

ACCESS SERVICE

10 - Special Federal Government Access Services

10.1 Special Offering to the Federal Government

10.1.1 Type and Description

(A) Disaster Recovery Access Links

(1) General Description

Disaster Recovery Access Links provide diversely transport capabilities for the purpose of disaster recovery associated with critical national security communications at the John C. Stennis Space Center and are available for subscription to Federal Government agencies. The service components are described in (a) and (b) below. (T)
(T)
(T)

(a) InterLATA Access Links (T)

InterLATA Access Links provide an interLATA connection between the customer's premises at the John C. Stennis Space Center in the Biloxi Mississippi LATA to the BellSouth Jackson Pearl Central Office in the Jackson Mississippi LATA, where the Access Links will connect to standard tariff services for further connection to the customer's network. (T)

The service components associated with InterLATA Access Links are (1) OC-192 Concatenated Access Link, (2) OC-192 Access Link Access Link with Service Level Visibility, (3) Service Level Interfaces, and (4) Customer Network Management Surveillance. (T)

(b) Intra-office Connection (N)

The Intra-office Connection will provide intra-office non-channelized transport facilities in the BellSouth Jackson Pearl Central Office (JCSNMSCPWAM) in the Jackson Mississippi LATA to connect the Access services in (c) below to the John C. Stennis disaster recovery services in (a) above using the following components: (N)
(N)
(N)
(N)
(N)
(N)
(N)

- Intra-office Connections (N)
 - DS1 Connection - 2-Fiber Connection (N)
 - DS3 Connection - 4-Fiber Connection (N)

(c) These Intra-office Connections may connect in the Jackson Pearl Central Office with the following Access Services: (N)
(N)

FCC Tariff No. 1, Sections 7 and 23:
 - DS1 Service (a.k.a. BellSouth SPA DS1) (N)
 - LightGate Service (a.k.a. BellSouth SPA Point to Point) at DS3 (N)
(N)

Interstate Guidebook, Sections 7 and 23:
 - LightGate (a.k.a. BellSouth SPA Point to Point) at 1000 Mbps, (N)
 OC-3, OC-12 and OC-48 (N)
 - BellSouth Metro Ethernet Service at 1 Gigabit (N)
 - SMARTRing Service (a.k.a. BellSouth SPA Dedicated Ring) at DS3, (N)
 1000 Mbps, OC-3, OC-12, and OC-48 (N)

Certain material previously appearing on this page now appears on Original Page 1.1.

ACCESS SERVICE

10 - Special Federal Government Access Services

10.1 Special Offering to the Federal Government (N)

10.1.1 Type and Description (N)

(A) Disaster Recovery Access Links (N)

(2) Rate Conditions (N)

(a) Disaster Recovery Access Links service components available under this tariff are for a minimum of sixty months and subscription to each of these services obligates the customer to pay all access link service charges set forth in this tariff during the sixty month term for the Disaster Recovery Access Links. Disaster Recovery Access Links contain nonrecurring and recurring charges that are applicable to the service components as follows: (T)(M)

- Access Links contain a nonrecurring charge associated with the installation of the service and a monthly recurring charge associated with the service's facilities. The recurring charges are based on a 60 Month Commitment Period (i.e., 60 Month Commitment Monthly Rates) and Month-to-Month rates. The 60 Month Commitment Monthly Rate is applicable each month, for sixty months, beginning with the initial installation of the service. For the OC-192 Access Link with Service Level Visibility, the 60 Month Commitment Period recurring charge has been converted to a nonrecurring amount and included in the service component's nonrecurring charge. Month-to-Month rates for Access Links are applicable only upon completion of a 60 Month Commitment Period. Commitment Plan rates are stabilized over the sixty month term and are not subject to increases. (M)

(b) The Intra-office Connections in (3) following provide zero-rated nonrecurring and month-to-month rate elements that will be used for provisioning purposes. (N)

Certain material now appearing on this page previously appeared on Original Page 1.

ACCESS SERVICE

10 - Special Federal Government Access Services

10.1 Special Offering to the Federal Government

10.1.1 Type and Description

(A) Disaster Recovery Access Links

(2) Rate Conditions

(b) Cont'd

- Service Level Interfaces are available for use with the OC-192 Access Link with Service Level Visibility and contain nonrecurring and recurring charges. The nonrecurring charge is associated with the installation of an interface and applies per interface. The recurring charge is a Month-to-Month rate that is applicable only during the time period an interface is in-service. The recurring charges for the Service Level Interfaces are not rate stabilized and are payable for the time period they are activated on the OC-192 Access Link With Service Level Visibility.
- Customer Network Management (CNM) Surveillance service components provide the customer the ability to monitor the performance of an Access Link. CNM service components apply per customer or central office location on a OC-192 Access Link.

ACCESS SERVICE

10 - Special Federal Government Access Services

10.1 Special Offering to the Federal Government (N)

10.1.1 Type and Description (N)

(B) Intra-Office Disaster Recovery Access Links (N)

(1) General Description (N)

Intra-office Disaster Recovery Access Links are provided to support disaster recovery associated with critical national security communications at the John C. Stennis Space Center and are available for subscription to Inter-exchange Carriers as described below. (N)

(a) Intra-office Disaster Recovery Access Links will provide intra-office non-channelized transport facilities in the BellSouth Jackson Pearl Central Office (JCSNMSCPWAM) in the Jackson Mississippi LATA to connect the Access services in (b) below to the John C. Stennis disaster recovery services in (A) preceding using the following components: (N)

Intra-office Access Links¹ (N)
 - 2-Fiber Access Link (N)
 - 4-Fiber Access Link (N)

(b) The above 2-Fiber and 4-Fiber Access Links may connect in the Jackson Pearl Central Office with the following Guidebook Services subscribed to by Inter-exchange Carriers. (N)

- LightGate Service (a.k.a. BellSouth SPA Point to Point) at OC-3, OC-12 and OC-48 (N)
- BellSouth Metro Ethernet Service at 1 Gigabit (N)
- SMARTRing Service (a.k.a. BellSouth SPA Dedicated Ring) at DS3, 1000 Mbps, OC-3, OC-12 and OC-48 (N)

(2) Rate Conditions (N)

A nonrecurring charge is associated with the installation of an Intra-office Disaster Recovery Access Link, and a month-to-month rate is associated with the service's facilities as set forth in (3) below. (N)

(3) Rates and Charges (N)

(a) Intra-office Access Links, per Access Link (N)

	<u>Nonrecurring Charge</u>	<u>Month to Month</u>	<u>USOC</u>	
- 2-Fiber Access Link	\$200.00	\$10.25	SGNF2	(N)
- 4-Fiber Access Link	\$400.00	\$20.50	SGNF4	(N)

Note 1: DS1 and DS3 Intra-office Access Links are provided in FCC Tariff No. 1, Section 10. (N)
