

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE****A. General Regulations**

## 1. Scope

Long Distance Message Telecommunications Service (LDMTS) the furnishing of those service components required for telecommunication between service points in different local service areas but within the same LATAs in accordance with the regulations and system of charges specified in this Part. The message charges specified in this Part are in payment for all Long Distance Message Telecommunications Service furnished between the calling and called service points.

The charges specified in this Guidebook do not contemplate work being performed by the Company employees involved at a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge, based on the additional costs involved applies.

The Company does not undertake to transmit messages but furnishes the use of its services to its customers for telecommunications.

The design, maintenance and operation of Long Distance Message Telecommunications Service envisions that communications will originate or terminate at a service point of the associated exchange telephone service for LDMTS. Connections of customer- or Other Common Carrier-provided communications systems may be made to LDMTS. However, the Company will not be responsible for the through transmissions of signals or for the quality of transmission on such connections.

## 2. Priority of Services

- a. In case a shortage of service components exists at any time either for temporary or protracted periods, the establishment of Long Distance Message Telecommunications Service shall take precedence over all other services.
- b. Service is furnished subject to the availability of the service components required. The Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.
- c. When connections are made to Customer or Other Common Carrier provided communications systems at a premises where the customer does not originate or terminate communications, the Company may require that the exchange telephone service be furnished from a Company Serving Office(s) different than the Serving Office(s) designated by the Company to serve that premises.
- d. At the option of the Company, Billed Number Screening will be furnished to control instances of fraud associated with Billed to Third Party<sup>/1/</sup> or Collect<sup>/1/</sup> service or in response to a customer request. (C)

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued. (N)  
(N)

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**A. General Regulations (cont'd)**

3. Limitations on Duration of Connections

The Company reserves the right to limit the duration of connection when necessary because of a shortage of service components caused by emergency conditions.

4. Liability

- a. In view of the fact that the customer has exclusive control of his communications over the service furnished him by the Company, and of the other uses for which service may be furnished him by the Company, and because of unavailability of errors incident to the use of such services of the Company, the services furnished by the Company are subject to the terms, and conditions and limitations specified in B, C, and D following.
- b. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in service components furnished by the Company, occurring in the course of furnishing service and not caused by the negligence of the customer, or of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error or defect in transmission or failure or defect in service components occurs.
- c. The customer indemnifies and saves the Company harmless against claims for libel, slander, or infringement of copyright from the material transmitted over its service; against claims for infringement of patents arising from combining with, service of the Company, apparatus and systems of the customer; and against all other claims arising out of any act or omission of the customer in connection with service provided by the Company.
- d. When the services of other telephone companies are used in establishing connections to service points not reached by the Company's service components, the Company is not liable for any act or omission of the other company or companies.

5. Use of Service

The service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Guidebook.

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**A. General Regulations (cont'd)**

6. Obligation of the Customer

The calling party shall establish his identity in the course of any communication as often as may be necessary.

The calling party shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called service point or service points.

7. Payment for Service

The customer is responsible for payment of all charges for services furnished the customer, including charges for service originated or charges accepted at the customer's service point.

8. Billing and Collection of Charges

The charges for messages and chargeable reports are due when billed and are billed and collected by the Company or the connecting company from whose service point the messages were sent paid or at whose service point the messages were received collect.

9. Advance Payments

Applicants for Long Distance Message Telecommunications Service, whose financial responsibility is not a matter of general knowledge or who are not connected in a substantial way with a firm, corporation or other concern of established credit, may be required to make an advance payment of at least one month's estimated charges.

10. Definitions

Accessories

Devices which are mechanically attached to or used with, the services furnished by the Company and which are independent of, and not electrically, acoustically or inductively connected to, the conductors in the communications path of the telecommunications system.

Bill to Third Number Service

Denotes a billing arrangement by which a message may be charged to an authorized service point as determined by the Company other than the service point originating the message or the service point where the call is terminated.

