Package Number:	MS-24-0013
Service Name:	TDM to IP Transition - Canton, MS Facility Damage
Tariff /Guidebook Sections:	GEGB A2; PVLGB B2
Expected Issue Date:	03/29/2024
Expected Effective Date:	03/29/2024
Descriptive Narrative:	<p>Effective March 29, 2024, certain services will be discontinued in the service area affected by the copper retirement resulting from a severely damaged facility/cabinet due to fallen trees causing degradation of copper facilities. Due to potential wild fire risk Entergy is removing electrical connection serving this cabinet easement. The area is identified in AT&T Mississippi's records as distribution areas 4201 and 4202 of the Canton wire center (CNTNMSMA).</p> <p>AT&T is restoring many services in this area with a fiber-to-the-premises network architecture, which will increase the broadband service options for this area. AT&T is discontinuing certain services because provisioning these services over the new architecture is either uneconomical or technically infeasible.</p>
