**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.1 Group Emergency Alerting And Dispatching Systems**

(Obsoleted December 3, 1979, Type D, Reference A13.24.3)

Not available for new installations or customer-initiated transfers of service. When a Company-initiated change in a customer's serving central office occurs due to a dial to dial replacement, or area transfer, the equipment will not be relocated to the upgraded office.

(T)

**A113.1.1 General**

- A. Group Emergency Alerting and Dispatching Systems are available in all dial central office areas to facilitate the making of concurrent emergency calls to a fixed group or groups of numbers (individual line subscribers) to obviate the need for making individual calls to each number.
- B. The Small and Twenty-Four Line Systems are restricted to a single central office unit when operated with general exchange service.
- C. The Company will furnish all lines and equipment required for the large and small group alerting and dispatching systems, consisting generally, in addition to regular exchange facilities, of a dispatching telephone location (or locations) designated by the subscriber connected by means of lines to special equipment located in the central office.
- D. The Twenty-Four Line Group Alerting System does not need a dispatching location as this function is handled by the equipment in the central office and regular exchange facilities of the called station lines. All station lines ring simultaneously when one of the listed emergency alerting numbers (maximum of two) is dialed. Any receiving station line that is busy when an emergency call comes in will receive a "tone" signal. Upon terminating the call in progress, the receiving station line will ring and the emergency call may be completed. A call to the second emergency alerting telephone number while the other one is in use will result in both calls being bridged to call receiving lines.
- E. The approval for connection of the individual subscriber's exchange line to the emergency alerting and dispatching equipment will be the responsibility of the subscriber and upon objection from the individual subscriber to such connection, the Company may disconnect the individual subscriber's line from the emergency alerting and dispatching equipment.

**A113.1.2 Rates And Charges**

The following rates and charges apply which are in addition to regular charges for exchange service furnished to the alerted station lines.

- A. Small System - limited to one dial central office area with a maximum capacity of 63 called lines.
  - 1. Common Equipment - either single or multigroup basis maximum of 3 groups as follows.  
(Basic Termination Charge applies to 60 months)

	<b>Installation Charge</b>	<b>Monthly Rate</b>	<b>Basic Termination Charge</b>	<b>USOC</b>
(a) 2 or 3 groups of 21 alerting lines or less per group, or	\$-	\$-	\$-	NA
(b) 2 groups with a maximum of 42 alerting lines in one group and 21 alerting lines in the second group	-	155.00	1,020.00	99V
2. Supplementary Items				
a. Line equipment				
(1) Charge				
(a) Each called line	-	4.15	60.00	56Y

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.1 Group Emergency Alerting And Dispatching Systems (Cont'd)**

**A113.1.2 Rates And Charges (Cont'd)**

A. Small System - limited to one dial central office area with a maximum capacity of 63 called lines. (Cont'd)

2. Supplementary Items (Cont'd)

b. Dispatcher Set

(Maximum of one)

(1) Customer-provided equipment may be required on the customer's premises.

- B. Reserved For Future use
- C. Reserved For Future Use
- D. Automatic Callback Calling<sup>1</sup> is offered only on a market trial basis in 5E2(2) generic central offices and the associated Remote Switching Modules.
  1. The Automatic Callback Calling feature will only operate on calls originating from and terminating to subscribers served by a 5E2(2) central office and its associated Remote Switching Modules.
  2. The service will not work on an originating or terminating basis with party line service, PBX service, or some multi-line hunt arrangements.

**Note 1:** Obsoleted July 11, 1988, Type B.

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.17 Feature Packages**

**A113.17.1 The Feature Package**

(Obsoleted January 9, 2004, Type B. Not available for new installations, additions or on transfers of service to a new location.)

**A. Description of Service**

1. This feature package provides a package of network features/services for residence customers.
2. The rate specified herein entitles a residence subscriber to unlimited use of the features/services specified following from the listed sections:

- A13.9 Call Waiting ID, Three-Way Calling, Call Forwarding Busy Line<sup>1</sup>, Call Forwarding Don't Answer<sup>1</sup> (with or without Ring Control), Star 98 Access<sup>1</sup>
- A13.19 Caller ID, Call Return
- A13.47 Message Waiting Indication<sup>1</sup>
- A13.70 Privacy Manager service

**B. Terms, Conditions and Limitations of Service**

1. This feature package is only available to individual line residence subscribers. A residence subscriber may select any suitable combination of the features/services listed in A113.17.1.A.2. (T)
2. All *terms, conditions* and limitations specified in the sections listed in A113.17.1.A.2 apply to the respective features/services requested as part of this package. Nonrecurring programming fees do not apply for features/services requested as part of this package. (T)
3. All features/services are furnished only from central offices that have been arranged to provide these services. The features/services are provided subject to availability of facilities.
4. Service charges specified in Section A4 do not apply for transactions in which a subscriber only modifies an existing unit of this feature package by adding, deleting or changing features/services requested as part of the package.
5. Existing customers of this feature package can not take advantage of special promotions for this feature package or any of the features/services specified in A113.17.1.A.2 preceding unless specifically allowed by the terms of the special promotion.
6. This feature package is not available with a line provided as part of any Complete Choice service or plan, *or* a line specified as Message Rate or Measured Service.
7. This feature package can be suspended as specified in A2.3.16. During the period of suspension, no recurring charge applies

**C. Rates and Charges**

1. The following monthly rate applies for this feature package.

	<b>Monthly Rate</b>	<b>USOC</b>
(a) Per feature package	<b>\$17.00</b>	<b>PAMA1<sup>1</sup> or PAMA2</b>

**Note 1:** The PAMA1 USOC must be used to provision the plan when one or more of the features/services that refer to this footnote are included in this feature package.

