

3. Carrier Common Line Access Service

The Telephone Company will provide Carrier Common Line Access Service (Carrier Common Line Access) to customers in conjunction with Switched Access Service provided in Section 6 of this tariff.

3.1 General Description

Carrier Common Line Access provides for the use of end users' Telephone Company provided common lines by customers for access to such end users to furnish Interstate Communications. The rate elements included in Carrier Common Line Access are the Multiline Business Primary Interexchange Carrier Charge (PICC), the Carrier Common Line Charge (CCL) and the Special Access Surcharge.

The Multiline Business PICC is a flat monthly charge that applies for each end user's Multiline Business common line. The Multiline Business PICC applies on a per presubscribed line basis. The individual rate elements, types of lines, and specific rate applications are further described in Sections 3.5 and 3.8.

(T)

The CCL is a usage sensitive element that applies to switched access minutes of use as a premium rate. The application of premium rates for a specific customer depends upon the type of service. The rules for applying CCL rates are provided in Section 3.8.

(D)

(D)

(T)

The Special Access Surcharge, as set forth in Section 7.4.2(E) , will apply to interstate special access service provided by the Telephone Company to a customer, in accordance with regulations as set forth in Section 7.4.2.

(T)

(T)

Rates contained in this transmittal are subject to subsequent adjustment, effective retrospectively back to the transmittal's original effective date, in the event the Commission or a court subsequently authorizes Ameritech to correct its rates pursuant to pending motions, or petitions for reconsideration or waiver (and including, but not limited to, any Application for Review of the letter from Lawrence E. Strickling, Chief, Common Carrier Bureau, FCC, to Dale Robertson, SBC, dated May 18, 1999 which may be filed with the Commission), or in the event of any other adjustment pursuant to an order of the Commission or a court.

3. Carrier Common Line Access Service

3.2 Limitations

3.2.1 Exclusions

Neither a telephone number nor detail billing are provided with Carrier Common Line Access. Additionally, directory listings and intercept arrangements are not included in the rates and charges for Carrier Common Line Access.

3.2.2 Access Groups

All line side connections provided in the same access group will be limited to the same features and operating characteristics.

All trunk side connections provided in the same access group will be limited to the same features and operating characteristics.

3.2.3 Dedicated Access Lines

Where Switched Access Services are provided in conjunction with Special Access Services at Telephone Company Designated WATS Serving Offices for the provision of WATS or WATS-type Services, Switched Access Service minutes which are carried on that end of the service, (i.e., originating minutes for outward WATS and WATS-type services and terminating minutes for inward WATS and WATS-type services) shall not be assessed Carrier Common Line Access per minute charges.

3.5 Description of the Primary Interexchange Carrier Charge

A Multiline Business Primary Interexchange Carrier Charge (PICC) applies for each end user's Multiline Business common line.

3.5.1 Assessment of the Multiline Business PICC

For Multiline Business end user lines which have a Presubscribed Interexchange Carrier (C)
 Carrier (C)

(PIC), as described in Section 4.2, the Multiline Business PICC applies to the selected IC (C)

on a per presubscribed line basis. This charge also applies when a telecommunications carrier has purchased local exchange service for resale. (C)
 (C)

When an end user's line has two PICs, one for interLATA calls and one for intraLATA calls, the Multiline Business PICC is billed to the interLATA presubscribed carrier. (D)
 (D)

When an interexchange carrier is reselling MTS and/or MTS-type service(s), the reseller will be billed the Multiline Business PICC, unless other arrangements have been made. This is described further in 3.7, Resold Access Services and 3.8, Rate Regulations. (C)
 (C)

If the Multiline Business end user line is not presubscribed to a primary interexchange carrier, the Multiline Business PICC will be assessed directly to the end user. If the local exchange service is provided on a resold basis by a telecommunications carrier other than the Telephone Company, and the end user has not chosen a presubscribed interexchange carrier, the reseller will be assessed the Multiline Business PICC. (C)
 (C)

