EFFECTIVE: NOVEMBER 4, 2003

INTERSTATE INTRALATA
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1 - APPLICATION OF TARIFF

1.1 General

This tariff contains the regulations and rates applicable to Interstate IntraLATA Long Distance Message Telecommunications Service (IILDMTS) provided by BellSouth Telecommunications, Inc. in its operating territories. Service provided under this tariff is only applicable for interstate toll service between rate centers in a particular LATA. Each LATA and its rate centers are shown in section 4.3 following.

1.2 Jurisdiction

Jurisdiction refers to the classification of an IILDMTS call as interstate (subject to the jurisdiction of the Federal Communications Commission) or as intrastate (subject to the jurisdiction of a state regulatory body). Jurisdiction is a matter of law, not of Company discretion or policy, or Customer preference. The law describing what constitutes interstate jurisdiction is the Communications Act of 1934, as amended. The Title Page of this tariff describes the jurisdictional scope of this tariff.

1.3 Computation of Charges

The charge for an IILDMTS call is based on such factors as: (1) the distance between the rate centers of the originating (calling) and terminating (called) stations; (2) the time of day and the day of the week when the call takes place; (3) the duration of the call; (4) the class of service; and (5) Other Line charges or service charges, when applicable. The specific factors which apply to a given IILDMTS call are listed in the rate section applicable to the service.
