A1. DEFINITION OF TERMS

BUILDING (SAME)

The term "same building" is to be interpreted as a structure under one roof, or two or more structures under separate roofs but connected by enclosed passageways in which the wires or cables of the Company can be safely run provided the plant facility requirements are not appreciably greater than would be required normally if all structures were under one roof. In those cases where there are several structures under separate roofs but connected by enclosed passageways and the plant facility requirements for furnishing service are appreciably greater than would be required normally if all structures were under one roof, the term "same building" applies individually to each of the separate structures. Pipe and conduit are not considered enclosed passageways.

CALL

An attempted or completed communication.

A1. DEFINITION OF TERMS

CENTRAL OFFICE CONNECTING FACILITY

Denotes a facility furnished to an Other Common Carrier by the Company (in accordance with the Company's facilities for Other Common Carrier's Tariffs) between the terminal location of the Other Common Carrier and a point of connection on the Company premises.

CENTRAL OFFICE DESIGNATION

"See Telephone Number".

CENTRAL OFFICE DISTRICT

The specific section of territory served by a single central office, i.e., the section within which the call numbers of all exchange and public telephone stations other than toll stations have the same central office designation. A central office district may be served in either of two ways, via:

- a. By a central office consisting of separate and distinct switchboard equipment ordinarily located within the district boundaries.
- b. By a central office consisting of switchboard equipment located in another distinct central office district, a separate switchboard or separate portions of the same switchboard being used for the purpose of serving the separate districts. Such a central office district is termed a "Potential Central Office District."

CENTRAL OFFICE LINE

See "Exchange Line".

COMPANY

Whenever used in this Tariff or its headings, "Company" and "South Central Bell" refer to BellSouth Telecommunications, Inc. unless the context clearly indicates otherwise.

COMPLETED CALL

A completed call is a calling attempt by the subscriber that results in an off-hook condition at the receiving end. Such conditions shall include the following actions:

- (1) the called party responds by personally answering the call;
- (2) a customer controlled automatic answering device responds by answering the call;
- (3) a Company recording, under the control of the called party, responds to the calling attempt, except for attempts defined as incomplete calls (e.g., Call Block and other similar services would be completed calls.);
- (4) the calling attempt, when under the control of the called party, (e.g., Call Forwarding Busy Line, Call Forwarding Don't Answer, etc.) is forwarded to another telephone number that results in one of the conditions described in (1), (2), or (3) preceding.

A1. DEFINITION OF TERMS

CONNECTING ARRANGEMENT

The term "Connecting Arrangement" denotes the equipment provided by the Company to accomplish the direct electrical connection of customer-provided facilities with the facilities of the Company.

CONNECTING COMPANY

A Corporation, association, firm or individual, licensed and operating as a communications common carrier, owning and operating a toll line and/or one or more central offices providing local exchange telephone service and with whom the Company interchanges traffic.

CONNECTING STATION

An exchange or toll station of a connecting company.

DEMARCATION POINT

The point of demarcation and/or interconnection between Company communications facilities and terminal equipment, protective apparatus or wiring at a subscriber's premises. Company-installed facilities at, or constituting, the demarcation point shall consist of wire or a jack conforming to Subpart F of Part 68 of the Federal Communications Commission's rules. "Premises" as used herein generally means a dwelling unit, other building or a legal unit of real property such as a lot on which a dwelling unit is located, as determined by the Company's reasonable and nondiscriminatory standard operating practices.

DROP WIRE

Wires used to connect the circuits of open wire, aerial or underground distribution facilities to the point where connection is made with the inside wiring.

TELECOMMUNICATIONS RELAY SERVICE

The Mississippi Telecommunications Relay Service is provided pursuant to Miss. Code Ann. Section 77-3-501 et seq. (Cum. Supp. 1990) and permits hearing and/or speech disabled users of Text Telephones (TTs) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TT and TT to voice) through the Mississippi Relay Center.

(D)

MISSISSIPPI RELAY CENTER

The Mississippi Relay Center permits hearing and/or speech disabled users of Text Telephones (TTs) to communicate with users of ordinary telephones. Communications take place by relaying conversations (voice to TT and TT to voice). These calls are between one party who must communicate by means of a TT and another who communicates by means of an ordinary telephone. Messages are rated from the rate center of the calling party to the rate center of the called party.

(DELETED)

(D)

MONTH

A word "month", as used in this Tariff, is to be defined as a 30-day period.

(DELETED)

(D)

NETWORK CONTROL SIGNALING

The transmission of signals used in the telecommunications system which perform functions such as supervision (control, status, and charging signals), address signaling (calling and called number identification), audible tone signals (call progress signals indicating re-order or busy conditions, alerting, coin denominations, coin collect and coin return tones) to control the operation of switching machines in the telecommunications system.

NETWORK CONTROL SIGNALING UNIT

The terminal equipment furnished, installed and maintained by the Company for the provision of network control signaling.

NETWORK INTERFACE

Network Interface is a standard jack provided by the Company as a part of exchange access, WATS, or Private Line Services for the connection of customer terminal equipment and premises wiring to the telephone network. The Network Interface will be located at the demarcation point.

PREMISES (SAME)

1. The term "same premises" (except in connection with inside moves) shall be interpreted to mean:
 - a. the building or buildings, together with the surrounding land occupied as, or used in the conduct of one establishment or business, or as a residence, and not intersected by a public thoroughfare or by property occupied by others; or
 - b. the portion of the building occupied by the subscriber, either in the conduct of his business or as a residence, and not intersected by a public corridor or by space occupied by others;
 - c. the continuous property operated as a single farm whether or not intersected by a public thoroughfare; or
 - d. the building or portion of a building occupied by the subscriber in the conduct of his business and as a residence provided both the business and the residence bear the same street address.
2. In connection with inside moves, the term "same premises" is to be interpreted to mean the building or portion of a building occupied as a unit by the subscriber in the conduct of his business or residence, or a combination thereof, and not intersected by a public thoroughfare, a corridor, or space occupied by others.
3. In connection with resale and sharing of basic local exchange service, "premises" is interpreted to mean the resale area as defined by layout maps, if required, and may be intersected by public thoroughfares provided that the property segments created would be contiguous in the absence of the thoroughfares.