Upon timely notification (at least 15 days before the date on which the Telephone Company determines the IC's PICC liability for a given month) from an IC to the Telephone Company that the IC has terminated long distance service to an end user for nonpayment or other violation of the IC's tariff, the Telephone Company will cease billing the Multiline Business PICC to the IC with respect to that end user's lines. The Telephone Company will bill the Multiline Business PICC directly to the end user until such time as the end user selects a new presubscribed IC. The IC will also furnish the Telephone Company with a copy of the end user notification or updated Customer Account Record Exchange (CARE) records for terminated end users which indicate the date of end user notification and reason for termination. (C)

For Switched Access Dedicated Network Access Links, Carrier Common Line charges do not apply.

3.7 Resold Access Services**3.7.1 Scope**

Where the customer is reselling MTS and/or MTS-type service(s) on which the Carrier Common Line and Switched Access charges have been assessed, the customer may, at the option of the customer, obtain Feature Group A, Feature Group B or Feature Group D Switched Access Service under this tariff as set forth in Section 6 following for originating and/or terminating access in the local exchange. Such access group arrangements, whether single lines or trunks or multiline hunt groups or trunk groups, will have Carrier Common Line Access charges applied as set forth in 3.9 following. Rate regulations for the Primary Interexchange Carrier Charge (PICC) and the Carrier Common Line (CCL) charge are described in 3.8. In addition, the CCL will apply in accordance with the resale rate regulations set forth in 3.7.4 following. For purposes of administering this provision:

Resold interstate terminating MTS and MTS-type service(s) shall include collect calls, third number calls and credit card calls where the reseller pays the underlying carrier's service charges; and shall not include intrastate minutes of use.⁽¹⁾ (N)

3.7.2 Customer Obligations Concerning the Resale of MTS and MTS-type Services

When the customer is reselling MTS and/or MTS-type service as set forth in 3.7.1 preceding, the customer will be charged Carrier Common Line Access charges in accordance with the resale rate regulations as set forth in 3.7.4 following if the customer or the provider of the MTS service furnishes documentation of the MTS usage and/or the customer furnishes documentation of the MTS-type usage. Such documentation supplied by the customer shall be supplied each month and shall identify the involved resold MTS and/or MTS-type services.

When the customer is reselling MTS and/or MTS-type service and is obtaining access under this tariff, the customer will be assessed the PICC on a per presubscribed line basis. At the request of the reseller, with the concurrence of the provider of the MTS service, the PICC charges will be billed to the MTS provider. Both the reseller and the provider must furnish the Telephone Company with letters of authorization accepting such a billing arrangement and the provision of carrier data included in the bill detail.

T

The monthly period used to determine the minutes of use for resold MTS and/or MTS-type service(s) shall be the most recent monthly period for which the customer has received a bill for such resold service(s). This information shall be delivered to the Telephone Company, at a location specified by the Telephone Company, no later than 15 days after the bill date shown on the resold MTS and/or MTS-type service bill. If the required information is not received by the Telephone Company, the previously reported information, as described preceding, will be used for the next two months. For any subsequent month, no allocation or credit will be made until the required documentation is delivered to the Telephone Company by the customer.

3.8.1 Rate Regulations Concerning Primary Interexchange Carrier Charge

(D)

The Primary Interexchange Carrier Charge Multiline Business (PICC) is a flat monthly charge that applies for each Multiline Business end user's common line. The PICC applies on a per presubscribed line basis. If the end user line is not presubscribed to an Interexchange Carrier (IC), the Multiline Business PICC will be assessed directly to the end user. When an end user's line has two PICs, one for interLATA and one for intraLATA calls, the Multiline Business PICC is billed to the interLATA presubscribed line. Exceptions will be discussed below.