Billed Number Screening

Denotes an arrangement whereby at the time of message origination Bill to Third Number<sup>/1/</sup> or Collect<sup>/1/</sup> calls are screened for customer preauthorized or Company directed non acceptance. Screening is based on the "billed to" number. (C) (C)

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued. (N) (N)

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**A. General Regulations (cont'd)**

10. Definitions (cont'd)

Collect Call<sup>/1/</sup>

(C)

Denotes a billing arrangement by which the charge for a message may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a third number. If the called service point is identified as a Pay Telephone, the charges must be billed to a third number, or the message may be re-originated from the called service point.

Composite Data Service

The combined use of terminal and data switching equipment provided by a Composite Data Service Vendor with the use of telecommunications services of the Company to perform data switching for others.

Composite Data Service Vendor

A customer that has been certified by the proper state regulatory body and/or the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, amended, to acquire and operate service components to perform data switching for others. A customer shall be classified as a Composite Data Service Vendor only with respect to use of those exchange services which are utilized for the provision of Composite Data Service.

Initial and Additional Period

The initial period denotes the interval of time allowed at the rate specified for a connection between given points.

The additional period denotes the unit of time used for measuring and charging for time in excess of the initial period.

Interface

That point on the premises of the customer at which provision is made for connection of other than the Company provided service components to service components provided by the Company.

Intralata

Long Distance Message Telecommunications Service (LDMTS) where service point locations are all within the same LATA.

LATA

Local Access and Transport Area denotes a geographic area established for the administration of communications service. It encompasses designated local operating Company exchanges which are grouped to serve common social, economic and miscellaneous purposes.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**A. General Regulations (cont'd)**

10. Definitions (cont'd)

Patron

When used in connection with Composite Data Service denotes a subscriber to the data switching services of a Composite Data Service Vendor.

(D)

(D)

Sent Paid Service

Sent paid service includes all calls where the person originating the call pays for the call by having the call billed to the originating telephone number. Sent paid calls also include calls from pay telephones when the caller pays for the call by depositing coins.

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)****A. General Regulations (cont'd)**

## 10. Definitions (cont'd)

Station to Station<sup>/1/</sup>

(C)

That service where the person originating the call dials the telephone number desired or gives to the Company operator the telephone number of the desired service point, Mobile Telephone Service connecting circuit, PBX or PBX service point which is reached directly rather than through a PBX attendant, or gives only the name and address under which the number of the desired service point, Mobile Telephone Service connecting circuit or PBX is listed and does not specify a particular person to be reached, nor a particular mobile service point to be reached through a Mobile Telephone Service attendant, nor a particular PBX service point, department, or office to be reached.

- a. "Dial Station to Station" is that station to station service where the person originating the call from other than a pay telephone dials the telephone number desired and the call is completed without the assistance of a Company operator and the call is not billed to a number other than the originating telephone number including: (1) when an operator records the originating telephone number where no automatic recording equipment is available; (2) when an operator reaches the called telephone number where service components are not available for dial completion; (3) when an operator places a call for a calling party who identifies himself as being disabled and unable to dial the call because of his disability; (4) and when an operator re-establishes a call which has been interrupted after the called number has been reached and; (5) when an operator places a call for the calling party who declares that he has attempted to complete the call but has been unable to do so due to technical difficulties.
- b. Station-to-Station calls may be dialed direct, or completed with the assistance of a Company operator. If the customer utilizes an operator, there are three levels of Operator Assistance service. They are:
  1. Non-automated: Non-automated service is where the person originating the call dials zero or a special access number (e.g., an 800/888 number), and the operator dials the number and collects billing information for completion of the call. Non-automated service includes service that is not fully automated or semi-automated. When an operator re-establishes a non-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.
  2. Semi-Automated: Semi-automated service is where the person originating the call dials zero or a special access number (e.g., an 800/888 number), (or 1+ calls from pay telephones), then dials the desired telephone number, and the operator collects billing information for completion of the call. When an operator re-establishes a semi-automated call which has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply.
  3. Fully Automated: Fully automated service applies to when the call is completed without assistance of an operator. This service also includes the situations described in A.10.a. preceding.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued.

(N)  
(N)

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**B. Connections of Customer Provided Equipment and Communications Systems**

Customer provided equipment and communications systems provided by the customer may be connected at the customer's premises to intraLATA Message Telecommunications Service furnished by the Company where such connections are made in accordance with the provisions of the Connections of Terminal Equipment and Communications Systems in Part 2, Section 9 and Part 20, Section 2.