---

## **A113. OBSOLETE SERVICE OFFERINGS – MISCELLANEOUS SERVICE ARRANGEMENTS**

### **A113.19 TouchStar Service**

(Obsoleted May 8, 1995, Type D) Existing Caller ID - Multi-Line customers may retain their existing service as specified in this section of the *Guidebook* if they so choose. However, if these customers want to change or add to their existing service, they will have to convert to Caller ID - Basic or Caller ID - Deluxe as specified in A13.19. Service charges from Section A4. shall not apply for such conversions. All new customers desiring a TouchStar service calling information delivery feature will have to use A13.19. (T)

#### **A113.19.1 Definitions of Feature Offerings**

**A.** Caller ID - Multi-Line

This feature allows residence and business customers with Rotary (Grouping) arrangements to receive and view on a display unit, call related information on certain incoming telephone calls.

The following information is transmitted to the Caller ID - Multi-Line customer and displayed on the called CPE during the first long silent interval of the ringing cycle: calling Directory Number, time of day (hours and minutes) the call was received, and date (month and day) the call was received.

A service order is required to establish or discontinue Caller ID - Multi-Line. Subsequent to establishment, the feature can be activated and deactivated at the customer's discretion through the use of pre-assigned feature access codes.

## A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

### A113.19 TouchStar Service (Cont'd)

#### A113.19.1 Definitions of Feature Offerings (Cont'd)

##### A. Caller ID - Multi-Line (Cont'd)

Any customer subscribing to Caller ID - Multi-Line will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair and technical capability of that equipment to function in conjunction with the features described herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network feature described herein.

If the incoming call is from a line equipped with RingMaster service, the telephone number transmitted will always be the main number rather than any dependent RingMaster service number.

If the incoming call is from a caller served by a Private Branch Exchange (PBX), only the main number will be transmitted and available for display.

If the incoming call originates from a Multi-Line Hunt Group, the telephone number transmitted and available for display will always be the main number of the hunt group unless the telephone number is Telephone Number (TN) identified.

Caller ID - Multi-Line is not available on operator handled calls.

#### A113.19.2 Terms, Conditions And Limitations Of Service

##### A. The Following Limitations Apply:

1. TouchStar service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within TouchStar service equipped offices. Also, feature screening lists can only contain telephone numbers of subscribers served out of TouchStar service equipped offices.
2. TouchStar service is available to single line and multi-line residence and business customers who have rotary or Touch-Tone Service.
3. TouchStar service basic features will not work on an originating basis with toll terminals, trunks or some remote switching locations.
4. Appropriate service charges apply except during Company selected periods of special promotion.
5. Caller ID - Basic and Caller ID - Deluxe on a flat rate basis are available to single line and multi-line residence and business customers. Effective May 8, 1995, Caller ID - Multi-Line which was available only for line side terminations equipped with hunting (grouping) arrangements will no longer be available to new customers. Call Tracking (BCLID) is not available for single line arrangements, but it is available for PBX and multi-line business customers. Caller ID - Basic, Caller ID - Deluxe, Call Tracking, and Caller ID - Multi-Line cannot be provisioned for Basic 911 customers.
6. The Company will deliver all numbers/names, subject to technical limitations, including telephone numbers/names associated with Non-published Listing Service as described in Section A6. (T)
7. Calling Number Delivery Blocking - Permanent is available upon request to domestic violence intervention agencies, state and county departments of human resource shelters, the Attorney General Crime Victim Assistance office, and other such agencies, their employees and volunteers, or individuals where it is certified that the personal safety of these employees or individuals will be jeopardized without blocking.
8. Calling Number Delivery Blocking - Per Call is provided subject to availability of facilities where technically feasible. The Company assumes no liability for and will be held harmless from any incompatibility of the customer's CPE to perform satisfactorily with the network feature described herein.
9. Telephone numbers transmitted via Caller ID - Multi-Line are intended solely for the use of the subscribers of this feature. Resale of this information is prohibited by this *Guidebook*, except the caller's number may be provided to the subscriber's client for those calls sponsored or provided by that specific client where the client's identity is disclosed to the caller and the client agrees not to distribute such information to others. (T)
10. Calling party information via Caller ID - Multi-Line is not available on operator handled calls.

