## A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

### A119.1 Terms and Conditions

(Obsoleted 8-4-2004, Type D) Not available for new installations, additions or transfers of service.

#### A119.1.1 General

- A. Wide Area Telecommunications Service<sup>2</sup> (WATS) is the furnishing of facilities by the Company and its concurring Local Exchange Carriers for dial type telecommunications between a termination associated with an exchange line or a WATS access line and terminations using the public switched network within the same LATA in the State of Alabama in accordance with the terms, conditions and schedule of charges specified in this Guidebook. The WATS charges set forth herein are in payment for the service furnished between the calling and called terminations within the same LATA within the state of Alabama. The Company provides IntraLATA WATS Service and a Statewide WATS Service in conjunction with an interLATA carrier (Combined WATS). Toll Free Dialing (TFD) Service<sup>2</sup> is the term now used to describe the service formerly known as 800 Service<sup>2</sup>. Toll Free Dialing Service provides incoming service utilizing 8XX numbers. Additional 8XX codes will be activated as required for Toll Free Dialing Service. For both Outward WATS and Toll Free Dialing Service, intraLATA service may be subscribed to separately or may be subscribed to in combination (Combined WATS) with an interLATA carrier's interLATA WATS or WATS-like service requiring the use of the Company's WATS serving office. Combined Outward WATS, Combined 800 Service and intraLATA only Outward WATS requires the use of a WATS access line from A119.5.4. Option TFD Service and Open TFD Service<sup>1</sup> can be terminated, at the direction of the customer, on a WATS access line from A119.5.4 or on an exchange line purchased from the appropriate guidebook. See A119.5.20, following for applicable charges when terminating on an exchange line. For the terms, conditions and rates of the interLATA portion of these services, refer to the interLATA carrier's tariffs. (C)
- B. Dial type telecommunications, as specified in A., preceding for Combined Outward WATS, Combined 800 Service and intraLATA only Outward WATS must be dialed and completed from or to a WATS access line. For Option TFD Service and Open TFD Service, service can be completed to a WATS access line or an exchange line. In all cases communications must be completed without the assistance of a Company operator, except that a Company operator will:
1. Re-establish a call which has been interrupted by cutoff or poor transmission after the called number has been reached, or
  2. Reach the called telephone number where facilities are not available for customer dial completion.
- C. WATS is provided as either Outward WATS or Toll Free Dialing Service (Inward WATS). Combined and IntraLATA Outward WATS require a WATS access line arranged for outward calling only. Combined 800 Service (Inward WATS) requires a WATS access line which is arranged for inward calling only. Option TFD Service and Open TFD Service can, at the direction of the customer, be terminated on a WATS access line arranged for inward calling only or on an exchange line. For service terminating on an exchange line, only one Toll Free Dialing number can be assigned to terminate on any one exchange line number. An exchange number may include residence or business line or trunk numbers including DID numbers from Section A12. The termination of Toll Free Dialing Service to an existing Outward WATS or Combined 800 Service telephone number is prohibited.
- D. A WATS access line or exchange line for Option TFD Service and Open TFD Service is the transmission path between a WATS termination and the point in the Company central office where access to the public switched network is obtained for the purpose of completing WATS calls. A WATS access line may also be provided over an IntraLATA High Capacity Channel Facility equipped with Outward WATS or Toll Free Dialing Service functionality. See B7.3 of the Private Line Guidebook for additional applicable charges.
- E. The WATS access line or exchange line may terminate in one of the following:
1. A connection to a network control signaling unit on the customer's premises
  2. A connection to terminal equipment or a terminating system on the customer's premises
  3. A connection to switching equipment in the Company central office
  4. A connection to an Interexchange Carrier (IC) feature group service in the Company central office

**Note 1:** Open TFD Service Subscribers who choose to terminate the Toll Free Dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

**Note 2:** Effective December 31, 2021, Wide Area Telecommunications Service, Toll Free Dialing (TFD) Service, and 800 Service is withdrawn for residential customers. (N)

## A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

### A119.1 *Terms and Conditions* (Cont'd)

(T)

