12.6.8 AT&T Long Distance Toll FreeSM Service^{/1/} (Formerly known as Business Easy Toll Free Plan)

- (A) AT&T Long Distance Toll FreeSM is an inward toll-free (8xx) calling service offered to business Customers from switched access lines. Service is offered on a flat rate basis, twenty-four hours per day, seven days per week. This Service permits termination of calls from diverse geographic locations to the Customer's local exchange lines. With this Service, the Customer is billed for the call rather than the call originator. The Customer will be billed for all calls terminating at the toll-free number, including misdialed calls. AT&T Long Distance Toll FreeSM Service is not available for terminations to wireless telecommunications devices. Toll-free number orders completed on or after January 3, 2006 require subscription to a domestic optional calling (non-MTS) plan.

To be eligible for this Service, Customers must subscribe to an access line provided by the Company's Affiliated ILEC.

Toll-free usage under this Service is subject to the rates, billing increments, term and/or volume discounts, monthly usage commitments, and monthly recurring charge waiver provisions of the associated optional calling plan subscribed to by the Customer. For package plan customers, toll-free usage will be included in package minutes. The Company will automatically adjust toll-free rates and plan provisions to reflect changes in business service subscriptions. The Business MTS per-minute rate specified in Section 4.2 of this pricing and service guide will apply to Customers who discontinue their domestic optional calling plan but wish to retain AT&T Long Distance Toll FreeSM Service. AT&T Long Distance Toll FreeSM Customers who receive the Business MTS service and rate must continue to maintain an access line provided by the Company's Affiliated ILEC.
