (cont'd)

Regulations (cont'd)

Obligation of the Customer

The operating characteristics of the customer-provided Public Address or Loudspeaker Paging System shall be such that the equipment will function properly with the facilities of the Telephone Company and will not interfere with any of the services offered by the Telephone Company. Upon notice from the Telephone Company that the equipment of the customer is causing or is likely to cause hazard or interference, the customer shall make such changes as may be necessary to remove or prevent such hazards or interference.

The customer indemnifies and saves the Telephone Company harmless against claims for libel, slander or infringement of copyright arising from the improper use of material transmitted over its facilities; against claims for infringement of patents arising from combining with, or using in connection with facilities of the Telephone Company, apparatus or systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone Company.

Other Connecting Arrangements

Message Registration

Customer-provided message registers used in conjunction with customer-provided communications systems may be connected to the exchange facilities of the Telephone Company through a Connecting Arrangement furnished, installed and maintained by the Telephone Company. This arrangement provides indications of message registrations for outgoing calls placed over associated Central Office facilities to such registers located on the customer's premises.

This arrangement is offered subject to availability of Central Office Equipment and facilities and requires a Type 1011 or 1012 Private Line Channel, as specified in Part 15, between the Central Office and the customer's premises in addition to the rates shown below.

Arrangement to permit the connection of customer-provided message register equipment to the exchange facilities of the Telephone Company.

Dial Access

Arrangement which provides trunk level access via a PBX or Centrex System to a customer- provided equipment (e.g., radio or loudspeaker paging system, dictation equipment or information retrieval system).