(D)

(C)

(C)

(C)

(C)

A snapshot of all end user lines will be taken once per month to determine the presubscribed carrier. The number of lines per carrier will be accumulated from this snapshot by state, LATA, end office and end user line type. If an IC has more than one Carrier Identification Code (CIC), data will also be summarized by CIC.

(D)

(D)

The Multiline Business PICC is assessed based on the number and type of lines that are presubscribed to an individual carrier. The types of lines for which Multiline Business PICC applies corresponds to the types of lines for which End User Common Line charges (described in Section 4) apply. Primary Rate Interface - ISDN (ISDN-PRI) is provided with up to twenty-three trunks per ISDN-PRI. Each of the trunks in an ISDN-PRI service may be presubscribed to an IC, or may be provided without a presubscribed carrier. An ISDN-PRI service may include trunks that are presubscribed to multiple carriers, or a combination of presubscribed and non-presubscribed trunks.

(T)

The PICC for ISDN-PRI will be calculated based on the Multi-Line Business PICC rate, multiplied by five and then divided by the trunks per service. For trunks that are presubscribed to an interexchange carrier (IC), the ISDN-PRI PICC will be charged to the presubscribed IC for each trunk. If a trunk is not presubscribed to an IC, the end user will be billed the PICC for that trunk.

(D) Exceptions to General Rate Application

If the end user Multiline Business line does not have a presubscribed interexchange carrier, the Multiline Business PICC will be assessed directly to the end user. The Telephone Company will bill the PICC directly to the end user until such time as the end user selects a new presubscribed IC. The IC will also furnish the Telephone Company with a copy of the end user notification or updated Customer Account Record Exchange (CARE) records for terminated end users which indicate the date of end user notification and reason for termination.

If the end user line is presubscribed to a carrier that is reselling MTS and/or MTS-like service (access reseller), the PICC may be billed to one of its MTS service providers if both the reseller and the provider have furnished the Telephone Company with a letter of authorization. In this letter the reseller will accept such a billing and with this arrangement, the reseller must choose only one of its providers per state to be billed their PICC charges and will permit the provision to the provider of bill detail data necessary to verify the bill.

ACCESS SERVICE**3. Carrier Common Line Access Service (cont'd)****3.8 Rate Regulations (cont'd)****3.8.6 Determination of Premium Charges (cont'd)** (D)**D. Terminating Premium Access , per minute charges(s), apply to: (Cont'd)** (D)

- all originating access minutes of use associated with calls placed to 500, 700 900 and toll free numbers, less those originating access minutes of use associated with calls placed to 500, 700, 900 and toll free numbers for which the customer furnishes for each month a report of either the number of calls or minutes or a Percent Common Line (PCL) report of the percent of calls or minutes that terminate in a Switched Access Service that is assessed Carrier Common Line charges.

If the customer does not provide a Percent Common Line report, the percent of calls or minutes that terminate to a common line will be assumed to be 100. When a customer provides a report, the percent will continue to be used until it is superseded by a subsequent report. When the customer determines that any currently effective PCL is no longer accurate, the customer shall report a revised percent. The revised PCL will become effective on the first day of the next monthly billing period which begins at least 15 business days after the day on which the customer reports the revised percent to the Telephone Company.

When the customer makes this report available to the Telephone Company in advance of billing, these minutes of use will be charged on the current bill as originating minutes of use as set forth in (E), following. If a billing dispute arises concerning the customer (T) provided report, the Telephone Company will request the customer to provide the data the customer used to develop the report. The Telephone Company will not request such data more than once a year. The customer shall supply the data within 30 days of the Telephone Company request.

When this report is not available to the Telephone Company until after billing, it shall be used by the Telephone Company to calculate and post a credit to the customer's account. The credit shall be posted to the customer's account within 30 days of receipt of the report. The credit shall be calculated by multiplying the number of access minutes of use, for which a credit is determined to be applicable, times the difference between the terminating and originating Carrier Common Line charges in effect when the calls were completed.
