

**RESIDENTIAL SERVICE GUIDE FOR
INTEREXCHANGE, INTERSTATE AND INTERNATIONAL SERVICES**

SECTION 5 – INTERNATIONAL SERVICE DESCRIPTIONS, RATES, AND CHARGES

5.1 General

Customers are billed based on their usage of the Company's services. Rates may vary by service type, call duration, time of day, rate period, day of week, mileage, call type, calling plan and foreign location. Fixed recurring charges, not dependent upon usage, are billed in advance. Usage-based charges are billed after each usage cycle.

Customers will be charged for each individual call placed through the Company. Call duration is determined as described in Section 3 of this pricing and service guide. For distance or time of day sensitive offerings, charges are determined based on mileage calculations and applicable rate periods found in Section 3 unless otherwise specified in this pricing and service guide.

Outbound direct dial services are available from originating locations within the United States. Calls may be placed between the United States and those countries listed herein.

Operator Services are available from originating locations within the United States where Customers have the ability to dial directly to the Company's network. Calls may be placed between the United States and those countries listed herein.

Calls to or from a foreign country or area, or calls routed through a foreign country or area, are subject to such restrictions as may be enforced from time to time by the authorities in that country or area.

An additional per-minute International Mobile Termination Charge (IMTC) is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed wireless telephone numbers which the foreign telecommunications company designates to be for special services. Because many foreign telecommunications companies impose extra fees on the Company to complete these calls, the Company charges the IMTC, in addition to all other applicable charges. The IMTC amount varies by country and changes from time to time. Please check codes and rates periodically for current information. Codes and rates can be found at www.att.com/mobileterm. The applicable International Mobile Termination Charge can also be found in Section 5.8.1 of this pricing and service guide.

BellSouth® Basic Unlimited Value Plan², BellSouth® Basic Unlimited Savings Plan² and (C)
BellSouth® Basic Unlimited Savings Value Plan²)

(A) The BellSouth® Basic Unlimited II Value plan is a direct dialed outbound long distance service offered to single line or multi-line residential Customers on switched access lines. Service is offered on a flat rate basis, twenty-four hours per day, seven days per week. Customers must dial 1 plus the area code, if applicable, and the terminating number to complete a call utilizing this service. The BellSouth® Basic Unlimited II Value plan provides the Customer with unlimited minutes of interexchange (both interstate and intrastate) long distance usage for a flat rate monthly charge (certain restrictions, as outlined below, do apply). This plan does not provide call detail information on the Customer's monthly bill. This service is only offered in conjunction with the corresponding intrastate BellSouth® Basic Unlimited II Value plan. This service is not offered on an intraLATA or intrastate only basis.

(B) In order to be eligible for this plan, the Company must be able to verify that the Customer meets the following eligibility requirements. Customers who no longer meet these eligibility requirements will not be eligible for this plan and may be offered an alternative service or have their service suspended, restricted or canceled without prior notice. Customers with one to three lines at a location are eligible for this service if they meet the following requirements:

- .1 Single line Customers must subscribe to BellSouth Long Distance and must also subscribe to one of the Company's affiliated incumbent local exchange entity's residential services (except for BellSouth® Complete Choice® plan or BellSouth® PreferredPack® plan) and must also subscribe to at least one Associated Service listed in Section 3.1.9 of this pricing and service guide. Multi-line Customers must subscribe to BellSouth Long Distance and to one of the Company's affiliated incumbent local exchange entity's residential services (except for BellSouth® Complete Choice® plan or BellSouth® PreferredPack® plan) on each line under this plan and must also subscribe to at least one Associated Service listed in Section 3.1.9 of this pricing and service guide on the primary line. The Customer must receive billing for each of these services from the Company's affiliated incumbent local exchange entity.