**C. Two-Point Service**

1. Classes of Service

Service is offered on a Station-to-Station or on a Person-to-Person basis. Day, Evening, Night and Weekend rates apply to classes of service per the following schedules, excluding the service charges as specified in Part 11, Section 1.

a. Application of Rate Periods – Business

	Mon	Tues	Wed	Thu	Fri	Sat	Sun
7:00 AM TO 7:00 PM*	Day Rate Period					Night & Weekend	
	Full Rate					Rate Period	
7:00 PM TO 7:00 AM*	Evening Rate Period					Night & Weekend	
						Rate Period	

\* To, but not including.

Application of Rate Periods – Residential

	Mon	Tues	Wed	Thu	Fri	Sat	Sun
7:00 AM TO 7:00 PM*	Day Rate Period					Night & Weekend	
	Full Rate					Rate Period	
7:00 PM TO 7:00 AM*	Evening Rate Period					Night & Weekend	
						Rate Period	

\* To, but not including.

b. The time (at the calling service point) at which connections is established governs.

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**C. Two-Point Service (cont'd)**

2. Reserved

(C)  
(D)  
|  
(D)

3. Time of Day

The time when connection is established, as provided in C.6 following, determined in accordance with the time -- standard or daylight saving - legally or commonly in use at the location of the rate center of the calling service point, determines whether Day, Evening, or Night and Weekend rates apply. This rule applies whether the message is sent paid or received collect.

4. Timing of Messages

- a. Length of conversation is the elapsed time between the start and the end of the telephone communication.
- b. On Station-to-Station calls, chargeable time begins when connection is established between the calling telephone and the called telephone, mobile radio system or other customer premises equipment.
- c. Reserved
- d. Chargeable time does not include time lost because of faults or defects in the service.
- e. Chargeable time ends when the calling service points "hangs up" thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- f. When exchange telephone service used for LDMTS is directly connected (i.e., not connected through a Multiline Terminating System) at a customer's premises to a communications system, chargeable time for all classes of calls begins when a call from the telecommunications network terminates in or passes through the first multiline terminating system or terminal equipment on that communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of connection with the exchange telephone service so that chargeable time may begin.

(C)  
(D)  
(D)

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**C. Two-Point Service (cont'd)**

5. Initial Periods and Additional Periods

- a. Rates for Long Distance Message Telecommunications Service are specified in terms of initial and additional periods.
  - 1. The initial period is the interval of time allowed at the rate for a specified connection between given service points.
  - 2. The additional period is the unit of time used for measuring and charging for time in excess of the initial period.

6. Rates

The following rates apply to intrastate intraLATA business between all points within the designated LATAs in the State of Arkansas.

- a. Usage - All Classes of Service
  - 1. Initial period rates indicated in the rate table in C.6.c. following, are for connections of one minute or any fraction thereof.
  - 2. All additional minute rates indicated in the rate table in C.6.c. are for each additional minute or any fraction thereof that the connection continues beyond the initial period.
  - 3. Discounts for the Evening, and Night and Weekend reduced rate periods indicated in the table in C.1.a. preceding, are expressed as a percent reduction of the charge calculated at the rates indicated in the table in C.6.c. and are applied to message connections established during the periods indicated in C.1.a. preceding.
  - 4. When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connections occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.
  - 5. Discounts apply to the charge for the initial minute occurring within the discount rate period and to all additional minutes occurring within each discount rate period. The discount is computed separately for charges in each rate period and the results are then totaled. When application of the discount results in a fractional charge, the amount will be rounded to the nearest cent.

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**C. Two-Point Service (cont'd)**

6. Rates (cont'd)

b. Operator Assistance Service Charges

1. The prices for Operator Assistance are specified in Part 11, Section 1.
2. Rates for Operator Assistance will apply in addition to the rates as specified in this Part.
3. When the application of the discount results in a fractional charge, the amount will be rounded to the nearest cent.

c. Basic Mileage Initial Period and Additional Period Schedules for Day, Evening, Night and Weekend Rate Periods for all mileage bands.

