A100. OBSOLETE SERVICE OFFERINGS - GENERAL

A100.1 General

- A. Service offerings listed herein are classified as Obsolete. Conditions applicable to these offerings are set forth in paragraphs following.
1. Basic Local Service
Coding to indicate those classes of basic local service which are not offered at all or which have been obsoleted is shown in Section A3. with appropriate footnotes. The footnotes are keyed to the specific exchanges to which they apply. (T)
 2. Service offerings (other than classes of basic local exchange service) which have been made obsolete are classified according to the categories shown following.
Type A - Obsolete service offering. Not available to customers as new service offering except in cases where the obsolete service is left in or when transferred to a new location within the same exchange.
Type B - Not available for new installations, additions or on transfers of service to new location.
Type C - Unit no longer being manufactured; offered for new installations only as obtainable from existing stock.
Type D - Any other arrangement; the specific provisions in each case being stated at the beginning of the text for the obsolete service offering affected.
- B. Obsolete services are furnished subject to all the *terms and conditions* of the *guidebook* the same as would be applicable if the service offering were not obsolete. For convenience in use, a *guidebook* reference is provided as an aid in referring the reader to a specific section of the *guidebook* having a bearing on the obsolete service offering. (T)
- C. Services which are continued in service for existing customers only may be retained by a customer as long as the equipment is repairable and the Company is able to obtain repair parts under normal supply conditions. When this equipment becomes unrepairable or repair parts are unobtainable, the service will be discontinued and the equipment removed by the Company.

(Obsolete 6-23-86, Type D, Guidebook Reference A3.8)

Existing customers with Joint User Service located at the same address established prior to 6-23-86 may request changes or modifications of existing joint user accounts and/or additions of new joint users on or after 6-23-86 under the *terms and conditions* described following. Subscribers who relocate, transfer service responsibility and/or establish service after 6-23-86 will be furnished service according to the conditions specified in other sections of this Guidebook.

A103.8.1 Application, Terms and Conditions

- A. In general, business exchange service is furnished for the exclusive use of the business subscriber and his employees, agents, and representatives. Joint User Service is a shared service arrangement which allows the business exchange service of a subscriber to be used, when designated by the primary subscriber, by individuals, firms, or corporations not otherwise permitted use of the subscriber's business service by this Guidebook.
- B. Joint user service is permitted in connection with the following:
 - (1) Business individual line flat rate, measured rate, message rate, or semipublic service,
 - (2) Commercial PBX flat rate, measured or message rate service,
 - (3) Hotel PBX service,
 - (4) Centrex Type Services
- C. Where service is furnished at a concession rate to the primary subscriber, Joint User Service will not be provided unless the proposed joint user would be entitled to service at a concession rate, if he were a primary station subscriber. No concession is allowed from the regular rates for Joint User Service.
- D. Application for Joint User Service and for changes in service or equipment furnished therewith must be executed by the primary subscriber. The primary subscriber is responsible for payment of all charges incurred, regardless of whether such charges are associated with his usage or that of any of his joint users. Stations, additional listings and miscellaneous equipment are furnished, with the consent of the primary subscriber, for use of the joint user, at regular rates.

A103.8 Joint User Service (Cont'd)

A103.8.1 Application, Terms and Conditions (Cont'd)

- E. Charges for Joint User Service date from the day the Company's information records are posted and are payable monthly in advance. The minimum chargeable period for Joint User Service is the life of the directory issue in which the listing first appears, not to exceed one year from the effective date of the listing. Contracts for Joint User Service are self-renewing for periods of one directory issue, not to exceed one year from the effective date of the directory. In the event the joint user listing does not appear in the directory, the minimum chargeable period is for one month.
- F. Joint User Service is terminated and charges for Joint User Service are automatically discontinued upon termination of the primary subscriber's telephone service. Charges for Joint User Service may be discontinued at the request of the subscriber provided that the joint user no longer utilizes any of the customer's service or equipment, and also that the terms of the minimum service period have been satisfied.
- G. The total charges for telephone service allocated by the primary subscriber among the subscriber and his joint users shall not exceed the charges of the Company to the primary subscriber as set forth in this *Guidebook*. (T)
- H. Joint users of a primary subscriber's service must have the option of obtaining service directly from the Company.
- I. A joint user is entitled to one listing in the alphabetical section of the telephone directory.

A103.38 Back-Up Line

(Obsoleted 11-1-11, Type B – Not available for new installations, additions or on transfers of service to new location.)

