

**CUSTOM CALLING FEATURES**

**A. Descriptions**

Call Waiting

Alerts a customer who is using their telephone that another caller is trying to reach them. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call. Call Waiting is automatically reactivated for the next originating or terminating call.

Call Forwarding<sup>/1/</sup>

Enables the customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone and the telephone to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and the routing necessary.

Three-Way Calling<sup>/2/</sup>

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may not meet normal standards depending on the distance and routing necessary.

Speed Calling<sup>/3/</sup>

Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. Eight code capacity and/or 30 code capacity may be provided on the same line, however, duplicate code capacities may not be provided. The combination of code capacities is not available on multiline hunting lines. Business Speed Calling 8 is obsolete for existing installations, at existing locations for existing customers.

**PRIVACY MANAGER<sup>SM/1/</sup>**

**A. Description**

Privacy Manager assists customers in the management of incoming calls that have been identified as either “anonymous”, “out-of-area”, “unavailable”, or “private” before their telephone rings. Incoming calls are intercepted and a recording is played informing the caller that the number they have dialed does not accept calls from unidentified telephone numbers. At the tone, the caller will be asked to record their name or the company they represent. If the caller elects to record their name the call will be completed. If the caller chooses not to record their name, the call is disconnected. After the caller identifies who they are, the customer’s telephone will ring and their Caller ID (CID) premises equipment will register a “Privacy Manager” message to indicate they are receiving a screened call. The customer will then hear a recording of the caller’s name (or the name of the company they represent). After the caller is identified, the customer may elect one of the following options:

- Accept the call
- Decline the call by playing a pre-recorded announcement
- Send the caller to CallNotes<sup>®/2/</sup>, customer-provided voice mail, or answering machine
- Decline a sales/telemarketing call by playing a pre-recorded announcement which requests that solicitors remove the customer’s name from their lists and not call again.

If no action is taken, the call will be directly forwarded to the customer’s voice mail or answering service. If the customer does not have an answering service or Call Forwarding-Busy Line/Don’t Answer (CFBL/DA) then Privacy Manager will intercept the call after the sixth ring and advise the caller that the customer is unavailable.

**B. Terms and Conditions**

In addition to the regulations provided in Section 1, the following terms and conditions apply:

1. The customer must also subscribe to CID-Calling Name & Number Delivery and Touch-tone Calling Service.
2. In addition to the limitations listed in Part 7, Section 1, this service is not available with Flat Rate Trunk, Message Rate Hotel-Trunk, SmartTrunk<sup>SM</sup> Service, Multiline & Series Completion Hunting, Reserve Line<sup>®</sup>, and Advanced Intelligent Network (AIN) Services including Intellinumber<sup>®</sup>, Positive ID, and Area Wide Networking (AWN) service Option II.
3. Privacy Manager service and Anonymous Call Rejection (ACR) cannot be provisioned together on the same line.

**COMPLEMENTARY NETWORK SERVICES**

**A. Descriptions**

Call Forwarding-Busy Line<sup>/1/</sup>

Allows incoming calls that encounter a busy condition to be forwarded to a predesignated telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and routing necessary.

Call Forwarding-Don't Answer<sup>/1/</sup>

Allows incoming calls which are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded. The transmission may not meet normal standards depending on the distance and routing necessary.

**B. Prices**<sup>/5/</sup>

- /1/ Customers ordering Call Forwarding-Busy Line, Call Forwarding-Don't Answer, or Call Forwarding-Busy Line/Don't Answer will not be billed the Service Connection Charge if their local exchange access line is also equipped with a package of services.
- /2/ Customers ordering Call Forwarding-Busy Line, Call Forwarding-Don't Answer or Call Forwarding-Busy Line/Don't Answer will not be billed the monthly recurring rate if they also subscribe to the Advantage Plan<sup>SM</sup>.
- /3/ Existing or new business customers who subscribe to a new term for Custom BizSaver II, SimpleLink Enhanced, CompleteLink 2.0, or Business Access Line Term Volume Discount will receive these services for \$2.00 per month for the duration of the contract term, as well as a waiver of associated Service Connection charges for the service(s).
- /4/ A Service Connection Charge will apply per line when the forwarded-to number associated with Call Forwarding-Busy Line or Call Forwarding-Don't Answer is changed at the customer's request. When the customer changes the designated number of rings, a Service Connection Charge will not apply.
- /5/ See Part 3, Section 1, for application of Service Connection Charges.

**TELEBRANCH® (cont'd)**

**C. Rates and Charges**

1. The following Access Path charges for TeleBranch are in addition to applicable charges for service and equipment with which it is used.

	<u>USOC</u>	<u>Monthly Rate</u>	<u>Service Connection Charge</u> <sup>/1,2,3,4,5/</sup>	
TeleBranch, first access path .....	RCFWE, RCFVF, RCFVE, RCFVS, RCFWS, RCFNS, RCFMV, RCFVN RCFWG	\$22.90	/6/	(l)
Additional access paths, each.....	RCA	22.90	/6/	(l)

- a. Business customers who have their exchange access service with another carrier and who now establish their exchange access service with the Company and who subscribe to TeleBranch service will receive TeleBranch service at the discounted monthly rate as listed below for the first 12 months. In addition, these customers will also receive a waiver of the nonrecurring charges to add TeleBranch. This discounted monthly rate applies to both the initial as well as additional TeleBranch paths. Usage charges are applicable.

	<u>USOC</u>	<u>Monthly Price</u>
Discounted price .....	RCF/RCA	\$5.00

The TeleBranch call forwarding number must terminate to a Company business access line in order to qualify for this discount and waiver. Customers must retain TeleBranch for 12 consecutive billing cycles in order to receive the full benefit of this offer. Customers who discontinue TeleBranch prior to the required 12 billing cycles will forfeit any remaining credits.

- /1/ The Service Connection Charge will not apply on outside moves of customer's other service (the terminating number does not change) if there is no telephone number change.
- /2/ To change the TeleBranch number, a Service Connection Charge is applicable.
- /3/ To change the number to which calls are forwarded, at the request of the customer, a Service Connection Charge is applicable.
- /4/ To change both numbers as in footnotes /2/ and /3/ above, at the same time, only one Service Connection Charge applicable.
- /5/ Only one Service Connection Charge will apply when an additional access path or paths are ordered at the same time as the first TeleBranch access path or when multiple additional paths are purchased on a subsequent order.
- /6/ See Part 3, Section 1, for application of Service Connection charges.