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.19 TouchStar Service (Cont'd)**

**A113.19.2 Terms, Conditions And Limitations Of Service (Cont'd)** (T)

**A.** The Following Limitations Apply: (Cont'd)

- 11. The Company's liability arising out of the provision of any TouchStar service feature, including but not limited to the delivery or non-delivery of calling numbers/names, is limited as set forth in A2.5.1. (T)

**A113.19.3 Rates**

**A113.25.1 Reserved For Future Use**

**A113.25.2 Methods Of Applying Rates**

- A. Channels Between Buildings on the Same Premises  
(Obsoleted 01-01-81, Type D; not available for new installations, moves or transfers. Existing customers may add channels only to the extent that they are available, Reference Section A13.) (T)

These channels are provided to extend exchange or ESSX-1 service terminated in a Company-provided, or a customer-provided non-button telephone to another building on the same premises or to extend Company-provided or customer-provided communications systems such as PBX or Key Systems to other buildings on the same premises.

When the customer provides his own communication system, such as PBX or Key System, the customer may provide the facilities required to extend the use of his system from one building to another on the same premises.

When all terminations are located on the same premises a mileage charge applies for the direct airline distance between buildings, determined in one-tenth mile increments (a fractional one-tenth mile being considered as a full one-tenth mile).

Where a supporting structure is necessary for the purpose of furnishing extension lines on the subscriber's premises such structures shall be furnished by the subscriber as provided for in "Construction on Private Property" in Section A5.

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.28 Announcement Facilities**

**A113.28.1 General**

(Obsolated July 17, 2002, Type D, Reference A13.28.1). Not available for new installations or customer initiated transfers of service. Existing customers may add service if facilities are available. (T)

Announcement facilities are provided, where available, to the customer's premises for connection to electronic or electro-mechanical devices that provide recorded announcements to calling parties.

**A113.28.2 Terms and Conditions** (T)

A. The Company will provide facilities, when available, for customer use in providing announcements by telephone to calling parties simultaneously, under the following conditions:

1. In order to permit the determination of the anticipated incoming call volume so that facilities of the proper capacity may be furnished, the customer is required to designate the kind of announcements for which the announcement service is to be used.
2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to announcement equipment without impairing the Company's general telephone service or telephone plant. The customer may be required further to bear the expense of traffic load protection equipment when, in the judgment of the Company, such would be required as a protection to the general telephone service or telephone plant during temporary periods of traffic overload to the announcement system. The traffic load protection equipment reduces the normal length of the announcement cycle.
3. Facilities shall be used for such announcements as may be desired by the customer, provided that the contents and length of such announcements shall be subject to the approval of the Company.
4. The Company will furnish said announcement facilities to its customers for use providing announcements, only within the limits of the Local Service area serving the customer, including the limits of other Local Service areas having access to the location of the announcement facilities on a Local Service basis. This limitation is not intended to preclude the completion of any incoming sent paid Interexchange Carrier or Company long distance message calls placed to the announcement number.
5. Telephone users calling the announcement number are automatically disconnected after elapsing of time for one full announcement.
6. One directory listing without charge will be furnished with each service.
7. Facilities for Announcement Services will be furnished where all the necessary exchange facilities, as determined by the Company, are available or can be made available within a reasonable time, at reasonable expense.

If it is not economically feasible for the Company to provide facilities for an Announcement Service, the customer may choose from the following options:

- a. The customer may specify that his service date be delayed until the next central office addition is completed. At that time facilities will be provided at the standard rates specified in this and other Guidebook sections.
- b. The customer may request that facilities be provided before the next central office addition. Charges based on incremental costs will be applicable for this option in addition to the standard rates specified in this and other Guidebook sections.

**A113.28.3 Rates And Charges**

A. Exchange Facility

1. Rate

	<b>Monthly</b>	<b>USOC</b>
(a) Each	<b>Rate</b>	<b>INFSF</b>
	<b>\$42.90</b>	<b>1NFSF</b>

B. Grouping Service is also applicable to each exchange facility at the business individual line rate as indicated in Section A3.

---

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS****A113.39 Central Office Local Area Network Service**

(Obsolated June 11, 1993, Type B) Not available for new installations, additions or on transfers of service to new locations, Reference Section A13. (T)

**A113.39.1 General**

- A. Central Office Local Area Network (C.O. LAN) service is a data communications network service providing for the interconnection of customer provided data devices and for the transmission of data between such devices.
  - 1. C.O. LAN service is provided from specially equipped central offices and utilizes data switching technology, digital and analog transmission facilities and existing local facilities to provide switched data transport at speeds up to 19.2 Kilobits per second.
  - 2. The primary component of C.O. LAN service is the C.O. LAN Data Switch located in the Company's central office.
- B. C.O. LAN service will support customer provided asynchronous data terminals and host computers and is capable of switching terminal to terminal, terminal to host computer(s) and host computer to host computer data traffic at speeds up to 19.2 kilobits per second.
  - 1. C.O. LAN service also provides access to the telecommunications network via an optional modem pooling arrangement.
  - 2. For customers served by more than one C.O. LAN equipped central office, private data networks may be established using private internodal trunks.
  - 3. For customers served by more than one C.O. LAN equipped central office within a local calling area, data networks may be established utilizing shared internodal trunk facilities.
- C. The data switch located in a central office will not be dedicated to a single customer and may provide C.O. LAN service to more than one customer.