A103.38.1 Terms, Conditions and Rates

(T)

- A. Back-Up Line is an optional service which provides individual line business subscribers with an additional line which is available for inward and outward calling.
- B. This service is only available to individual line business subscribers, where facilities permit. Back-Up Line service cannot be used as the primary business line, and must be located on the same premises as the business individual line service with which it is associated.
Back-Up Line will not be available to Classroom Communication Service.
- C. Each Back-Up Line can receive calls forwarded from one busy primary line or hunt group at no charge. This overflow capability will be provided on the forwarding line.
If a customer subscribes to more than one Back-Up Line, these Back-Up Lines may be provisioned in an overflow group at no charge. Overflow capability may not be provided from a Back-Up Line or group of Back-Up Lines to other lines on the same premises.
- D. Overflow capability from additional primary lines or hunt groups to Back-Up Line service will be provided on the forwarding line.

	Monthly Rate	USOC
1. Overflow to Back-Up Line from each additional flat, measured, or message rate primary line or hunt group will be provided at the rate specified for Grouping Service.		
(a) See A3.19	-	BULRX
2. Overflow to Back-Up Line from each additional Area Calling Service primary line or hunt group will be provided at the rate specified for Grouping Service.		
(a) See A3.19	-	BULSX
E. A directory listing is not furnished with Back-Up Lines. However, a directory listing may be purchased, if desired, at the rates specified in Section A6.		
F. Usage charges are applied for all incoming and outgoing calls associated with Back-Up Line service, as described in H. and I., with the following exceptions. No usage charges apply to calls completed to the Company Business Office, Repair Service, or Emergency 911 Service. Charges for calls to Directory Assistance will be billed at the rates shown in A3.13 or A18. Usage Based Pricing primary lines will be billed their appropriate usage charges for all calls which overflow to a Back-Up Line. These usage charges are in addition to the Back-Up Line incoming usage charge described in H.		
G. The access line rate per Back-Up Line is as follows.		
1. Back-Up Line associated with Area Calling Service business individual line service.

(Obsoleted 6-15-2007, Type D - Not available for new installations, additions to existing installations, or moves to a new location. Existing customers may not change to a different BellSouth Business Plus service option, however, they may convert to a Complete Choice for Business package that includes BellSouth Business Plus service.)

A103.43.1 Plan Descriptions**A. BellSouth Business Plus Service**

1. BellSouth Business Plus service is offered as a business individual line service where facilities and equipment are available.
2. BellSouth Business Plus service allows the business customer to choose between two LATA-wide¹ calling options:
 - a. Option 1 - Flat rated plan which allows for unlimited calling within the LATA (subject to a total usage allowance of 120 hours/7200 minutes).
 - b. Option 2 - Combination rated plan which provides for unlimited usage within the local calling area for a flat monthly charge, and a single rate for each minute of use for all other calling within the LATA.
3. The option chosen by the BellSouth Business Plus service subscribers will apply to each of their lines.
4. Touch-Tone Calling service is provided to all BellSouth Business Plus service subscribers at no additional charge.
5. Customers may subscribe to either the standalone BellSouth Business Plus service offering or to the BellSouth Business Choice Package (See A103.44) which includes a BellSouth Business Plus service line option or to the BellSouth Complete Choice for Business package (See A3.45) which includes a BellSouth Business Plus service Option 2 line. If BellSouth Business Plus service is subscribed to, the rates of A103.43.2 are applicable. If BellSouth Business Choice Package or BellSouth Complete Choice for Business package is subscribed to, the rates of A103.44.2 or A3.45.2, respectively, are applicable. All of the *terms, conditions* and limitations specified for each offering will apply to the respective services and features. (T)
6. Usage rating is dependent upon the underlying service of the originating call location. When BellSouth Business Plus service usage charges as described in 2. preceding are applicable, they will also apply to 1+, 0+ and 0- calls made within the LATA. However, for 0+ and 0- calls, usage does not contribute toward the Option 1 usage threshold and each minute of use is rated. The appropriate operator services surcharges will also be charged in accordance with the *terms and conditions* of A3.14. (T)
7. BellSouth Business Plus service Option 2 customers only may subscribe to Local Usage Detail for billable usage. There is no charge for the Local Usage Detail.
8. Method of Determining Monthly Usage Charges
 - a. Usage is determined for each call based on minutes or fraction thereof, with minimum call duration of one minute. This value is then multiplied by the rate per minute for the rate option selected by the customer. The resultant amount is truncated to whole cents for each call. The amount of usage billed to the customer is subject to b. and c. following.
 - b. For Option 1, only usage above the first 120 hours (7,200 minutes) of usage allowance is billed to the customer.
 - c. For Option 2, only usage outside the Local Calling Area is subject to the billing as described in a. preceding.

