^{/1/} Some definitions are filed in Schedule Cal.P.U.C. No. A2.1.1.

^{/2/} The business customer shall be responsible for the installation and maintenance of any inside wire and standard jack(s) conforming to Part 68, Sub Part F, of the FCC's Rules and Regulations associated with non-key and non-switching systems for individual telephone services.

1. CHARGES FOR ACCESS LINES, LABOR AND SERVICE ENHANCEMENTS – BUSINESS SERVICES (cont'd)**1.1 General (cont'd)****E. Regulations**

1. Dual Element charges are intended to cover operating expenses incident to the establishment or change of telephone service and the connection of the service up to and including the Company's local loop demarcation point.
2. Dual Element charges are in addition to other charges and rates that may apply in this or other schedules.
3. A "new" dual element service charge applies to provide a "new" primary access line and the charge includes central office work, where necessary, and the termination of the line in a network interface at the Company's local loop demarcation point.

At the customer's request, the Company will terminate the requested service at points specified by the customer at the customer's expense.

4. Retermination

A retermination of a main service from one premises to another in the same or a different building will be considered a disconnection and new connection of that service and "new" dual element charges are applicable. A dual element labor charge applies to a retermination or rearrangement of an in service main access line at the Company's local loop demarcation point on the same customer premises or to a different premises in the same building, not to exceed the dual element charges for the installation of the same new main access line service. Monthly rate billing continues during the work procedure. If the customer wishes to avoid continuous monthly billing, the option of a disconnection and new connection of the service is available with associated new dual element charges as set forth in E.3. preceding.

Exception: Relocation of a main service to a different premises or address within the same building or continuous property when all of the following conditions are met: no premises work is performed by the Company, no central office work is performed by the Company, and no facility design work is performed by the Company.

17. Win/Winback Access Lines NRC Waiver for Customers with 1-3 Lines

a. Description

Eligible business customers may qualify for a waiver of the nonrecurring Service Charge (NRC waiver), for the installation of each Measured Rate Business Service (see Guidebook Part 4, Section 2.) access line (access line), for up to a maximum of three access lines, if the customer agrees to retain the access lines for a period of 12 consecutive months (one year). The customer will also receive a waiver of the nonrecurring charges associated with the installation of certain optional features listed in c. following.

Eligible business customers are those customers who qualify as a “Winback” or “Win” customer. A “Winback” customer is a customer who has discontinued their business service with the Company for the purpose of establishing service with a Competitive Local Exchange Carrier (CLC) operating within the Company’s territory and who is now returning their service to the Company. A “Win” customer is a customer who established their service with a CLC operating within the Company’s territory and now establishes their service with the Company. Winback and Win also includes customers who established service with a CLC that is an affiliate of the Company.

b. Regulations

- (1) The customer must agree to retain the 1-3 access lines for a minimum period of 12 consecutive months (one year).
- (2) Access lines eligible for the waiver include the following USOCs:
1MB++, 1MS++. (C)
- (3) Foreign Exchange Service is not eligible for this NRC waiver.
- (4) The NRC waiver is not available on any business service or package that includes a waiver of nonrecurring charges.

1.9 NRC Win/Winback Waiver

Business access line customers who currently do not have their service with the Company or who previously had their service with the Company, left the Company and established their service with another carrier and who now reestablish service with the Company will receive a waiver of the one time service charges (nonrecurring charges) associated with the 1) installation of all new business access lines, 2) hunting, and 3) all business custom calling services.

These nonrecurring charges will be waived under this offer on the business exchange access lines, hunting and features that the customer installs on their initial order (s) per location and on any subsequent order during the length of the term. Customers must agree to a minimum 24 month or greater term agreement.

The winback customer must not have had: 1) service disconnected for non-payment; or 2) any past due bills for regulated service owed to the Company. This offer cannot be combined with other business access lines and trunks Service and Equipment charge waivers or credit offers, and is not available on any business service or package that includes a waiver of nonrecurring charges. Foreign Exchange Service is not eligible for this NRC waiver offer.

If the customer cancels their service agreement at any time prior to the expiration of the service period set forth in their term agreement, the customer shall be responsible for all termination charges as described in their corresponding contract for these same eligible services and will pay full nonrecurring charges that were waived at the time of installation and on any subsequent orders placed during the length of the term.

Effective January 15, 2012, customers who qualify and take advantage of this waiver will not be required to pay back the full nonrecurring charges that were waived at the time of installation and on any subsequent orders placed during the length of the term.

In addition, for those customers, termination charges are not applicable if, during their term period:

- The customer converts to another AT&T business access line plan with a term equal to or greater than the time remaining on the term plan; or
- The customer converts to an upgraded technology with AT&T (i.e. network access lines to PBX trunks, Centrex, ISDN Prime) and commits to a term equal to or greater than the time remaining on the term plan. It is at the Company's sole determination whether a product change satisfies the requirements for waiver of the termination liability under this clause.

This offer is not available to customers who have local service with an affiliate of the Company.

2. CHARGES FOR ACCESS LINES, LABOR AND SERVICE ENHANCEMENTS - RESIDENCE SERVICES**2.1 General (cont'd)****E. Regulations**

1. Dual Element charges are intended to cover operating expenses incident to the establishment or change of telephone service and the connection of the service up to and including the Company's local loop demarcation point.
2. Dual Element charges are in addition to other charges and rates that may apply in this or other schedules.
3. A "new" dual element service charge applies to provide a "new" primary access line or extended service and the charge includes central office work, where necessary, and the termination of the line in a network interface at the Company's local loop demarcation point.

At the customer's request, the Company will terminate the requested service at points specified by the customer at the customer's expense.

4. Retermination

A retermination of a main service from one premises to another in the same or a different building will be considered a disconnection and new connection of that service and "new" dual element charges are applicable. A dual element labor charge applies to a retermination or rearrangement of an in service main access line at the Company's local loop demarcation point on the same customer premises or to a different premises in the same building, not to exceed the dual element charges for the installation of the same new main access line service. Monthly rate billing continues during the work procedure. If the customer wishes to avoid continuous monthly billing, the option of a disconnection and new connection of the service is available with associated new dual element charges as set forth in E.3. preceding.

Exception: Relocation of a main service to a different premises or address within the same building or continuous property when all of the following conditions are met: no premises work is performed by the Company, no central office work is performed by the Company, and no facility design work is performed by the Company. Refer to Guidebook, Part 3, Section 1 following.