**A113.39.2 Terms and Conditions**

- A. Central Office Local Area Network Service can only be provided from central offices equipped for C.O. LAN service subject to the technical limitations of such equipment and availability of suitable facilities.
  - 1. Interconnection of C.O. LAN service is accomplished by a data switching facility located in the central office.
  - 2. A customer may access C.O. LAN via a voice/data multiplexer located in the central office, or the public switched network via a modem pooling arrangement.
  - 3. C.O. LAN service is capable of transmitting data at various speeds up to 19.2 Kbps depending upon the transmission characteristics of the facility and equipment used for such transmission.
- B. Voice/data multiplexers (VDMs) used in provisioning C.O. LAN service must be compatible.
  - 1. The voice/data multiplexers located on the customer's premises will provide connections for station lines and data terminals. This voice/data multiplexer will transmit the data and voice signals simultaneously to the central office.
  - 2. The voice/data multiplexer located on the customer's premises must be provided by the customer and be compatible with the central office voice/data multiplexer under the technical guidelines for C.O. LAN service. These technical specifications are found in BSS's Technical Reference 73509 or its successor.
  - 3. The voice/data multiplexer located in the central office will separate the signals transmitting the voice to the voice switch and the data to the data switch.
  - 4. The voice/data multiplexer offered under C.O. LAN service is available only for access to C.O. LAN service.

## A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS

### A113.39 Central Office Local Area Network Service (Cont'd)

#### A113.39.2 Terms and Conditions (Cont'd)

- C. Data is transmitted through C.O. LAN service to destinations designated by the customer.
- D. Modem pool members are dedicated to a specific customer for access by the customer's designees only. Each modem pool member is equipped with an associated local exchange facility. The modem pooling capability offered under C.O. LAN service is available only for access to or from C.O. LAN service.
- E. The customer is responsible for the distribution of access codes (e.g., passwords) to authorized users.
- F. In addition to the C.O. LAN rates and charges in this *Guidebook*, the customer is also responsible for all exchange service rates, local usage, toll and private line channels as well as all other applicable rates, charges, *terms and conditions* included in this *Guidebook*.
- G. Suspension of all or part of C.O. LAN service requested by the customer is not permitted.
- H. The voice/data multiplexer (VDM) feature of C.O. LAN is available on individual business and residence lines and on Centrex Type Services switched access facilities served out of a properly equipped central office located less than 18 Kilofeet in cable route distance from the subscriber with the service provisioned on non-loaded cable pairs.

#### A113.39.3 Definitions

##### ASYNCHRONOUS

An asynchronous transmission is one where each character is transmitted one at a time over a communications line using a start and a stop bit to flag the beginning and end of each character.

##### ASYNCHRONOUS PORT CONNECTION

An asynchronous port connection, for Central Office Local Area Network Service, includes use of C.O. LAN service common equipment, asynchronous interface modules, and switching within and between nodes located in the same serving central office.

##### INTERNODAL TRUNKING

Internodal trunking allows C.O. LAN service users to communicate with terminals or hosts connected to other nodes within the network via shared or private data transmission facilities.

##### LOCAL CALLING AREA (LCA)

A Local Calling Area for C.O. LAN service consists of all C.O. LAN service nodes within the same LATA and within the same exchange calling area. A LATA may have more than one Local Calling Area.

##### MODEM POOLING

A Modem Pool consists of one or more modems with associated exchange facilities, and asynchronous ports, arranged in a customer-dedicated trunk group for either inward or outward C.O. LAN service data transmission. A modem pool member and its associated exchange facility are provisioned from the same central office as the serving C.O. LAN data switch. Modem Pooling is available at 300, 1200, and 2400 bps.

##### NODE

A Node consists of all C.O. LAN service common equipment, software, and interface modules required to provide switching and control functions for devices attached to that common equipment.

##### VOICE/DATA MULTIPLEXER

The Voice/Data Multiplexer (VDM) allows for the simultaneous transmission of both voice and data over an allowed exchange type facility.

#### A113.39.4 Payment Plans

##### A. General

1. All of the service features listed in A13.39.5. following, except for Shared Internodal Trunking, may be placed under contract and rate stabilized at the current rate for periods from 24 to 60 months.