Note 1: For a list of all exchanges in each LATA, see A3.6.2.

A. Definitions

ATTENDANT ACCESS CIRCUIT

An attendant access circuit connects an attendant position to the serving central office. These circuits are used for the completion of calls directed to the attendant, extension of those calls to station lines and attendant assistance for station lines.

ATTENDANT POSITION

An attendant position consists of customer-provided premises equipment.

BASE SERVICE AREA

The base service area of an ESSX-1 system is located in the serving central office area within a one-half air line mile radius of the serving central office.

COMMON BLOCK

A Common Block is that portion of the memory storage in a No. 1 ESS central office that contains the features for a specific ESSX-1 system. An additional common block is required when a single ESSX-1 system serves two or more locations with widely differing calling characteristics.

ESSX-1 MAIN STATION LINE

An ESSX-1 main station line consists of the termination of a station circuit in the switching equipment of the serving central office.

ESSX-1 MAIN STATION CIRCUIT

An ESSX-1 main station circuit connects an ESSX-1 main station line to the serving central office.

ESSX-1 SYSTEM

An ESSX-1 system consists of all station lines of a customer with the same primary directory listing which are served by the same central office equipment.

A. Definitions (Cont'd)

GROUP USE SERVICE

Group Use Service is an optional service feature whereby different ESSX-1 systems which are served by the same central office equipment may be arranged for intercommunication calling between station lines and attendant positions of those systems.

NETWORK ACCESS REGISTER

The Network Access Register provides for exchange and toll network calling to and from main station lines and attendant positions of an ESSX-1 system.

STATION HUNTING

1. Series Sequential

When a call is originated to a busy station line in a series sequential station hunting group, the call hunts for an idle station line in that group in an ascending numerical sequence. A number may not hunt to any number which would hunt back to the original number dialed. Each line can hunt to and/or be hunted from only one number.

2. Series Non-Sequential

When a call is originated to a busy station line in a series nonsequential hunting group, the call hunts for an idle station line in that group in a pre-arranged numerical sequence. A number may not hunt to any number which would hunt back to the original number dialed. Each line can hunt to and/or be hunted from only one number.

3. Basic Multi-Line Hunt Group

When a call is originated to a busy station line in a basic multi-line hunting group, the call hunts once in a pre-arranged order for an idle station line through all remaining station lines in that group.

4. Call Forwarding - Busy Line

When a call is originated to a busy station line, the call is forwarded to the attendant or a designated station line in the same ESSX-1 system. The calls forwarded may be incoming only or incoming and intercommunicating.

5. Call Forwarding - Don't Answer

When a call which has been originated to a station line is not answered before the message of a prescribed time interval which is dependent upon the arrangement of the serving central office equipment, the call is forwarded to the attendant or a designated station line in the same ESSX-1 system. The calls forwarded may be incoming only or incoming and intercommunicating.

TOLL DIVERSION

Toll Diversion automatically denies an ESSX-1 station line direct dialing access to a toll network. Station line users attempting to place such calls are diverted to the attendant.

TOLL RESTRICTION

Toll Restriction automatically denies an ESSX-1 station line direct dialing access to a toll network. Station line users attempting to place such calls will receive a distinctive tone to indicate that access is denied.

TRUNK ANSWER ANY STATION LINE

Trunk Answer Any Station Line is an attendant position night service arrangement whereby, when activated by the attendant, calls to the primary directory listing activate a common alerting signal on the customer's premises. These calls may then be answered by any main station line in the system upon dialing a special code.

A111. OBSOLETE SERVICE OFFERINGS - ESSX-1 SERVICE

A111.1 ESSX-1 Service (Cont'd)

A111.1.2 Terms and Conditions (Cont'd)

