The following general regulations are applicable in addition to regulations, rates and charges specified in other sections of this tariff. Where reference is made in this tariff to regulations, rates and charges specified in other tariffs of the Company or in the AT&T Ohio Guidebook, such tariffs or Guidebook as they now exist, or as they may be revised, added to or supplemented, are hereby adopted and made a part of this tariff.

3. The regulations and conditions contained in this tariff concerning the establishment of service for and the furnishing of service to applicants and customers shall apply to such assignee or transferee.

(T)

If, however, the customer has another active local exchange service line at the same service address, the 14 day outgoing access to 9-1-1 service will not be placed on the disconnected line. Where 14-day outgoing access to 9-1-1 service is provided on a disconnected line, all other incoming and outgoing calls on the disconnected line will be blocked. 1. ESTABLISHING AND FURNISHING SERVICE (cont'd)

1.6 Overtime

The service connection, move, change, installation and nonrecurring charges specified in this tariff contemplate work being performed by the Company during the usual working hours on normal working days. When, at the specific request of a customer or applicant for service, work is performed at other times, either for the convenience of the customer or applicant for service or for other reasons not under the control of the Company, the expense incurred by the Company in excess of the normal expense of such work, when performed during usual working hours on normal working days, may be billed to the customer or applicant for service, in addition to the charges otherwise applicable.

2. PAYMENT FOR SERVICE

2.1 Customer Responsibility

The customer is required to pay all charges for service and facilities in accordance with the Company's billing and collection practices. The customer will be held responsible for all charges for telephone service rendered in connection with local or toll messages placed from his station and in connection with toll messages received at his station on which the charges have been reversed with the consent of the person called.^{/1/}

(T)

2.2 Thirty Day Month

For the purpose of computing charges for facilities and service, and allowances for interruptions in service, every month shall be considered to have thirty days.

2.3 Advance Payments and Deposits

A. Advance Payments

The Company reserves the right to require applicants to make such advance payments as may be necessary for the protection of the Company's exchange and toll service revenues, as well as toll service revenues of an IXC for whom the Company is an authorized agent. The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

^{/1/} Effective March 19, 2016, Collect, Person to Person and Bill to Third Number call types are discontinued.

2.3 Advance Payments and Deposits (cont'd)

B. Deposits

The Company may, in order to safeguard its interests or those of an IXC for whom the Company is an authorized agent, require an applicant or a customer to make suitable deposit to be held by the Company or IXC. In addition, the Company may require customers who file for bankruptcy to furnish adequate assurance of payment in the form of a deposit or other security in accordance with the U.S. Bankruptcy Code, Section 366. Deposits for residential BLES service shall be in accordance with O.A.C 4901:1-6-12(C)(10). Further, the Company may require toll caps in lieu of, or in combination with, a deposit or advance payment to establish creditworthiness. (C) (C)

The fact that a deposit has been made in no way relieves the applicant or customer from complying with the Company's regulations as to advance payments and the prompt payment of bills. At such time as the contract is terminated, such amount of the deposit as is necessary will be applied to any indebtedness to the Company for telephone service charges. A deposit may be refunded or credited to the customer's account at any time prior to the termination of the contract in accordance with the Company's policies.

2.5 Effect of Charge Increases on Pending Orders

A customer who orders service or equipment installations, moves or changes prior to the effective date of any increase in the one time charge applicable to such work will be subject to the one time charge in effect at the time such customer's order was received by the Company provided such work is completed within the Company's normal installation interval in effect at the time such order was placed. The Company's normal installation interval is the interval between the date an order is taken and the earliest date the order can be completed in accordance with the standard work schedules on the date the order is taken. However, if subsequent to the effective date of the increase in the one time charge, the completion of such work is delayed beyond the Company's normal installation interval and the delay is not caused by the Company, such customer will then be subject to the one time charge in effect at the time the work is completed by the Company. A part of an order which is completed prior to the effective date of any increase in the one time charge and which is subject to billing prior to the completion of the entire order in accordance with the Company's billing practices shall be subject to the one time charge in effect on the date said part is completed although the total work is not completed, due to customer-caused delay, by the effective date of the increase. One time charges as used in this paragraph include Service and Equipment charges, move and change charges, installation charges, nonrecurring charges and nonrecurring charge options.