#### A119.1.1 General (Cont'd)

- E.** The WATS access line or exchange line may terminate in one of the following: (Cont'd)
- The terminating point of a WATS access line or exchange line for Toll Free Dialing Service (any of the arrangements listed preceding) is a WATS termination. The first such termination associated with a WATS access line is the WATS main termination. Any additional termination associated with the same WATS access line is a WATS extension termination. A WATS extension termination must be located in the same LATA as its associated WATS main termination. Any additional termination associated with the same exchange line for Toll Free Dialing Service is an exchange line extension from the appropriate *guidebook*. (T)
- F.** Communications systems provided by Interexchange Carriers may be connected with the facilities furnished by the Company for WATS as specified in Section A15. (T)
- G.** Customer-provided terminal equipment or protective circuitry may be connected to WATS in accordance with effective provisions of the Federal Communications Commission's Registration program. (T)
- H.** Combined WATS is furnished only in offices where the interLATA carrier has purchased appropriate Feature Group C or D access facilities. (T)
- I.** For subscribers obtaining Outward WATS or Outward WATS-like service from interexchange carriers (ICs), "1+" and "0" intraLATA usage carried over WATS Access Lines, having both intrastate and interstate capability (bijurisdictional) will be completed over LEC facilities at LEC intraLATA Outward WATS rates and subject to *terms and conditions* applicable to LEC intraLATA Outward WATS. Subscribers using a bijurisdictional access line for Toll Free Dialing Service may choose either the Company or the Interexchange Carrier to complete and bill intraLATA calls according to the appropriate rates, *terms and conditions*. The "1+" and "0" intraLATA usage will be billed to the subscriber (end user or IC) where the closed end of the bijurisdictional WATS Access Line is terminated. Subscriber billing information should be provided to the Company at the time the bijurisdictional WATS Access Line is ordered when the Company is used to complete intraLATA calls. (T)
- J.** Customers who subscribe to Toll Free Dialing Service provided by other than the Company may designate the Company as the intraLATA carrier. Such intraLATA usage will be billed in accordance with the rates and *terms and conditions* specified in A119.5.21. (T)
- K.** The Company will provide the intraLATA portion of Open TFD Service with the IC providing the interLATA (and/or interstate) portion of the service. For the *terms, conditions* and rates of the interLATA (and/or interstate) portion of this service, refer to the interexchange carrier's tariffs. (T)
- L.** Effective October 1, 1993, Combined 800 Service is not available for new customers.
- M.** Option TFD Service and Open TFD Service are provided by the Company utilizing a Toll Free Dialing number.
1. Toll Free Dialing Number Assignment - Toll Free Dialing Service provides for the assignment of a single ten digit TFD number (e.g., 800+XXX+XXXX) to the customer which can be used on a statewide basis for Option TFD Service or Open TFD Service.<sup>1</sup> Toll Free Dialing Service provides the customer with one TFD number for Option TFD Service statewide or for Open TFD Service. A Toll Free Dialing number when used for Option TFD Service, can be selected for an area consisting of less than an entire state by specifying the desired Area of Service. Area of Service is described in 2. following. The assigned Toll Free Dialing number can terminate to a WATS Access line provided in A119.5.4 following or to an exchange line. Subsection A119.5.20 following provides the applicable charges for services terminating to an exchange line. In the provisioning of Open TFD Service, the Company will be the Responsible Organization (RESPORG). The Company will require the 10-digit POTS number for intraLATA screening.

**Note 1:** Open TFD Service subscribers who choose to terminate the Toll Free Dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

(T)

**A119.1.1 General (Cont'd)****M. (Cont'd)**

2. Area of Service for Option TFD Service and Open TFD Service - For Option TFD Service, the Area of Service defines the geographic locations (LATAs) within a state from which the Option TFD Service customer desires to accept calls for a given Toll Free Dialing Number. The Area of Service may range from a single LATA to the entire state. A WATS Access Line or exchange line is required within each LATA specified by the Area of Service for termination of Toll Free Dialing Service traffic that originated within that LATA. The desired Area of Service must be specified by the customer at the time Option TFD Service is ordered. Customers requesting an Area of Service encompassing more than one LATA are required to subscribe to the Variable Call Destination feature described in 3. following. For Open TFD Service, the Area of Service is defined as either the entire state or the entire United States.<sup>1</sup>
3. Variable Call Destination for Option TFD Service - The Variable Call Destination feature provides for multiple terminations (one ten digit telephone number per LATA) of Option TFD Service when the customer specifies an Area of Service greater than one LATA. This allows for the assignment of one Toll Free Dialing Number, for statewide use, with termination to a WATS Access Line or exchange access line within the LATA where the TFD call originated. Rates for Variable Call Destination record establishment and record changes are provided in A119.5.20, following.

**Note 1:** Open TFD Service Subscribers who choose to terminate the Toll Free Dialing number to an exchange access line may elect the Area of Service as either the entire state or the entire United States. The Area of Service for Open TFD Service provided on a WATS Access Line must be the state; it cannot be defined as the entire United States.

