1 BUSINESS SERVICE (cont'd)

B. MEASURED RATE SERVICE

1. Description

A telephone service with local service charges based upon the number of outgoing timed or untimed local messages or Zone Usage Measurement Service Zones 1 and 2 messages applicable to business service.

2. Regulations

- a. All calls to a local exchange, or ZUM Zones 1, 2, and 3 are measured.

The length of conversation to which usage rates apply is determined by the time of day, day of the week and class of service as shown in 4.b. following.

The time of day when conversation actually takes place is determined in accordance with the time system - standard or daylight saving, legally or commonly in use, determines whether Day Rate, Evening Rate, or Night and Weekend Rate treatment applies. In cases where a call extends beyond one rate period, the appropriate treatment applies to the respective periods of conversation.

- b. ZUM Billing.

Day Evening, Night and Weekend Rates are applicable to all calls based on the initial and additional minutes of use as shown below:

All local, extended area, and Zones 1 and 2 calls are summarized
Zone 3 calls, if applicable, are individually billed.

- (2) Zone 3 message rates apply to all calls within the originating exchange's Zone 3 when such calls originate from all services except COPT.
- (3) Zone message rates do not apply to messages originated from COPT Service. Message toll rates apply to all messages originated from these services except for messages which terminate on Zones 1 and 2 .

d. Zone Mileage

In general¹, Zone calling mileage is applicable as follows:

<u>Zone</u>	<u>Rate Center Mileage</u>
1 (Local Calls)	0-8 miles
2 (Local Calls)	9-12 miles
3	13-16 miles

Such businesses must furnish evidence, acceptable to the Company, of furnishing this service for the deaf in order to qualify for untimed service.
- f. Customers may transport analog data over basic telephone lines. The Company will support low speed analog transmission of data (up to 4800 bps) over regular access lines.

3. Territory

Within the base rate area or suburban area of a listed exchange, district area or zone as said areas and zones are defined on maps filed as part of the Guidebook.

Foreign prefix charges and rates are not applicable to the Direct Inward Dialing or Identified Outward Dialing services when furnished from the central office which is designated by the Company to provide these services within an exchange or district area.

A. REGULATIONS**1. Measurement of Local Message Usage**

A unit in connection with measured rate service is a measurement of local message usage. The length of conversation to which the unit applies is determined by the time of day and day of the week as shown in Guidebook, Part 4, Section 2

The time of day when conversation actually takes place determined in accordance with the time system, standard or daylight saving, legally or commonly in use, determines whether day or discount rate treatment applies. In cases where a message extends beyond one rate period, the appropriate rate treatment applies to the respective periods of conversation.

For Zone Usage Measurement Service applicability of rates and time of day usage, refer to Guidebook, Part 4, Section

2. Untimed Measured Rate PBX Trunks