<u>Description</u>	<u>Day per minute</u>	<u>Evening per minute</u>	<u>Night/Weekend per minute</u>	
Station-to-Station <sup>/1/</sup>				
- Business .....	\$6.80	\$6.80	\$6.80	(l)
- Residence.....	0.69	0.69	0.69	

7. Discounted Rates Applicable to Calls Placed by Certified Hearing and/or Speech Disabled Residence Customers

Disabled persons who have been certified to the Company as having a hearing or speech impairment which necessitates that they communicate via a telecommunications device (e.g., teletypewriter or similar keyboard communications equipment) will receive, upon written application to the Company, a reduction on intrastate intraLATA dial station-to-station calls placed from the premises of the certified residence account where the telecommunication device is located.

On all directly dialed calls, a 50 percent discount will apply. This discount is in addition to the rates applicable for the rate periods shown in paragraph C.1 Classes of Service.

Certification of the hearing and/or speech disability requires the completion of an application form certified by a physician, otolaryngologist, audiologist, licenses speech-language pathologist or an authorized agency representing hearing and speech disabled individuals.

/1/ See Part 11, Section 1 for Operator Assistance Service Charges.

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**D. Reserved for Future Use**

(C)

(D)

(D)

**E. Special Reduced Rates**

1. Rates Applicable on Certain Holidays

On Christmas Day (December 25) and on New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day the holiday rates applicable on all classes of Two-Point Long Distance Message Telecommunications Service between intraLATA service points within the State of Arkansas is the Evening rate, unless a lower rate would normally apply. Discounts do not apply to service charges as specified in C.6 preceding.

(D)

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**E. Special Reduced Rates (cont'd)**

2. Double Play Rate Plan

Dial Station-to-Station calls qualify for discounts under the *Double Play Rate Plan* described later in this Section.

3. Local Prescribed IntraLATA Carrier (LPIC) Charge

The Company's business and residence customers who convert their existing intraLATA toll service provider to the Company from an alternate intraLATA toll service provider will not be charged the Easy Access Dialing Change Charge as noted in the Access Services Guidebook, Part 2, Section 13, paragraph 13.4.3.

(C)  
(C)

**F. Mobile Long Distance Message Telecommunications Service**

1. Application Of Regulations and Rates

a. The regulations and rates set forth below apply for mobile long distance message telecommunications service furnished through the base service points as listed in F.3.b. following.

b. For service between a mobile unit and a land wire telephone within the mobile service area associated with the mobile telephone service base service points involved or between two mobile units reached through the same mobile telephone service base service points, the regulations and rates applicable are as provided in the Mobile Telephone Service Tariff of the Company.

2. General Regulations

a. Definition

Mobile long distance message telecommunications service is a communication service through a mobile telephone service base service point listed in F.3.b. following between a mobile unit and a land wire telephone located outside the mobile service area associated with such base service point, or between two mobile units served through base service points having different rate centers.

b. Availability of Service

1. Mobile long distance message telecommunications service is available to mobile units equipped for this service when within range of a mobile telephone service base service point through which such service is furnished and subject to transmission, atmospheric and like limitations.

2. Calls may be filed either to a specified person or to a specified telephone. The charges applicable are as specified in F.3.a. following.

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**F. Mobile Long Distance Message Telecommunications Service (cont'd)**

3. Rates

a. The rates between the applicable land wire telephone rate center and the rate center of the serving base service point listed below, or between the rate centers of two base service points listed below, are the Station-To-Station rate according to the connection established, as set forth in Part 9 Section 2, and C. of this Section. (C)

b. Base Service Points

<u>Rate Center</u>	<u>Rate Center</u>	<u>Rate Center</u>
Alma	Elaine	McGehee
Bald Knob	El Dorado	Mountain Home
Blytheville	Fordyce	Mountain View
Booneville	Fayetteville	Newport

Crossett	Jonesboro	Russellville
Danville	Lewisville	Star City
De Queen	Little Rock	Wilmot
Dumas	McCrary	

**LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE (cont'd)**

**G. Selective Class of Call Screening**

1. General

Selective class of Call Screening enables a customer, by means of telephone company operator identification, to restrict outgoing calls from service point to only calls which are charged to the called telephone, or a third number<sup>/1/</sup>. (C)

All local calls and calls to Company numbers such as repair service, Directory Assistance Service and Public emergency service numbers such as 911 will be permitted from the establishment.