## **A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE**

### **A119.2 Use Of The Service**

#### **A119.2.1 General**

- A. The service is furnished subject to the condition that all applicable terms and conditions in Section A2. will be adhered to, with the exceptions of A2.2.1.A. and B., which restrict the use of service and prohibit payment to the customer by another for use of the service.
- B. All resold Toll Free Dialing Services, including Option TFD Service and Open TFD Service must terminate to a WATS Access Line.
- C. The service is provided for use by the customer and may be used by others when so authorized by the customer, provided that all such usage is subject to the provisions of this Guidebook.
- D. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
  1. the placing or acceptance of a WATS call in response to an uncompleted long distance call placed to send information and to avoid the Message Telecommunications Service (MTS) charge, and
  2. the obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain, WATS through any fraudulent means with intent of avoiding the payment of the regular charges for such service.

### **A119.3 Limitation Of Service**

#### **A119.3.1 Limitations**

- A. WATS does not include conference or other calls requiring operator handling except as provided in A119.1.B. preceding. (C)
- B. WATS is not represented as adapted for connection to other services of the Company, or to customer-provided systems. This service contemplates the provision of satisfactory transmission only between the WATS access line or exchange line for Option TFD Service and Open TFD Service and the called or calling termination.
- C. WATS access lines and extensions will be terminated only at premises located within the state of Alabama. A WATS extension must be located in the same LATA as its main termination.
- D. Toll Free Dialing Service is furnished upon condition that the subscriber contracts for an adequate number of access lines or exchange lines for Option TFD Service and Open TFD Service to permit the use of this service without injurious effects upon it or any other service rendered by the Company. The Company may terminate or refuse to furnish Toll Free Dialing Service to any applicant, without incurring any liability, if the use of the service would interfere with or impair WATS or any other service rendered by the Company.

### **A119.4 Reserved For Future Use**

### **A119.5 Rates And Charges**

#### **A119.5.1 General**

- A. WATS monthly usage charges are for intraLATA telecommunications between a WATS termination and another termination within the state of Alabama. Monthly usage charges are based on the total intraLATA hours of use per WATS access line service group or the total hours of use per exchange line utilized for Option TFD Service and Open TFD Service. WATS access lines and exchange lines will not be mixed at any one customer location for termination of Option TFD Service and Combined 800 traffic associated with a given Toll Free Dialing number. Usage charges will be based on separate schedules for both intra and interLATA service.

EFFECTIVE: September 1, 2006

##### **B. WATS Service Group**

(M)

A WATS service group is composed of either Combined Outward WATS, Outward WATS (intraLATA service only) or Combined 800 Service (Inward WATS), Open TFD Service or Option TFD Service access lines (but not all).

1. An Outward WATS service group is composed of all Outward WATS access lines of a single customer terminating in the same terminating system at the same premises. (M)
2. An Outward WATS-IntraLATA Service service group is composed of all Outward WATS-IntraLATA Service access lines of a single customer terminating in the same terminating system at the same premises. (M)
3. Combined 800 Service (Inward WATS) access lines are available in two separate service groups. One group consists of access lines used for Open TFD Service and the other for Combined 800 Service. For either group the access lines must be provided to a single customer for the same service area, and arranged in Company central office equipment as part of a given hunting arrangement. (M)
4. An Option TFD Service service group is composed of all Toll Free Dialing Service access lines of a single customer arranged in Company central office equipment as part of a hunting arrangement. (M)

## A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE

### A119.5 Rates And Charges (Cont'd)

(M)(T)

#### A119.5.5 Method Of Determining Usage Charges

(M)(T)

The monthly usage charge for a service group is determined as follows:

(M)

**A. Number of Access Lines**

(M)

Determine the total number of access lines in the service group in service during the month. Access lines in service for a fraction of a month are based on the number of days in service divided by 30 days.

(M)

**B. Minimum Average Time Requirement**

(M)

Total monthly usage is subject to a Minimum Average Time Requirement (MATR) of one minute per completed call. This means that if the average duration per message for all messages in a service group, or messages associated with an Option TFD Service or Open TFD Service terminating on an exchange line during a billing period is less than one minute, charges will be based on an average duration of one minute per message.

(M)

**C. Total Hours Of Use**

(M)

Determine the total chargeable hours of use for the service group This is the greater of the following (rounded to the nearest tenth of an hour):

(M)

1. the total actual hours for all lines in the service group (chargeable time for each call is specified in *A119.5.1.C.* preceding), or
2. the total "equivalent" hours for the service group, which is what the use would have been if the average duration of all completed calls for the group had been one minute (i.e., the total number of completed calls for all lines in the group multiplied by one minute).

