2. Regulations (cont'd)

i. Multiparty Line Services

Farmer line service will be furnished to two or more customers on a single service arrangement. Service will be furnished only to a designated secretary or manager who will be considered to be the customer and who will be responsible for the payment of charges and other obligations in connection with the use of the service. It shall be the duty of the members of each farmer line to appoint or designate a secretary or manager for such line and no new member shall thereafter be connected to said line nor will the Company assign a number to a new member on such line except on written authority from such secretary or manager. Telephone service will be furnished to a farmer line only when service at the following rates is subscribed for in connection with each telephone connected to the line. Should a telephone for which service has not been subscribed be connected to a line, it shall be the duty of the secretary or manager to disconnect such telephone and refuse to permit its reconnection until proper arrangements have been made for service with both the manager of the line and the Company. The Company shall render bills for exchange and toll service to the individual members of the farmer line unless requested to do otherwise by the secretary or manager. If a customer fails to pay a bill within the period set forth in regulations, the Company may ask the secretary or manager to assist in collecting the unpaid bill. If, after reasonable effort the secretary or manager is unable to effect collection, the Company will assume full responsibility for the unpaid charges. In case the Company does not secure payment of all charges against each member on any line within the period set forth in regulations, the Company may deny exchange and toll telephone service to the line as a whole until the bill for such charges shall have been paid or until the Company shall have received notification from the secretary or manager that the telephone of the member or members from whom payment has not been received has been disconnected from the line.

- d. If the customer terminates the SuperTrunkSM service agreement prior to the expiration of the 24, 36 or 60 month service term, the customer shall pay an early termination fee for the SuperTrunkSM interface unless conditions as set forth in c., preceding, are met. Payment of the termination charge does not release the customer from previous amounts owed to the Company.

For SuperTrunkSM service term agreements which become effective on or after December 10, 2004, the termination charge will be:

- in addition to any unpaid special construction or non-recurring charges (excluding waived charges), customer termination liability for cancellation of any SuperTrunkSM service agreement shall be equal to fifty percent (50%) of all recurring charges for the same remaining months of the customer's service term.

For SuperTrunkSM service term agreements in effect prior to December 10, 2004, the termination charge will be the lesser of.

The difference between the total recurring payments actually paid over the completed months of the original service term at the time of termination and the total recurring payments that would have been paid on a month-to-month plan over the same time period, plus any waived non-recurring charges, plus 10% annual interest^{/1/}, or,

The total monthly payments remaining on the service term, discounted by 10%.

- e. If additional SuperTrunkSM terminations are ordered at a location where the customer has an existing SuperTrunkSM termination term agreement, the additional termination(s) may be added to that agreement up to six (6) months prior to the end of the original agreement, so that the monthly rate and expiration date specified in the original agreement apply. As an alternative, the customer may choose the month-to-month payment option or a different term option for the termination additions. The additions to the agreement are subject to the provisions described in c. preceding.

/1/ The annual interest rate shall be calculated as the maximum rate permissible by law, not to exceed the Company's approved Cost of Capital.