This service is available only where service components permit.

2. Rates and Charges

	<u>Monthly Rate</u>	<u>Installation Charge</u>	
Per system /SRG/.....	\$53.00	\$340.00 <sup>/2/</sup>	(C)

**H. Connections of Other Common Carrier-Provided Communications Systems**

Conditions for Connections of Other Common Carrier-Provided are provided in Part 2, Section 9.

/1/ Effective March 19, 2016, Collect, Person-to-Person, Bill to Third Number calls and Busy Line Verification/Interruption services are discontinued. (N)

/2/ In addition apply appropriate service charges as specified in Part 3, Section 1. (C)

**DOUBLE PLAY RATE PLAN****A. Descriptive Summary**

The Double Play Rate Plan is a pricing plan which allows the Company the ability to offer discounts to customers willing to enter into three or five year contracts with commitments to minimum levels of Company-provided IntraLata toll usage.

The Company may offer discounted pricing on SmartTrunk<sup>SM</sup> Service Interfaces and/or Digital Transmission Loop Arrangements. In order to qualify for these discounts, the customer must commit to minimum levels of Company IntraLata toll usage at special volume contract rates. Discounts provided will be based on contract terms, toll usage levels or other factors specific to customer application.

**B. Regulations**

1. The rules and regulations in this section are in addition to other rules and regulations as contained in this and other Company guidebooks.
2. The Double Play Rate Plan is intended for use by a Company customer at locations designated by the contract. Any major changes requested by the customer to the service arrangement (e.g. change in service location) may result in a change of rates and charges.
3. Customers subscribing to the Double Play Rate Plan and the connecting services must be end users purchasing the services for their own use and not for sharing of the services.
4. In order to qualify for the Double Play Rate Plan, the customer must be willing to execute a contract for a period of 36 to 60 months in which the customer agrees to specific levels of Company provided IntraLATA toll usage. In return for this commitment, the customer receives discounted IntraLATA toll usage rates, discounts on the rates for the associated SmartTrunk<sup>SM</sup> or Digital Loop Services, credits for each new facility and waiver of installation charges on new facilities. The customer must commit to a minimum of \$9000 annual IntraLATA toll usage calculated at the contract rate per minute.

**C. Contract Conditions**

1. SmartTrunk<sup>SM</sup> and Digital Loop Service customers who have existing contracts may convert those contracts to Double Play Rate Plan contracts without termination charges if the new contract is for a period equal to or greater than the remaining period of the original contract.
2. Company IntraLATA toll usage commitments are based on annual usage. Commitments will be reviewed annually. Shortfalls will result when the customers annual usage does not reach the contract commitment level. All charges for services incurred under the Double Play Rate Plan and any shortfall adjustments or termination penalties shall not exceed guidebook rates for covered services in effect at the time of contract execution.
3. Double Play contracts may be renewed only after the first anniversary date of the contract. At the end of a Double Play contract term, the customer may extend the conditions of the contract for a period of three months by notifying the Company in writing 60 days prior to the contract expiration date.

**DOUBLE PLAY RATE PLAN (cont'd)**

**C. Contract Conditions (cont'd)**

4. If a customer terminates service prior to the expiration date of the Double Play contract, the customer will be required to pay termination charges as specified in the contract. Termination charges will be based on the remaining months in the contract and will not exceed the charges that would have otherwise occurred under month-to-month rates.
  - a. Termination charges associated with SmartTrunk<sup>SM</sup> or Digital Loop Service will be based on the months remaining in the contract and will not exceed the effective rate for the associated services. Termination charges will include those charges specified in the appropriate guidebook sections relative to the SmartTrunk<sup>SM</sup> and/or Digital Loop Services.
  - b. Termination for IntraLATA toll usage charges will be calculated by subtracting the customers billed IntraLATA toll usage from the guidebook usage equivalent (Section C.6).
5. The customer may add SmartTrunk<sup>SM</sup> and/or Digital Loop facilities to an existing contract at the contracted rate except in the last 12 months of the contract term.

**DOUBLE PLAY RATE PLAN (cont'd)**

**D. Rates and Charges**

Digital Loop Service - 36 Months
