

10. Federal Government Specialized Services and Arrangements

10.3 Service Descriptions

10.3.7 Federal Access Solutions Transport (FAST) Program

(A) General Description

This section contains conditions, rates and charges applicable to the provision of the FAST Program to any customer awarded a contract to provide telecommunications services for the exclusive use of the Federal Government, Agencies of the Federal Government, or authorized agents of the Federal Governments. The FAST Program will allow each of the Federal Government's authorized contractors providing network services under contract to obtain discounted rates for specified services in return for certain term commitments for dedicated Special Access connections to government locations.

(B) Services Available Under the FAST Program

The FAST Program is provided as a monthly service arrangements with a 3-year service period for the following Services listed below:

Service	General/Basic Description
GigaMAN	Part 9, Section 7.3.12 (A)
MON Ring	Part 9, Section 11.1 (A)
Optical Carrier Network (OCN) Point-to-Point Service	Part 9, Section 40.1

(T)

(T)

(T)

(C) Limitations

(Z)

- (1) Not in use
- (2) Nonrecurring Charges will apply including the Access Order Charge.
- (3) When a rate element is ordered under the FAST Program, that rate element may not be used for non-FAST Program services. Rate elements not included in this plan are not available under the FAST Program and must be purchased from the appropriate tariff or guidebook.
- (4) Not in use
- (5) During the term of the selected FAST Program, Telephone Company initiated recurring charges (increases or decreases) will automatically be applied to the monthly charges for the remaining months of the current FAST Program term.
- (6) The monthly recurring rate during the FAST Program term will never exceed the rate in effect at the beginning of the customer's FAST Program term.
- (7) The FAST Program cannot be combined with any other tariffed or guidebook services, discounts, or pricing flexibility contracts, unless explicitly stated in the respective tariff terms and conditions.
- (8) Services receiving term discounts under this plan are excluded from any application of Shared Use provisions in Part 9, Section 7.

(Z)

(D) Terms and Conditions

(Z)

(1) Conversions of FGTS to a new FAST Program

Conversions from FGTS to a new 3-year FAST Program term may be made if the expiration date for the new 3-year FAST Program term is beyond the expiration of the original FGTS being converted and will become effective upon completion of the conversion activity. The rates, terms, and conditions applicable for the new 3-year FAST Program term will be those in effect at the time the conversion is completed. Access Order Charges will apply for conversions of existing FGTS to a new 3-year FAST Program term.

(2) Conversions of existing FAST Program services to a different FAST Program term

At any time prior to the expiration of the FAST Program term, if the FAST Program has not been grandfathered, a conversion may be made to a new 3-year FAST Program term. The FAST Program term must occur between the same two termination points as the original service being converted and will become effective upon completion of the conversion activity. The rates, terms, and conditions applicable for the new 3-year FAST Program term will be those in effect at the time the conversion is completed. Access Order Charges will apply for the conversion of an existing FAST Program term to a new 3-year FAST Program.

(Z)

(3) Upgrading an existing FAST Program to a
Higher Speed Service

(Z)

At any time during the FAST Program term, service may be upgraded to a higher speed service. The new higher speed service must occur between the same two termination points as the original service being upgraded. The new higher speed service must be on a new term contract that has an expiration date beyond the expiration date of the FAST Program term being terminated. The rates, terms, and conditions applicable for the new contract term of the higher speed service will be those in effect at the time the conversion is completed. Nonrecurring installation and ordering charges associated with the higher speed service are applicable.

(4) Conversions from existing Month-to-Month
Upgrades

Customers may convert from existing month-to-month service to a new 3-year FAST Program term. If there are no physical changes to service, the Access Order Charge will apply. If physical changes occur, the activity would be classified as a termination of the month-to-month service and installation of a new 3-year FAST Program term. Customer will be responsible for all nonrecurring installation and ordering charges associated with the new FAST Program term.

(5) Not in use

(Z)

(E) Termination Liability

(Z)

When a FAST customer's disconnection is governed by the Federal Acquisition Regulations, then the termination provisions found in the Federal Acquisition Regulations apply.

When a FAST customer's disconnection is not governed by the termination provisions of the Federal Acquisition Regulations, a termination charge will be calculated as follows:

(Monthly Recurring FAST rate) X (number of net terminated FAST circuits subject to Termination Charges) X (months remaining in FAST term) X (50.00%).

(F) Expiration of the FAST Program

The FAST Program term is not available for renewal. At the expiration of the FAST Program term, the customer may select a new FAST Program term at the prevailing FAST Program rates. If the customer does not wish to purchase a new FAST Program term at the expiration of the term, the customer's service will automatically convert to the current month-to-month or monthly extension rates found in the appropriate tariff section.

(Z)

10.5 Rates and Charges

10.5.7 Federal Access Solutions Transport (FAST) Program

(C)Gigabit Ethernet Metropolitan Area Network (GigaMAN)	USOC	3-Year
Local Distribution Channel-per Point of Termination-1 Gbps	TMECS	\$2,500.00
Interoffice Transport Mileage-fixed	1L5XX	100.00
Interoffice Transport Mileage-per Mile 1 Gbps	1L5XX	75.00
Repeater-each	VU4	850.00
Diversity Options-		
Local Channel Diversity-per Channel Terminating Bit Rate-1 Gbps	CPALX	625.00
Inter Wire Center Diversity-per Channel Termination Bit Rate-1 Gbps	CPATX	375.00
Alternate Wire Center Diversity-per Channel Termination Bit Rate-1 Gbps	CPAAX	1,075.00
For applicable Installation and Rearrangement Charges and Rates, see Part 9, Sections 7 and 39.
