A12.25.15 Telephone Numbers and Facilities Reserved for Future Use

A. General

- 1. A customer may reserve preassigned telephone numbers and facilities necessary to meet their specified growth requirements at specific locations on a mutually agreeable date. In the event the customer elects not to be provided with reserve telephone numbers, timely station line additions cannot be assured and facilities necessary for growth requirements will be provided only within normal engineering and construction intervals.
- 2. Telephone numbers reserved for future use includes preassigned telephone numbers and the facilities required. Such telephone numbers and facilities will be removed from reserved status and assigned as active station lines as requested by the customer.
- 3. The assignment of telephone numbers and the sequence of numbers assigned to a subscriber's system is made at the discretion of the Company.
- 4. The service is furnished subject to the availability of facilities and telephone numbers.
- 5. Calls to reserved (unassigned) telephone numbers will be routed to intercept common recorded announcement facilities as specified in A12.25.1.A.
- 6. Telephone numbers furnished herein retain their reserved status until assigned to a station line at which time the service assumes rates and charges applicable to a BellSouth Centrex service station line.
- 7. Reserved numbers not assigned to a station line will be billed at the following rates until removed from reserved status or billed as an active BellSouth Centrex service station line.

B. Rates and Charges

- 1. Reserved BellSouth Centrex service telephone numbers

	Installation	Monthly	
	Charge	Rate	USOC
(a) Per reserved telephone number	\$-	\$8.10	CENAB

Note 1: Billing will be in increments of 100 numbers. Partial increments will be rounded up to the next 100.

A12.25.16 BellSouth Centrex Control

Effective April 1, 2017, BellSouth Centrex Control can only be accessed at the following URL: <https://centrexmate.sbc.com>. Existing Centrex subscribers must obtain new login credentials and training prior to using the feature at this URL. Contact the Centrex Mate Help Desk at 800-635-7371 for assistance. (T) (N)

A. Description of Service

1. BellSouth Centrex Control is a feature of BellSouth Centrex service which utilizes a computer-based operations system accessed via an Internet connection or a Company Secure Network pending conversion to Internet access. BellSouth Centrex Control allows end users to activate and/or deactivate selected features and/or change certain service options and feature configurations on designated BellSouth Centrex service station lines. These changes can be performed on a per line basis or a bulk change basis. Subscriber provided equipment is required for the operation of BellSouth Centrex Control. The BellSouth Centrex Control feature is available where central office switching systems and facilities permit. ISDN station lines will only be controllable in the DMS-100 and 5ESS switches where facilities permit. (T) (M)
2. For access to BellSouth Centrex Control, the subscriber will be required to provide appropriate equipment and Internet access. Service established prior to June 30, 2006, using dedicated access lines will be converted to Internet access. (M)
3. BellSouth Centrex Control subscribers are subject to BellSouth Centrex service Terms and Conditions as stated in A12.25.
4. All features which are available via BellSouth Centrex service may not be available for BellSouth Centrex Control from all central offices. Non-controllable features may also be provided on a BellSouth Centrex Control station line. Rates and charges indicated for non-controllable Optional Features will be applicable.
5. If the Company provisions the station lines initially, the Company will provision the basic service capabilities/features indicated in A12.25.1.A. and the initial customer specified set of the available controllable standard and optional features as indicated in A12.25.21, or A12.26 for ISDN lines, on all station lines. If the subscriber requests that the Company provide access to some controllable optional features subsequent to initial installation, the nonrecurring charge in A12.25.16.E.5.(b) following will be applicable. Depending on the subscriber's serving central office switch type, all features may not be controllable via BellSouth Centrex Control.
6. If the subscriber wishes to provision the station line initially, the Company will first provide the station lines with the basic service capabilities/features indicated in A12.25.1.A.
7. BellSouth Centrex Control allows the subscriber to schedule changes for completion by the next business day or for a future business day. Additional priority changes may be requested and the changes completed the same day subject to switch access availability.
8. BellSouth Centrex Control is furnished subject to the availability of facilities and features.
9. If a subscriber requests BellSouth Centrex Control on any station lines in a system, all station lines in that system must be equipped for BellSouth Centrex Control. The Company reserves the right to make certain station lines inaccessible for BellSouth Centrex Control.
10. Service established prior to June 30, 2006, pending conversion to Internet access requires use of a Security Card, see A12.25.16.
BellSouth Centrex Control utilizes Internet access and provides security by requiring login and password identifiers. The subscriber must have one user ID and password for each user accessing the BellSouth Centrex Control Database. In addition, BellSouth Centrex Control ensures that the user can access only their portion of their database. The subscriber will be required to authenticate with a user ID and password before access is permitted.
11. The subscriber will be provided one user ID and password in conjunction with the Service Establishment, Initial Setup. Additional user IDs will be needed if multiple users are to access the data base. Additional user IDs can be obtained per A12.25.16.E following.
12. The subscriber will be provided one Data Base setup in conjunction with the Service Establishment, Initial Setup.
13. At the subscriber's request, the Company may, on a temporary basis, agree to perform the following Activation/Deactivation/Change functions or TN swaps, as outlined in A12.25.16.E following, for new and existing BellSouth Centrex service subscribers. TN swaps can only be performed for like type station lines and facilities.
 - Change station line features,
 - Delete features from a line or
 - Add new features to a line.
14. (Obsoleted, see Section A112)
