U 1001 C
Advice Letter No. 46971

Public Utilities Commission of the State of California

We attach for filing this Tier I advice letter to make the following changes in tariff sheets:

SCHEDULE CAL.P.U.C. NO. D12.   SCHEDULE CAL.P.U.C. NO. 175-T

9th Revised Table of Contents Sheet A	3rd Revised Sheet 283-K
1st " Sheet 99.2	3rd " " 283-K-1
	2nd " " 283-K-2
	2nd " " 308-Q
	4th " " 338-T

This filing revises Schedule Cal.P.U.C. Nos. D12. Other Services, 12.4 DecaMAN®Service and 175-T Access Service, Section 7. Special Access, 7.2 Service Descriptions, 7.4 Rate Regulations and 7.5 Rates and Charges, to denote DecaMAN and GigaMAN services are grandfathered. Effective September 30, 2017, DecaMAN and GigaMAN Services will no longer be available for purchase by new or existing customers. Following the expiration of a customer's existing DecaMAN or GigaMAN term agreement, service will be provided on a month-to-month basis at the applicable monthly extension rates until the service is discontinued.

Customer notices have been sent to affected customers as required by D.07-09-019. A copy of each customer notice is included.

In compliance with General Order 96-B, we are serving a copy of this advice letter and related tariff sheets to interested parties who have requested. This advice letter with attachments may be viewed on AT&T California's Web-Site at https://ebiznet.att.com/calreg/. If there are any questions regarding the distribution of this advice letter, call 415.417-5033.

This filing will not increase any rate or charge, cause the withdrawal of service, nor conflict with other schedules or rules.

Anyone may object to this advice letter, which was filed September 29, 2017, by sending a written protest to: Telecommunications Advice Letter Coordinator, Communications Division, 505 Van Ness Avenue, 3rd Floor, San Francisco, CA 94102-3298. The protest must state specifically the grounds on which it is based. The protest must be received by the Telecommunications Advice Letter Coordinator no later than 20 days after the date that the advice letter was filed. On or before the day that the protest is sent to the Telecommunications Advice Letter Coordinator, the protestant must send a copy of the protest to Eric Batongbacal, 430 Bush Street, 5th Floor, San Francisco, CA 94108 (fax number 214.486.1580). If this advice letter was served via e-mail, the protest must be served to AT&T California via e-mail at att-regulatory-ca@att.com. To obtain information about the Commission's procedures for advice letters and protests, go to the Commission's Internet site (www.cpuc.ca.gov)and look for document links to General Order 96-B.

D12. SPECIAL ACCESS SERVICE

12.4 DecaMAN SERVICE

A. SERVICE DESCRIPTION

Effective September 30, 2017, DecaMAN Service will no longer be   (N)
available for purchase by new or existing customers. The Company will
no longer accept orders for adds, moves, changes or new term plans for
DecaMAN Service, and existing term plans may not be renewed, converted
or extended. Following the expiration of a customer's existing DecaMAN
term agreement, service will be provided on a month-to-month basis at
the applicable monthly extension rates until the service is
discontinued.   (N)

DecaMAN Service is an intraLATA, dedicated high capacity service limited
to the transport of data signals between customer locations. DecaMAN
provides for the transmission of data at a discrete bit rate of 10 Gbps in
Ethernet format (10 Gigabit Ethernet IEEE 802.3ae). DecaMAN is available
in a point-to-point (node-to-node) configuration. DecaMAN is a fiber-
based transport service that enables LAN PHY and WAN PHY connectivity
between customer LANs, MANs and WANs within the same LATA.

DecaMAN Service can be used to seamlessly extend customer local area
networks to off-site locations such as data centers, storage locations or
satellite office locations within the same metro area. Applications that
could be used with DecaMAN Service include LAN-to-LAN connectivity,
CAD/CAM file transfer, telemedicine and business continuity transport.

The 802.3ae 10 GigE standard defines two OSI Layer 1 Physical ("PHY")
specifications:

WAN PHY provides a carrier-grade interface capability at a discrete bit
         rate of 9.95 Gbps (physical layer rate), allowing customers to
         transport data signals over a SONET infrastructure

LAN PHY provides a carrier-grade interface capability at a discrete bit
         rate of 10.3125 Gbps (physical layer rate), allowing customers to
         interconnect Ethernet LANs

DecaMAN is provisioned over dedicated fiber-optic channels, which may
include Wave Division Multiplexing in all or part of the network. Each
DecaMAN Service provides dedicated bandwidth to the customer. All DecaMAN
Services traverse through a Utility Central Office gateway that serves to
regenerate the DecaMAN signal and provides the Utility with in-band
monitoring and maintenance capability. Network Terminating Equipment
(NTE) may be required on customer premises, at the discretion of the
Utility, based on technical design criteria.

7. Special Access Service (Cont'd)

    7.2 Service Descriptions (Cont'd)

        7.2.13 GigaMAN® Service

            (A) General Description

                Effective September 30, 2017, GigaMAN Service will   (N)
                no longer be available for purchase by new or
                existing customers. The Company will no longer
                accept orders for adds, moves, changes or new term
                plans for GigaMAN Service, and existing term plans
                may not be renewed, converted or extended.
                Following the expiration of a customer's existing
                GigaMAN term agreement, service will be provided
                on a month-to-month basis at the applicable
                monthly extension rates until the service is
                discontinued.   (N)

                (1) Basic Service Description

                    GigaMAN® (Gigabit Metro Area Network) Service is an
                    intraLATA service providing transmission of digital
                    signals at a discrete bit rate of 1 Gigabit per second
                    (Gbps) in Ethernet format (Ethernet IEEE 802.3) between
                    end-user customer premises. GigaMAN® is available in a
                    point to point service configuration.

