3 - SERVICE CLASSIFICATIONS, RATE APPLICATION AND RATES

3.1 General

This section contains regulations and rates for IILDMTS. Rates, regulations and material in this section are for two-point service only, and apply to dial station, Calling Card, and operator-assisted message services.

3.1.1 Application of Charges

The specific factors used to determine the applicable charges for a call are indicated on the respective rate schedules. The following factors are common to all IILDMTS rate schedules in this section.

(A) Initial Period

Initial Period is the initial rate increment of an IILDMTS call. The specific length of the initial period is indicated on the applicable rate schedule.

(B) Additional Minute

Additional Minute is the rate element used to bill for the chargeable time when an IILDMTS call continues beyond the initial period. Additional Minute begins when the initial period ends (e.g., with the second minute of a call for which the initial period is one minute). Additional Minute rates apply to each additional minute, or any fraction thereof, that chargeable time continues beyond the initial period.

(C) Charges Paid for by Coin Deposits in a Public or Semi-Public Coin Telephone

When the charges for a call are paid by the depositing of coins in a public or semi-public coin telephone, the total charge for the call is the sum of the appropriate initial period rate and any additional minute(s) charge, rounded to the nearest multiple of \$.05, plus any applicable Service Charge, and tax(es).

3.1 General (Cont'd)

3.1.1 Application of Charges (Cont'd)

(D) Call Forwarding

Call Forwarding is an Exchange Service feature offered in certain areas by the Telephone Company. This feature enables Customers to arrange for incoming calls to be automatically forwarded to a different telephone number designated by the Customer. The charges for a forwarded call are as follows:

- (1) A charge for the portion of the call from the calling station to the called station (call forwarding number), if applicable,
- (2) a charge for the portion of the call from the call forwarding number to the terminating number designated by the customer.
- (3) The respective charge for each such portion in (1) and (2) preceding is dependent upon the jurisdiction of that portion. Where the call(s) is furnished via the Telephone Company's telecommunications network, for each interstate intraLATA call, the rates specified in this tariff apply.

For an interstate intraLATA Person-to-Person, Customer Dialed Calling Card Station, or Operator Station call, other than Collect, the calling station is charged the appropriate Operator Service Charge in addition to the Dial Station rate from this tariff for the portion of the call described in (1) preceding. If that portion of the call described in (2) preceding is interstate, the Dial Station rate from this tariff applies and is billed to the call forwarding Customer.

(3) (Cont'd)

For an interstate intraLATA Collect Call placed to a call forwarding number, the Collect Call charges apply to the portion of the call described in (1) preceding if the call is answered at the terminating number. If the portion of the call described in (2) preceding is interstate, it will be billed at the Dial Station rate from this tariff.

For an Interstate IntraLATA Person-to-Person or Collect Call which is not accepted by a party at the terminating number, for the portion of the call described in (2) preceding, the Dial Station rate in effect in this tariff will be charged to the terminating number.

(A) Classes of Service

The Dial Station, Customer Dialed Calling Card Station, Operator Station, Person-to-Person and Real Time Rated classes of service.

(C) Distance Measurement

Rates in this schedule are based on the distance in airline mileage between the rate centers (NPA-NXX or NPA-Centroid) of the stations involved. Airline mileage is calculated as specified in Section 4 following.

(D) Initial Period

The initial period for all classes of service is one minute.

(E) Service Charges and Surcharges

A Service Charge is applicable to Customer dialed Calling Card Station, Operator Station, Person-to-Person and Real Time Rated calls and for Busy Line Verifications and Busy Line Interruptions. This charge is in addition to the initial minute and additional minute charges applicable to a call. When a call is subject to more than one service charge, only the highest service charge applies.

A Surcharge applies to Operator Station and Person-to-Person calls (as specified in Section 3.2.2, following) in which the Customer has the capability to dial the number, but has the operator dial instead.

3.2 Rates and Rate Schedules (Cont'd)

3.2.1 Interstate - IntraLATA - Schedule I (Cont'd)

(G) Application of Rates

For the initial minute, the rate applicable at the start of chargeable time at the calling station applies. For additional minutes, the rate applicable is that rate which is in effect at the calling station when the additional minute(s) begin. That is, if chargeable time begins during the Evening Rate Period, the Evening rate applies to the initial minute and to any additional minutes that the call continues during that rate period. If the call continues into a different rate period, the appropriate rates from that rate period apply to any additional minutes occurring in that rate period. If an additional minute is split between two rate periods the rate period applicable at the start of the minute applies to that entire minute. If the computed charges include a fraction of a cent, the fraction is rounded down to the next whole cent (e.g., \$1.426 would be rounded down to \$1.42).

(H) Rates Applicable for Hearing or Speech Impaired Persons

Reduced rates are available to qualified persons who have hearing or speech impairments subject to the following:

- (1) Application - Persons who have been certified in writing by a licensed physician, audiologist, speech pathologist, or appropriate State or Federal agency as having a hearing or speech impairment which precludes oral communications and who have and use a telecommunications device for visual communications, will receive an adjustment on Customer dialed station calls which do not require the intervention of a Telephone Company operator. The adjustment is applied to the appropriate rate schedules according to the following:
 - (a) Calls placed during the Day Rate Period will be charged at the Evening rate,
 - (b) Calls placed during the Evening Rate Period will be charged at the Night/Weekend rate.