---

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS****A113.39 Central Office Local Area Network Service (Cont'd)****A113.39.4 Payment Plans (Cont'd)**

- A. General (Cont'd)
  - 2. Except as modified herein, subscribers selecting the rate stabilized option are subject to the *terms and conditions* specified in Section A2. for Variable Term Payment Plans. (T)
  - 3. Rate stability for payment periods in excess of 60 months will be handled on an individual case basis.
- B. Additions to Existing Service
  - 1. Features may be added at any time under the following conditions:
    - a. Additions may be made depending on the availability of equipment.
    - b. *Guidebook* rates currently in effect will be applied. (T)
    - c. Additions may be made on a month to month basis or on a rate stabilized basis as long as the stabilized option is not for a payment period of shorter duration than the payment period associated with the original service.
- C. Expiration of Contract Period
  - 1. C.O. LAN customers may, upon the expiration of their contract:
    - a. Select a new contract period as offered in the current *guidebook*, or (T)
    - b. Revert to the current *guidebook* rates for the monthly payment option. (T)
  - 2. A C.O. LAN customer may at any time during the selected contract period recast for an equal or longer contract period at the current *guidebook* rates subject to the following conditions: (T)
    - a. No credit will be given for payments made during the formerly selected period.
    - b. Nonrecurring charges will not be reapplied.
    - c. The new payment period begins with the date requested.
    - d. No termination charge applies for the former payment period.
    - e. A service order charge will apply.
- D. Moves of Service
  - 1. A Move of a customer's C.O. LAN Service to a location served by different central office switching equipment will be considered a termination of service at the existing location and the establishment of new service at the proposed location.
- E. Termination Charges
  - 1. Termination charges will apply for C.O. LAN Service under the rate stability option.  
These charges shall be equal to the sum of the rates for the remaining periods left in the contract.
- F. Supersedure
  - 1. Service may be transferred to a new customer at the same location upon prior written concurrence by the new customer.  
The new customer will be subject to all provisions currently in effect for the previous customer.
- G. Prepayment
  - 1. Subscribers electing to rate stabilize their service may prepay the total, or any portion thereof, of their recurring monthly rates. These requests will be handled on an individual case basis.

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.39 Central Office Local Area Network Service (Cont'd)**

**A113.39.5 Rates And Charges**

**A. General**

1. Service Establishment

a. Service Establishment Charges apply for the initial establishment of Central Office Local Area Network Service.

(1) Service Establishment Charges

	<b>Feature Establishment Charge</b>	<b>USOC</b>
(a) Per customer system, per Central Office	<b>\$800.00</b>	<b>NRCS</b>

2. Central Office Nonrecurring and Recurring Charges

a.

(1) Asynchronous Port Connection

	<b>Installation Charge</b>	<b>Monthly Rate</b>	<b>USOC</b>
(a) 300, 1200, 4800, 9600 bps, each	<b>\$65.00</b>	<b>\$16.00</b>	<b>OLB</b>
(b) 300, 1200, 2400, 9600 bps, each	<b>65.00</b>	<b>16.00</b>	<b>OLA</b>
(c) 300, 1200, 9600 bps 19.2 Kbps, each	<b>65.00</b>	<b>23.00</b>	<b>OLD</b>
(2) Central Office Voice/Data Multiplexers			
(a) Each	-	<b>8.00</b>	<b>LWJ</b>
(3) Central Office Modem Pooling <sup>1</sup>			
(a) Inward, each modem	<b>54.00</b>	<b>44.00</b>	<b>LWHIX</b>
(b) Outward, each modem <sup>2</sup>	<b>54.00</b>	<b>44.00</b>	<b>LWHOX</b>
(4) Internodal Trunk Port - Private <sup>1</sup>			
(a) IntraLATA, each 56 Kbps port	<b>445.00</b>	<b>390.00</b>	<b>LOA1X</b>
(5) Internodal Trunking - Shared <sup>2</sup>			
(a) IntraLCA, each port with network access	-	<b>1.50</b>	<b>LOE1X</b>

**Note 1:** Includes a local exchange facility in addition to the modem. Inward modems arranged in multiline hunt groups will require the appropriate Grouping Service Charges for a flat rate individual business line, as specified elsewhere in this *Guidebook*. An asynchronous port (2.a.(1)(b) preceding) is also required. (T)

**Note 2:** Customer is responsible for local measured service charges as described in Section A3., in addition to any toll charges that may be applicable.

## **A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

### **A113.58 Uniform Access Number (UAN)**

(Obsoleted August 15, 2003, Type B. Not available for new installations, additions or on transfers of service to a new location.)

