**SECTION 3 - GENERAL INFORMATION**

**3.1 Domestic Service Descriptions (continued)**

**3.1.4 Outbound Long Distance Services**

The Company's outbound long distance services allow Customers to place calls to terminating locations on a direct dial basis. Customers must dial "1+" the destination telephone number, including area code to reach the called party. With outbound long distance services, the Customer as caller is billed for services provided.

Outbound long distance services are available to Customers who; 1) presubscribe their local access lines to the Company's network, or 2) dial the Company's access code (where available) to gain access to the network.

(D)

(D)

Rates, billing increments, discounts and qualifications, if applicable, vary by service plan and are provided in later sections of this pricing and service guide.

**3.1.5 Inbound Long Distance Services**

The Company's inbound long distance services are toll-free number (e.g., 800, 888) services. Calls may originate from any valid exchange and terminate to the Customer's location at no charge to the calling party. With inbound long distance services, the Customer is billed for the call rather than the calling party.

Inbound long distance services may terminate to Customer local exchange access lines using Switched Access termination. Customers with larger call volumes may have inbound calls routed to Special Access facilities connecting the Customer's premises directly with the Company network.

Rates, billing increments, discounts and qualifications, if applicable, vary by service plan and are provided in later sections of this pricing and service guide.