                    GigaMAN® service is only available where facilities
                    and operating conditions permit. Where facilities
                    and/or operating conditions do not permit, Special
                    Construction as set forth in Section 15. following
                    shall apply.

                (2) Regulations

                    (a) The customer provided equipment (CPE) must deliver
                         the data signal for the GigaMAN® transport within
                         the industry specification for the subscribed data
                         service.

ACCESS SERVICE

7. Special Access Service (Cont'd)

    7.2 Service Descriptions (Cont'd)

        7.2.13 GigaMAN® Service (Cont'd)

            (A) General Description (Cont'd)

                (2) Regulations (Cont'd)

                    (b) GigaMAN® provides physical layer transport only.   (L)
                        The Utility assumes no responsibility for the
                        through transmission of signals generated by the
                        customer's CPE, for the quality of, or defects in
                        such transmission, for the reception of signals by
                        the customer's CPE, or address signaling to the
                        extent addressing is performed by the customer's
                        CPE. Error detection and correction of data
                        generated by the customer's CPE is the customer's
                        responsibility.

                    (c) GigaMAN® is designed to provide connectivity at
                        the discrete bit rate of 1 Gbps.   (L)

                    (d) GigaMAN® is available on one, two, three or five
                        year Term Pricing Plan (TPP) offerings.

                    (e) Out of service adjustments for credit allowances
                        are set forth in Schedule Cal.P.U.C. No. 175-T,
                        Section 2.4.4 preceding.

                    (f) GigaMAN® is not available in a Meet Point billing
                        configuration as set forth in Schedule Cal.P.U.C.
                        175-T, Sections 2.4.8 and 5.2.10.

                    (g) Conversion from other services (e.g., Hicap DS1
                        1,544 Mbps, etc.) are not available with GigaMAN®
                        service.

                    (h) Regulations for moves of a GigaMAN® service are
                        set forth in 7.4.16,(D)(2) following.

                    (i) The Minimum period for GigaMAN® service is
                        12 months.

                    (j) GigaMAN® service is not offered with guaranteed
                         throughput thresholds.

    (L) Material formerly located on Sheet 283-K
         Material omitted now located on Sheet 283-K-2

                                                                    Continued

ACCESS SERVICE

7. Special Access Service (Cont'd)

    7.2 Service Descriptions (Cont'd)

        7.2.13 GigaMAN® Service (Cont'd)

            (A) General Description (Cont'd)

                (2) Regulations (Cont'd)

                    (k) A repeater (circuit regenerator) may be used to   (L)
                         extend the transmission of GigaMAN® service. The
                         Utility will determine when repeaters are
                         necessary. Repeaters will be located in the
                         Utility Serving Wire Center.   (L)

                (3) Optional Features

                    (a) Diversity

                         GigaMAN® service is offered with Diversity.
                         Diversity requires two GigaMAN® services purchased
                         by the same customer of record.*

                         The customer premises locations for the two
                         Diverse GigaMAN® services may differ respectively
                         in A to Z locations for the two circuits and both
                         circuits must be served by the same type of
                         Utility equipment.

                         Diversity is only available to GigaMAN® customers
                         with service installed after November 13, 2003.
                         Customers with installations completed prior to
                         November 13, 2003 will not be able to order the
                         Diversity options on their GigaMAN® service.
                         Customers with the service installed prior to
                         November 13, 2003 who request Diversity, would be
                         required to convert their existing service per the
                         Rate Regulations set forth in 7.4.16,(2)(A)
                         following.

                         GigaMAN® diversity (including Channel Termination
                         Diversity, Alternate Wire Center Diversity and
                         Inter-Wire Center Diversity) may be configured to
                         be diverse from other eligible Access services as
                         determined by the Utility.

     * Alternate Wire Center Diversity does not require a second GigaMAN® circuit

   (L) Material formerly located on Sheet 283-K-1

ACCESS SERVICE

7. Special Access Service (Cont'd)

    7.4 Rate Regulations (Cont'd)

        7.4.16 GigaMAN® Service

                Effective September 30, 2017, GigaMAN Service will no   (N)
                longer be available for purchase by new or existing
                customers. The Company will no longer accept orders for
                adds, moves, changes or new term plans for GigaMAN Service,
                and existing term plans may not be renewed, converted or
                extended. Following the expiration of a customer's
                existing GigaMAN term agreement, service will be provided
                on a month-to-month basis at the applicable monthly
                extension rates until the service is discontinued.   (N)

                (1) Term Pricing Plans

                    (A) General Information

                         Rates and charges are offered with a 1, 2, 3, or 5
                         year Term Pricing Plan (TPP). For customers that
                         subscribe to a 1, 2, 3, or 5 year TPP, the monthly
                         rates in effect at the time the service is
                         installed will be in effect. If the Utility
                         initiates rate changes resulting in a decrease of
                         rates for an existing service with a 1, 2, 3, or 5
                         year fixed service period, those rate changes will
                         be passed along to the customer. Rate changes
                         resulting in an increase of rates for an existing
                         service will not exceed the original rate for that
                         selected service period unless mandated by the
                         California Public Utilities Commission.

ACCESS SERVICE

7. Special Access Service (Cont'd)

    7.5 Rates and Charges (Cont'd)

        7.5.13 GigaMAN® Service

                Effective September 30, 2017, GigaMAN Service will no   (N)
                longer be available for purchase by new or existing
                customers. The Company will no longer accept orders
                for adds, moves, changes or new term plans for GigaMAN
                Service, and existing term plans may not be renewed,
                converted or extended. Following the expiration of a
                customer's existing GigaMAN term agreement, service
                will be provided on a month-to-month basis at the
                applicable monthly extension rates until the service is
                discontinued.   (N)

		USOC	Monthly Rate	NonRecurring Charge