#### **A113.58.1 Description of Service**

- A.** Uniform Access Number (UAN) is an optional service which provides the customer with a uniform Business Line Telephone Number for client access to the customer's service. The client will be able to dial one number from all locations within the specified area and the call can be routed to a specified customer location. UAN will be provided under the following terms and conditions.
1. The Exchange Access Premium Charge, defined in A3.30, will apply to exchange service access facilities associated with this feature. (T)
  2. A UAN telephone number may not be accessed by 0+ or 1+ toll calls. Also, no operator assisted calls will be permitted to be placed to a UAN, nor will third party or collect toll calls be permitted to be billed to UANs.
  3. The assigned telephone number will have a dedicated NXX.
  4. UAN can be delivered through a line-side connection or a trunk-side connection as specified in A3.28 but not simultaneously for the same dedicated NXX number. A trunk-side connection is required if UAN is used with Automatic Number Identification (ANI). (T)
  5. Line side connections are made through regular exchange access lines (by individual business lines, PBX trunks, etc.). Trunk side connections are made via a Trunk Side Access Facility.
  6. Nonrecurring charges apply for each UAN per Traffic Operator Position System (TOPS) Tandem office. Where more than one UAN is established at the same TOPS Tandem location for the same customer and the UANs are ordered and installed at the same time the first nonrecurring charge rate element applies to the first UAN. Each additional UAN number will be billed at the additional service installed rate. The same nonrecurring charges and application apply per TOPS Tandem for UAN number changes requested by the customer subsequent to the original UAN assignment.
  7. Number changes required for Company reasons will not incur the Service Establishment Charge.
  8. A customer may reserve UANs to meet his specified growth requirements at specified locations. In the event the customer elects not to be provided with reserved UANs, assignment of these UANs cannot be assured.
  9. This service includes pre-assigned UANs. Such telephone numbers will be removed from reserved status and assigned as active UANs as requested by the customer.
  10. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
  11. The service is furnished subject to the availability of UANs.
  12. Limitations and use of service as stated in Section A2. will apply. (T)
  13. Calls to a disconnected UAN will be routed to intercept over announcement facilities; however, the announcement provided will not refer the caller to another telephone number.
  14. Directory Listing may be provided for UAN service at rates applicable for additional business or foreign listings as covered in Section A6. (T)
  15. No local measured or message rate service charges or long distance message telecommunications service charges will be collected from end users for calls to a UAN customer. Long distance charges associated with calls to a Uniform Access Number will be reversed billed to the UAN customer.
  16. Access to UAN may not be available to certain classes of service.

**A113. OBSOLETE SERVICE OFFERINGS - MISCELLANEOUS SERVICE ARRANGEMENTS**

**A113.58 Uniform Access Number (UAN) (Cont'd)**

**A113.58.2 Terms and Conditions**

(T)

- A. A UAN can be used only for one customer in an NPA. All usage will be combined and billed per account per Revenue Accounting Office.
- B. The UAN monthly rate is applicable on a per telephone number per TOPS Tandem office basis.
- C. The customer must be located within the same state as the TOPS office that is providing UAN Service.
- D. UAN Service will be provided within a maximum of thirty (30) days after the customer's request for service has been processed in order to allow the Company sufficient time for implementation.

**A113.58.3 Reservation of Uniform Access Numbers**

(T)

- A. A customer may reserve UANs in NPAs where the customer does not have service in order to insure expansion to other areas with the same UAN; however, a customer must implement a UAN in at least one LATA in *Company* territory in order to reserve the UAN in other NPAs. In the event that the customer elects not to be provided with reserved UANs, telephone numbers cannot be assured for the customers requirements in other NPAs.
- B. The assignment of UANs is made at the discretion of the Company. Special numbers are furnished subject to the availability of numbers.
- C. The service is furnished subject to the availability of UANs.
- D. Calls to reserved (unassigned) UANs will be routed to recorded announcement facilities.
- E. UANs furnished herein retain their reserve status until removed by the customer from the reserved status or assigned as a UAN at which time the service assumes rates and charges applicable to UAN.
- F. Reservation of UAN rates will be billed until the UAN is removed from reserved status or billed as an active UAN in at least one LATA within an NPA.
- G. A service order charge is applicable in addition to the nonrecurring charge for reservation of UAN.

**A113.58.4 Rates and Charges**

**A. Uniform Access Number**

- (1) Per UAN, per TOPS Tandem Office

	<b>Nonrecurring Charge</b>	<b>Monthly Rate</b>	<b>USOC</b>
(a) First UAN in TOPS Tandem Office	<b>\$585.00</b>	<b>\$20.00</b>	<b>UN9</b>
(b) Each Additional UAN in the same TOPS Tandem Office	<b>85.00</b>	<b>20.00</b>	<b>UN9</b>
(c) Per Subscriber Change of Point-to Number, per TOPS Tandem Office	<b>125.00</b>	-	<b>UN9SC</b>

- (2) Per Call Delivered

	<b>Rate</b>	<b>USOC</b>
(a) Each	<b>\$.09</b>	<b>NA</b>

**B. Reservation of UAN**

- (1) Establish Reserve Status

	<b>Nonrecurring Charge</b>	<b>Monthly Rate</b>	<b>USOC</b>
(a) Per UAN, Per NPA	<b>\$18.00</b>	<b>\$33.05</b>	<b>UN9RS</b>

---

## A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT

### A114.1 Reserved For Future Use

### A114.2 Reserved For Future Use

### A114.3 Reserved For Future Use

### A114.4 High Voltage Protection Equipment

(Obsoleted 9/1/2005, Type B – Not available for new installations, additions or on transfers of service to new location.)

