1. Definitions

For these definitions, the terms "regulated," "deregulated" and "stand-alone" are based on the definitions in PURA §65.002.

- a. A **Standard** Line (with or without touchtone) is defined as those residence lines in deregulated (competitive) exchanges that are "stand-alone," meaning they have no other services including but not limited to additional lines, vertical services, additional Directory Listings, local toll plans and optional local calling plans. An exception to this definition is that a Standard line with Caller ID only (i.e., no other additional services) will be considered a Standard line. Other services provided by affiliate or non-affiliate providers of telecommunications services have no bearing on the Standard/Standard Plus classification.
- b. A **Standard Plus** Line is defined as all other lines in deregulated (competitive) exchanges. Deregulated exchanges are indicated in paragraph 4 of this section of the tariff.

2. Special Regulations

The priority provisioning and restoration of services offered under this tariff relative to the National Security Emergency Preparedness (NSEP) Telecommunications Service Priority (TSP) System shall be pursuant to the regulations and rates as delineated in the Telecommunications Service Priority System Tariff.

For application in this tariff, such regulations, rates and charges as are described in the Telecommunications Service Priority System Tariff shall be interpreted to apply on a "per request, per line/trunk" basis.

3. The rates shown herein are for Local Exchange Access Service.
