Customers may continue to use the obsolete service arrangement and may add to, change, Type 1 move or transfer the service as required. Type 2 Customers may continue to use the obsolete service arrangement and may make changes to the arrangement as long as service continues to be provided at the same Customer Premises. However, no additions to the arrangement or transfers/moves of service to new locations are permitted. Type 3 Customers may continue to use the obsolete service arrangement and may move or transfer the service as required. However, no additions or changes to the service configuration is permitted.