#### A114.4.1 General

- A. Company services extending to electric power generating and distributing locations may require special equipment to isolate or neutralize the environmental hazards experienced when ground potentials rise due to faults in the electric power system.
- B. This offering may require high voltage protection equipment at the customer's premises, the Company central office, and/or at a remote drainage location.
- C. Responsibility Of The Customer
  1. The customer shall be responsible for notifying the Company that the location of the requested service requires high voltage protection.
  2. The customer shall be responsible for furnishing, upon request, the technical data needed by the Company to determine the type of service required. The following types of service will be offered.
    - Type 1a - For Exchange or Private Line telephone service requiring both AC and DC transmission which can tolerate service interruption during and following a power fault, where the maximum ground potential rise (GPR) does not exceed 3000 VRMs, and where all services entering a given location are classified as Type 1a.
    - Type 1b - For Exchange or Private Line telephone service requiring both AC and DC transmission which can tolerate service interruption during and following a power fault, where the maximum GPR does not exceed the limits defined in A114.4.2 following.
    - Type 2 - Services requiring both AC and DC transmission and which cannot tolerate interruptions, i.e., pilot wire relaying with DC supervision.
    - Type 3 - Services which employ AC transmission only and are moderately noise sensitive, i.e., telemetering or supervisory control circuits.
    - Type 4 - Services which are very noise sensitive, employing AC transmission only and cannot tolerate interruptions, i.e., audio tone relaying.
  3. The customer shall also be responsible for furnishing, upon request, the technical data needed by the Company to determine the degree of protection which should be furnished for any particular service location.
  4. The customer shall be responsible for notifying the Company if technical data regarding an electrical power generating or distributing location changes to the extent that the protection required will change.
  5. No service will be designated Type 1a if there is on the same premises any circuit which is Type 1b, 2, 3 or 4. A circuit may be designated Type 1a if and only if all circuits to the premises are Type 1a. When a Type 1b, 2, 3 or 4 circuit is provided at a location which has on its premises a Type 1a circuit, the Type 1a circuit will be redesignated Type 1b and charges will be applied as specified in A114.4.2 following.
- D. Determination Of Protection Required:

The Company shall determine from data furnished by the customer the proper method of protection to isolate or neutralize the electrical hazard.
- E. Provision Of Equipment

As an option, the customer may furnish the equipment at his premises to isolate or neutralize electrical hazards. However, the high voltage protection equipment at the customer's premises will be provided either all by the Company or all by the customer.

If the customer provides the high voltage protection equipment at his premises, it must meet the technical criteria prescribed by the Company. The Company will inspect and verify the protection equipment when service is established at a new or existing location, and at such times as deemed necessary with additions or rearrangements at an existing location.

When the customer provides the high voltage protection equipment at his premises, the Company will provide the necessary additional protection equipment at the Company central office and/or at the remote drainage location. Charges for these arrangements are outlined in A114.4.3.

**A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT**

**A114.4 High Voltage Protection Equipment (Cont'd)**

**A114.4.1 General (Cont'd)**

**E. Provision Of Equipment (Cont'd)**

When the customer provides the terminating equipment or system at his premises, charges for the appropriate connecting arrangement will be applicable as outlined in Section A15. (T)

**A114.4.2 Rates And Charges**

The following rates and charges are applicable for high voltage protection equipment furnished by the Company. These arrangements will be necessary for protection on both exchange and private line services. Where the Company provides the high voltage protection equipment, it will consist of neutralizing or isolating transformers (A114.4.2.B following) and miscellaneous equipment (B. following) at the terminal and/or at a remote drainage location as appropriate for the type of service at that location.

The per circuit charges for high voltage protection equipment as specified following apply to two-wire circuits only. When high voltage protection is required on four-wire circuits, the monthly rate shall be determined by applying the monthly rate for two (2) two-wire circuits. The installation charges for a four-wire circuit are the same as those specified for a two-wire circuit.

**A. Neutralizing Or Isolating Transformer**

1. Type 1a service providing protection suitable for exchange or private line service which can tolerate occasional circuit outages.

	<b>Installation Charge</b>	<b>Monthly Rate</b>	<b>USOC</b>
(a) With maximum ground potential rise (GPR) of 3000 Vrms	\$ -	\$ -	NA

2. Type 1b service providing protection suitable for exchange or private line service which can tolerate occasional circuit outages with maximum GPR of:

(a) 4000 Vrms - First circuit at a location	<b>45.00</b>	<b>26.50</b>	<b>VP3</b>
(b) 4000 Vrms - Each additional circuit at the same location	<b>45.00</b>	<b>15.75</b>	<b>VP5</b>
(c) 8000 Vrms - First circuit at a location	<b>45.00</b>	<b>51.00</b>	<b>VP9</b>
(d) 8000 Vrms - Each additional circuit at the same location	<b>45.00</b>	<b>40.50</b>	<b>VPA</b>
(e) For protection greater than 8000 Vrms (Based-On-Cost)	-	-	NA

3. Type 2 service providing protection suitable for exchange or private line service which cannot tolerate interruptions with maximum GPR of:

(a) 4000 Vrms - First circuit at a location	<b>45.00</b>	<b>58.00</b>	<b>VPB</b>
(b) 4000 Vrms - Each additional circuit at the same location	<b>45.00</b>	<b>48.00</b>	<b>VPC</b>
(c) 8000 Vrms - First circuit at a location	<b>45.00</b>	<b>84.00</b>	<b>VPD</b>
(d) 8000 Vrms - Each additional circuit at the same location	<b>45.00</b>	<b>73.00</b>	<b>VPE</b>
(e) For protection greater than 8000 Vrms (Based-On-Cost)	-	-	NA