(M)(T)

(M)

**D. Usage Charge Per Service Group**

(M)

Use the table of hourly rates (in *A119.5.4.A.* preceding) and the total use per account (from *A119.5.5.B.* preceding) to determine the usage charge per hour. Multiply the Peak hourly rate from the rate table by the number of Peak hours used and the Off Peak hourly rate by the number of Off Peak hours used and total these charges (for example, if total usage equals 20 hours for a given month, then the appropriate charges would be the Peak and Off Peak rates for Greater Than 15 Hours).

(M)(T)

---

**A119. OBSOLETE SERVICE OFFERINGS - WIDE AREA TELECOMMUNICATIONS SERVICE****A119.5 Rates And Charges (Cont'd)****A119.5.5 Method Of Determining Usage Charges (Cont'd)****E. Total Usage Charge - Service Group**

## 1. Alabama State Government

Determine the usage charge for the service group by multiplying the number of access lines from A. preceding by the lesser of \$1300 or the usage charge per access line from D. preceding for both intra and interLATA service.

## 2. All Others

Determine the total usage charge for the service group by multiplying the usage charge per access line (from D. preceding) by the number of access lines (from A. preceding).

**F. Total Usage Charge For Option TFD Service and Open TFD Service Terminating On An Exchange Line**

For Option TFD Service terminating on an exchange line, monthly usage charges are calculated separately for each LATA in which the service terminates on an exchange line. For Option TFD Service and Open TFD Service terminating on an exchange line, the usage charge is determined as follows:

## 1. For each exchange line (telephone number) termination of a given Toll Free Dialing number (maximum of one per LATA) the total chargeable hours of use for that termination is the greater of the following:

a. The total actual Option TFD Service and Open TFD Service hours associated with a given Toll Free Dialing number and exchange line (chargeable time for each call is specified in A119.5.1.C.), or

b. The total "equivalent" hours associated with a given Toll Free Dialing number for the exchange line termination, which is what the use would have been if the average duration of all completed calls had been one minute (i.e. the total number of completed calls multiplied by one minute).

## 2. Using the total chargeable hours determined in 1., preceding, and the table of hourly rates from A119.5.4.A., preceding, multiply the Peak hourly rate from the rate tables usage band by the number of Peak hours used and the Off Peak hourly rate by the number of Off Peak hours used and total these charges.

**A119.5.6 Charges For Fractional Periods**

The charges for a fractional part of a month are a proportionate part of the monthly charge based on the actual number of days the service is provided. For the purpose of administering this *term and condition* with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days.

**B. Local Discount Option<sup>1</sup>**

- 1. Due to billing system requirements, this option is available only for TFD Service that terminates to a telephone number providing dial tone from the BellSouth network to an end user who obtains the telephone number service directly from BellSouth or indirectly from a certificated reseller of BellSouth services.
- 2. Customers who subscribe to add-on Toll Free Dialing service with a local discount must subscribe to a specified monthly usage commitment. Based on the monthly usage commitment, the appropriate rates from the following table apply as specified in 5. following for all usage on the service. The following table specifies two sets of intraLATA usage rates for each monthly usage commitment. One set of rates applies for calls that originate from exchanges within the local calling area specified in A3.6.1 for the TFD termination, and the other set of rates applies for calls that originate from exchanges outside the same local calling area. A customer may be billed a shortfall penalty after each anniversary of the service if the monthly usage commitment is not satisfied on a cumulative annual basis.
- 3. Usage Rates

- 4. For customers who subscribe for a specified term to add-on Toll Free Dialing service with a local discount, the discounts indicated in the following table apply to the appropriate rates specified in 3. preceding. Upon cancellation of a specified term plan, the customer will be billed an amount equal to the discounted local calling area rate times the monthly usage commitment for the number of months remaining on the plan.

**Term Commitment for Local Discount**

**Option Add-On TFD Service**

Option Add-On TFD Service	Discount
Month-to-Month	None
12 months	5.0%
24 months	8.0%
36 months	11.0%

- 5. For add-on Toll Free Dialing service with a local discount, each message is rated separately. The discounts specified in 4. preceding are applied to the rates specified in 3. preceding and the resulting rate is applied to each message using an initial period of thirty seconds and additional periods in six-second increments thereafter. If a call lasts less than thirty seconds, the customer is billed the appropriate charge for a full thirty second message. There are no time-of-day discounts for add-on Toll Free Dialing service with a local discount.