SUBSCRIBER

Any person, firm, partnership, corporation, municipality, cooperative organization or governmental agency furnished communication service by the Company.

(DELETED) (D)

SUSPENSION OF SERVICE

An arrangement made at the request of the subscriber, or initiated by the Company for violation of tariff regulations by the subscriber, for temporarily discontinuing service without terminating the service agreement or removing the telephone equipment from the subscriber's premises.

TELECOMMUNICATIONS SERVICE PRIORITY (TSP) SYSTEM

A structured coding scheme that prescribes the order in which National Security Emergency Preparedness (NSEP) telecommunications services are installed or restored. The TSP System was developed to support the requirements of the U. S. Government and applies only to NSEP telecommunications services to which the Company is able to apply priority treatment. It requires and authorizes priority action by the Company.

WIRE CENTER

A "Wire Center" is a Company facility that houses Company equipment necessary for the provision of switched and non-switched telephone service to customers in a defined geographical area. The facility is identified with V&H coordinates and is assigned one or more NXX's for use in providing switched services to customers located in the specified geographical area. The Company equipment located at a Wire Center may consist of switching equipment or non-switched equipment working with a distant host switch as well as equipment used to terminate dedicated non-switched services.

WIRE CENTER SERVING AREA

The term "Wire Center Serving Area" denotes, in most cases, that area of the exchange served by a single wire center.

A2.3.21 Connection With Miscellaneous Common Carriers

A. Application

1. Service is available to and from customers of Miscellaneous Common Carriers through connecting facilities provided by the Company in accordance with the provisions set forth in A2.3.21.A.2. through 5. following.
2. Subject to the availability of facilities and the reasonable requirements of the Company for its telecommunications services, the Company will, at the Miscellaneous Common Carrier's request, physically connect its facilities with those of the Miscellaneous Common Carrier for the purpose of interchanging intrastate traffic in connection with the Miscellaneous Common Carrier's Domestic Public Land Mobile Radio Services (as defined in Part 21 of the FCC Rules). Such connection and interchange of intrastate traffic shall be as follows:
 - a. Two Way Mobile Traffic
The Company will connect its facilities between any telephone exchange whose rate center is located in the Miscellaneous Common Carrier's Reliable Service Area (as defined in Part 21 of the FCC Rules) and the Miscellaneous Common Carrier's control point(s) in or serving that Reliable Service Area.
 - b. One-Way Signaling Traffic
The Company will connect its facilities between any telephone exchange within which a signaling receiver is served by the Miscellaneous Common Carrier's system and the Miscellaneous Common Carrier's control point(s) in or serving that system.
3. The facilities provided for connection and interchange of traffic shall not be used, switched or otherwise connect together by the Miscellaneous Common Carrier for the provision of through calling from a landline telephone to another landline telephone, nor shall they be switched or otherwise connected together by the Miscellaneous Common Carrier for the provision of through calling from a landline or mobile unit located in one Reliable Service Area (as defined by Part 21 of the FCC Rules) to a landline telephone or mobile unit in another Reliable Service Area (as defined by Part 21 of the FCC Rules).

A2. GENERAL REGULATIONS

A2.4 Payment Arrangements And Credit Allowances (Cont'd)

A2.4.2 Deposits (Cont'd)

- C. The fact that a deposit has been made in no way relieves the applicant or subscriber from complying with the Company's regulations as to advance payments and the prompt payment of bills on presentation or constitutes a waiver or modification of the regular practices of the Company providing for the discontinuance of service for non-payment of any sums due the Company.

A2.4.3 Payment For Service

- A. The subscriber is responsible for payment of all appropriate charges for completed calls, services, and equipment. All charges due by the subscriber are payable at the Company's Business Office or any agency duly authorized to receive such payments. If objection in writing is not received by the Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.
- B. The subscriber shall pay monthly in advance or on demand all charges for service and equipment and shall pay on demand all charges for billed local usage. Basic monthly charges are billed in advance. Charges for local usage are billed in arrears. The subscriber is responsible for payment of all charges for services furnished the subscriber, including charges for services originated or charges accepted at the subscriber's station.
- C. When service has been disconnected for non-payment, the service agreement is considered to have been terminated. Reestablishment of service may be made only upon the execution of a new service agreement which is subject to the provisions of this Tariff.
- D. In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for non-payment of charges, or otherwise discontinued, terminated or interrupted, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for non-payment of any such or other charges due and unpaid or for the violation of the provisions of this Tariff; nor shall the failure to suspend or disconnect service for non-payment of any past due account or accounts operate as a waiver or estoppel to suspend or disconnect service for non-payment of such account or of any other past due account.
- E. **(DELETED)** (D)
- F. **(DELETED)** (D)
- G. Residence subscribers with overdue bill balances for their existing service, which has been temporarily suspended for nonpayment, who are unable to pay the charges in full may be allowed to retain their local service if they elect to have a full toll restriction placed on their existing service, at no charge, until the charges are paid. These subscribers may arrange to pay the outstanding balance in up to twelve (12) monthly installment payments (see Section A4). An installment Billing Service Fee may apply as specified in Section A4. A late payment charge may be applied to the overdue new charges on the subscriber's previous month's bill which were not paid prior to the next billing date at the time the installment payment plan is established.