4. Types 3 or 4 service providing protection suitable for exchange or private line service with maximum GPR of:

(a) 9000 Vrms - First circuit at a location	<b>45.00</b>	<b>40.00</b>	<b>VPJ</b>
(b) 9000 Vrms - Each additional circuit at the same location	<b>45.00</b>	<b>28.00</b>	<b>VPK</b>
(c) For protection greater than 9000 Vrms (Based-On-Cost)	-	-	NA

**A114. OBSOLETE SERVICE OFFERINGS - AUXILIARY EQUIPMENT**

**A114.4 High Voltage Protection Equipment (Cont'd)**

**A114.4.2 Rates And Charges (Cont'd)**

**B. Miscellaneous Equipment**

- 1. For Types 1b, 2, 3 or 4 service at the customer's premises

	<b>Monthly Rate</b>	<b>USOC</b>
(a) Equipment for the first group of 10 circuits or fraction thereof at a location	<b>\$9.40</b>	<b>VPM</b>
(b) Equipment for each additional group of 10 circuits or fraction thereof at the same location	<b>6.00</b>	<b>VPN</b>

- 2. For Types 1a, 2, 3 or 4 service at the remote drainage point

(a) Equipment for the first group of 10 circuits or fraction thereof at a location	<b>7.50</b>	<b>VPO</b>
(b) Equipment for each additional group of 10 circuits or fraction thereof at the same location	<b>6.00</b>	<b>VPP</b>

- C. The charges in A114.4.2. preceding do not include costs associated with the provision of transmission and/or remote ground channels. These channels, when provided as dedicated facilities, will be based on cost. When a regular distribution cable is used, charges for channels will be applicable as outlined in the Private Line *Guidebook*. (T)

The Company will not begin billing for high voltage protection arrangements at a location until the Company has inspected and verified that all high voltage protection requirements have been met at that location.

**A114.4.3 Customer-Provided High Voltage Protection Equipment**

- A. The following rates and charges are applicable for equipment provided by the Company at the Company Central Office and/or at the remote drainage location in conjunction with high voltage protection equipment furnished by the customer.

- 1. For Types 2, 3, or 4 service

	<b>Monthly Rate</b>	<b>USOC</b>
(a) Per circuit at a location	<b>\$21.00</b>	<b>VPQ</b>

- 2. Miscellaneous equipment for Types 1a, 2, 3 or 4 service at the remote drainage location

(a) Equipment for the first group of 10 circuits or fraction thereof at the same location	<b>7.50</b>	<b>VPO</b>
(b) Equipment for each additional group of 10 circuits or fraction thereof at the same location	<b>6.00</b>	<b>VPP</b>

- 3. For protection greater than maximum GPR stated in A14.2.A. preceding

(a) Each (Based-On-Cost)	-	<b>NA</b>
--------------------------	---	-----------

- 4. An initial charge for inspection and verification of customer-provided equipment installations is applicable for existing and new service locations.

	<b>Nonrecurring Charge</b>	<b>USOC</b>
(a) Inspection and verification charge	<b>\$150.00</b>	<b>NA</b>

- 5. A charge is applicable for inspection and verification of customer-provided equipment installation of Types 1b, 2, 3 or 4 service on a subsequent visit at the same location.

(a) Inspection and verification charge per additional or rearranged circuit (maximum charge of \$150.00 per subsequent visit)	<b>37.50</b>	<b>NA</b>
---	--------------	-----------

---

## **A117. OBSOLETE SERVICE OFFERINGS - MOBILE TELEPHONE SERVICE**

### **A117.1 Terms and Conditions**

(Obsoluted 07-13-92, Type D) Effective July 13, 1992, Mobile Telephone Service is restricted to existing customers. No new service can be ordered after July 13, 1992. All existing service will be discontinued in its entirety on October 12, 1992.

#### **A117.1.1 Definition**

- A.** Mobile Telephone Service  
A communication service through a land radiotelephone station between
  1. A wire telephone and a mobile unit, or
  2. Two mobile units.
- B.** Base Station of Registry  
The base station from which a mobile unit receives its mobile telephone number.
- C.** Foreign Base Station  
Any base station other than the Base Station of Registry.
- D.** Transient Mobile Unit  
A mobile unit communicating through a Foreign Base Station.

#### **A117.1.2 Availability Of Service**

- A.** Mobile telephone service is available to mobile units equipped for this service when within range of a base station through which such service is furnished, subject to transmission, atmospheric and like limitations, provided however, that the Company reserves the right to refuse to connect calls to or from any Transient Mobile Unit which regularly places more calls through one particular Foreign Base Station than through its Base Station of Registry.
- B.** Application for mobile telephone service on vessels will not be accepted for service through the Mobile, Alabama, mobile telephone service base stations.