- B.** ESSX-1 Service is classified as business service and is furnished only from No. 1 ESS central office equipment located on Company premises. ESSX-1 Service is offered subject to the availability of facilities and where, in the judgment of the Company, service may be provided by the use of service arrangements, equipment and facilities in quantities and types regularly furnished by the Company.
- C.** ESSX-1 Service is offered only as a complete service. ESSX-1 Service is not available without Network Access Registers.
- D.** Attendant positions, if provided, are located on the customer's premises and must conform to the operating practices of the Company to ensure that a proper standard of service is maintained.
- E.** One primary directory listing is furnished without additional charge for each ESSX-1 system in order to direct incoming calls from the exchange and toll networks to an attendant position of an ESSX-1 system.
- F.** An attendant access circuit may be arranged for dial "O" operation in order to permit station line users direct access to an attendant position.
- G.** The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an ESSX-1 system is limited by the number of network access registers subscribed to by the customer. Each network access register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the network access register is installed. When a change in the type of operation is requested the customer, the appropriate Service Charge as specified in Section A4. applies per network access register affected. (T)
- H.** Interception of Calls to Unassigned Station Lines
 - 1. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service. Referral of unassigned number calls will not be provided.
 - 2. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all ESSX-1 systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted.
- I.** At the time an ESSX-1 main station line is initially installed, it will be equipped with a suitable station hunting arrangement as determined jointly by the customer and the Company. When a change in that arrangement is requested by the customer, the appropriate Service Charge (including Premises Work Charges) as specified in Section A4. for a change in a line termination applies per main station line affected. (T)
- J.** When the station hunting arrangements Call Forwarding-Busy Line and Call Forwarding-Don't Answer are provided on the same station line, all busy line and don't answer condition calls forwarded must either be incoming only or incoming and intercommunicating and, in addition, must be forwarded to the attendant or the same designated station line.
- K.** With the exception of Network Access Registers, neither partial nor complete temporary suspension of ESSX-1 Service is permitted.
- L.** Optional Service Features

1. Definitions (Cont'd)

CALL PICK-UP

A station line user may answer calls directed to another station line in the same call pick-up group by dialing a preset code.

CALL WAITING-TERMINATING

A called station line equipped with this optional service feature will receive an audible tone to indicate that an incoming or intercommunication call is waiting when the called station line is busy.

CALL WAITING-ORIGINATING

A calling station line provides an audible tone to a called station line in the same ESSX-1 system to indicate that an intercommunication call is waiting when the called station line is busy.

2. The optional service feature Call Waiting-Terminating can only be provided when all station lines in an ESSX-1 system which are so equipped are arranged for either incoming calls only or incoming and intercommunication calls. Call Waiting-Terminating and the basic service feature Call Forwarding-Busy Line cannot be provided on the same station line.

M. Rates and Charges

1. The rates and charges specified for ESSX-1 Service are in addition to the *guidebook* rates and charges for stations and other services with which the system is associated. (T)
2. Nonrecurring Charges
 - a. ESSX-1 nonrecurring charges are in addition to appropriate Service Charges (including Premises Work Charges) outlined in Section A4. (T)
 - b. ESSX-1 nonrecurring charges applicable on initial or subsequent installation may, at the customer's option, be paid in a lump sum when the service is established or deferred over a predetermined time in accordance with existing administrative procedures.
3. If the ESSX-1 subscriber elects a Measured Rate Service option, Measured Rate Service usage charges specified in Section A3. are applicable on calls to locations outside the subscriber's ESSX-1 system in addition to the rates and charges in this and other *guidebook* sections for ESSX-1 Service and other associated services. Usage charges are not applicable on calls originated and terminated within the same ESSX-1 system. (T)
4. A mixture of flat rate and measured rate service will not be allowed within a single customer system.
5. ESSX-1 Basic Equipment, Network Access Registers, lines and circuits are available either at the rates and charges specified in A111.1.3. or under the ESSX-1/Multiline Service Option in A111.1.7. The customer must subscribe to all of these elements from the same *guidebook* section. (T)
6. When connecting ESSX-1 lines to facilities of other Interexchange Carriers not under the Company's jurisdiction, all ESSX-1 rates and charges associated with that line are not applicable.

B. Automatic Route Selection (Cont'd)

2. Definitions (Cont'd)

PATTERN

A group of routes arranged to be selected in a sequence specified by the customer. For example:

Pattern #1	Pattern #2	Pattern #3
Company FX	Company WATS	Company FX
Company WATS	Company CCSA	Company WATS
Company CCSA	Overflow Tone	Company Tie Line
Toll		Toll

ROUTE

A route is a group of one or more facilities of the same type used to complete 7 or 10-digit calls between the same points.

ROUTE SELECTION

The automatic selection of the preferred route as predetermined by the customer, upon dialing of an access code by the station line user.

