7.1 General

- 7.1.1 Customers are billed based on their usage of the Company's services. Rates may vary by service type, call duration, time of day, rate period, day of week, mileage, call type, calling plan and foreign location. Fixed recurring charges, not dependent upon usage, are billed in advance. Usage-based charges are billed after each usage cycle.
- 7.1.2 Customers will be charged for each individual call placed through the Company. Call duration is determined as described in Section 3 of this pricing and service guide. For distance or time of day sensitive offerings, charges are determined based on mileage calculations and applicable rate periods found in Section 3 unless otherwise specified in this pricing and service guide.
- 7.1.3 Outbound direct dial services are available from originating locations within the United States. Calls may be placed between the United States and those countries listed herein.
- 7.1.4 Operator Services are available from originating locations within the United States where Customers have the ability to dial directly to the Company's network. Calls may be placed between the United States and those countries listed herein.
- 7.1.5 Calls to or from a foreign country or area, or calls routed through a foreign country or area, are subject to such restrictions as may be enforced from time to time by the authorities in that country or area.
- 7.1.6 An additional per-minute International Mobile Termination Charge (IMTC) is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed wireless telephone numbers which the foreign telecommunications company designates to be for special services. Because many foreign telecommunications companies impose extra fees on the Company to complete these calls, the Company charges the IMTC, in addition to all other applicable charges. The IMTC amount varies by country and changes from time to time. Please check codes and rates periodically for current information. Codes and rates can be found at [www.att.com/mobileterm](http://www.att.com/mobileterm). The applicable International Mobile Termination Charge can also be found in Section 7.4.1 of this pricing and service guide.

7.4 International Mobile Termination Charge

The International Mobile Termination Charge (IMTC) is an additional per-minute charge that is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed wireless telephone numbers which the foreign telecommunications company designates to be for special services. Because many foreign telecommunications companies impose extra fees on the Company to complete these calls, the Company charges the IMTC, in addition to all other applicable charges. The IMTC amount varies by country and changes from time to time. Please check codes and rates periodically for current information. Codes can be found at [www.att.com/mobileterm](http://www.att.com/mobileterm). The following per-minute charge listed in Section 7.4.1 below will apply.
