A112.28.14 Switched Data Service I

- A. General
 - 1. Switched Data Service is a digital switched service that may be utilized by Digital ESSX service subscribers to provide up to a maximum of 56 kilobits per second full duplex information via a specially equipped two-wire Digital ESSX service main station line.
 - 2. Switched Data Service Capability will be provided to Digital ESSX service subscribers via non-loaded facilities utilizing main station lines within the engineering limits of Switched Data service where facilities permit.
 - 3. Digital ESSX service main station lines with Switched Data Service capability will allow digital calls only. Main station lines equipped with Switched Data Service capability are not voice functional.
- B. Terms and Conditions
 - 1. Switched Data Service capability for Digital ESSX service main station lines is furnished at rates specified in C. following. Rates for locations beyond two and one half miles will be provided as specified in Section A5.
 - 2. The total quantity of voice functional main station lines and Switched Data Service capable main station lines for one subscriber will determine Digital ESSX service size (200, 600, XL).
 - 3. A Digital ESSX service subscriber utilizing Switched Data Service capability must subscribe to a main station line that will include the exchange circuit and the C.O. termination at rates and charges as specified in C. following for Measured and Flat Rate service. The C.O. termination will include intercom, provisioning for Switched Data Service and Data Call Protection per main station line.
 - 4. **(DELETED)**
 - 5. End User Common Line Charge will apply as appropriate.
 - 6. DECAS capabilities may not be used to affect changes on Switched Data Service capable Digital ESSX service main station lines.
 - 7. The following features will be offered to Switched Data Service capable main station lines at the rates and charges as indicated in the appropriate Digital ESSX service sections of this Guidebook.
 - Autodial
 - Automatic Line
 - Call Forwarding Busy Line
 - Call Forwarding Don't Answer
 - Call Forwarding Variable

Note 1: When required by the Company to use a Security Card to access the Company's network, up to three (3) Security Cards, as outlined in A112.28.13.A.1.s preceding, will be provided at no charge to subscribers who are under the existing DECAS rate and guidebook structure.

Note 2: Appropriate Service Charges as specified in Section A4. apply.
