**C. Exchange Rate Groups**

Rates for Local Exchange Access Service are based on the number of local exchange access arrangements within the local calling area of an exchange. Where the local calling area includes different exchanges of the Company, or the Company and another local exchange company (LEC), the total local exchange access arrangements of all exchanges involved are used to determine the basis for rate grouping. Rates for the various Exchange Rate Groups are shown in Part 4, Section 2. Exchange Rate Groups are listed below.

<u>Exchange Rate Group</u>	<u>Total Local Exchange Access Arrangements In Local Calling Area</u>
1	1 – 8,000
2	8,001 – 30,000
3	30,001 – 60,000
4	60,001 – 200,000
5	200,001 – 400,000
6	400,001 – 800,000
7	800,001 – 1,500,000
8	1,500,001 and over

This Guidebook will be amended to change an exchange to a higher or lower Exchange Rate Group after such exchange has maintained consistently for twelve (12) months local exchange access arrangements below or above the range of its Exchange Rate Group. Furthermore, in those instances when the number of local exchange access arrangements has remained above or below the range by two (2) percent for six (6) months or more for an exchange, this Guidebook will be amended to change the exchange to a higher or lower Exchange Rate Group.