3. *Terms and Conditions*

- a. Automatic Route Selection is offered only to ESSX-1 customers served from No. 1 ESS central offices equipped to furnish this feature, where facilities permit.
- b. Preferred routes and alternate routing patterns will be specified by the customer.
- c. All rates and charges specified for Automatic Route Selection are in addition to the rates and charges for the associated facilities.
- d. The number of patterns required by a customer are governed by the type and variety of facilities to which the customer subscribes.
- e. A single rate per facility will apply regardless of the number of patterns having access to that facility. The monthly rate specified is applicable to each facility available to the patterns.
- f. Patterns without final route to a toll network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgment of the Company, provide an adequate level of service so as to avoid interfering with the service of others (or to prevent others from making or receiving calls over their telephone service.)
- g. Where a route is used in one pattern (pattern reached by one access code), only one translation may be provided per route. Where a route is used in two or more patterns (each pattern is accessed by different access codes), one translation per pattern may be provided subject to the appropriate charges as specified in A111.1.4.B.4.c. Where central office code translation is required for more than one Number Plan Area (NPA) per single facility group or route, rates and charges as specified in A111.1.4.B.4.b. will apply for each NPA translated.
- h. A group of patterns may have either a toll network or overflow tone as a final route. A combination of both within the same pattern group, that is, a group of patterns accessed by one code, is not permitted. Dial "9" may be used as an access code only if the patterns accessed have a toll network as a final route.

C. Station Message Detail Recording

1. General

Station Message Detail Recording (SMDR) is an arrangement to provide a record, by station number of originating intercity traffic routing over FX, WATS, EPSCS, CCSA and/or toll type facilities for ESSX-1 customers, where facilities have been made available. The station message detail will include the calling station number, the called number, date, time of day, duration of call and the type of facility used. Some message detail may be limited or omitted when this service is provided in conjunction with Automatic Route Selection.

The record will be provided, on magnetic tape, to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in the routes selected by the customer for Station Message Detail Recording.

2. *Terms and Conditions*

- a. Station Message Detail Recording (SMDR) may be offered to station lines of ESSX-1 customers served from a No. 1 ESS central office where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- b. Station Message Detail Recording is not represented to be a provision of billing detail. Where Foreign Exchange type facilities are involved, all such call attempts, whether completed or not, will appear in the SMDR.
- c. Station message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the accounting center furnishing the tape.
- d. Station message details may be provided on all facilities subscribed for by the customer but will not include intercom calls originated by ESSX-1 station line users. The customer may designate the group or groups of facilities on which Station Message Detail Recording (SMDR) is to be provided.

A111.1.6 Credits And Surcharges

For ESSX-1 Systems where the customer's primary service location is within one and one-half miles of the serving central office, credits and surcharges as described following will apply for all Network Access Registers (NAR'S) and lines ordered on or before July 27, 1983. A surcharge that is equivalent to the charge for access to an interexchange carrier will apply to each Network Access Register (NAR). For each line a credit will be applied which, when combined with the preceding surcharge and with charges applied to those lines for access to interexchange carriers, will provide a monthly net billing equal to the interexchange carrier access charge multiplied by the number of NAR'S provided as of July 27, 1983.

A111.1.7 ESSX-1/Multiline Service Option

A. Terms and Conditions

1. For ESSX-1 Systems of four hundred (400) main station lines or less the ESSX-1 circuits are available under the VTPP ESSX-1/Multiline Service option and a conventional payment plan at rates and charges specified following in this **Guidebook**. Circuit packages under the ESSX-1/Multiline Service Option will be provided under the Variable Term Payment Plan (VTPP) as described in Section A2. except as specified following. Individual circuits may be provided under the conventional payment plan only to VTPP ESSX-1/Multiline Service subscribers and only under the following circumstances:
 - a. When less than a 24-circuit package is required to serve a single customer location, or
 - b. When less than an additional 24-circuit package is required to complete service to a single customer location where VTPP ESSX-1/Multiline Service circuit packages are being provided.
2. Options and Conditions Under VTPP
 - a. Customers may select one of three payment periods - 36 months, 60 months or 84 months.
 - b. Transfer of service is permitted under the Plan. A transfer charge is applicable to the customer acquiring ESSX-1 Service.

(1) Transfer charge

	Charge	USOC
(a) Each	\$200.00	NA

- c. The ESSX-1/Multiline Service rates in effect at the time the Company is notified in writing of the subscriber's choice of the ESSX-1/Multiline Service payment period options will be applicable for the duration of the payment period chosen by the subscriber.
- d. Termination charges under the ESSX-1/Multiline Service option will be an amount equal to the monthly rate for the unexpired portion of the customer's payment period. Termination charges will not apply to a circuit package that is made to become a part of a larger circuit package that is subsequently subscribed to as a new VTPP ESSX-1/Multiline Service Option circuit package.
- e. ESSX-1/Multiline Service Option is provided in specific line package sizes between a single point of termination and the serving wire center. The VTPP **terms and conditions** in Section A2. pertaining to in-service moves will apply to a move of a VTPP ESSX-1/Multiline Service circuit package.
- f. ESSX-1/Multiline Service is provided subject to the availability of adequate facilities as determined by the Company.
