1-2-3 PUNCH offers the waiver of all nonrecurring charges applicable to the service order and installation of new Business access lines of customers that currently do not have service with the Company. Also, existing qualifying Company customers are eligible for a one-time credit.

Any business customer that does not currently have service with the Company must order 1, 2, or 3 business access lines and retains the main billing telephone number for a minimum of one-year will receive a waiver of the nonrecurring charges (NRC) for each of those lines. This offer will apply only on the access lines that the customer installs on their initial order when establishing service with the Company.

Existing customers of the Company with 1, 2, or 3 Business access lines who subscribe to this offer and agree to retain their main billing telephone number for a minimum one-year term will receive a one-time credit of \$15.00 for each access line subscribing to this offer. Existing customers are not eligible for the nonrecurring charge waiver if they choose to add additional access lines.

Customers with multiple locations are eligible for this offer at each qualifying customer premises location.

B. LIMITATIONS

This offer cannot be combined with any other offer that includes any type of waiver, discount, or credit associated with nonrecurring charges or recurring rates for business access lines, trunks, Custom Calling Services, other features, or Hunting. Foreign Exchange Service is not eligible for this NRC waiver. Customers must complete any applicable term commitment or pay early termination fees associated with any existing Business access lines subscribing to this offer.

7. 1-2-3 PUNCH (Cont'd)**C. EARLY TERMINATION**

Early Termination Charges will be assessed unless the customer retains at least one access line installed under this offer for the entire 12 month term.

Early Termination Charges for new customers will equal \$5.50 multiplied by the number of months remaining under the 12 month term. The amount of the charges waived under the NRC Waiver and will be assessed unless the customer keeps at least one of the lines installed under the NRC Waiver for a 12 month period.

Example: the customer disconnects after 5 months, leaving 7 months remaining on the unexpired term. $7 \text{ months} \times \$5.50 = \$38.50$.

For existing Company customers that received a one-time credit, Early Termination Charges will equal \$1.25 multiplied by the number of months remaining under the 12 month term per access line.

Example: the customer disconnects after 5 months, leaving 7 months remaining on the unexpired term. $7 \text{ months} \times \$1.25 = \$8.75$.

Early Termination Fees will not apply if, during the 12-month term, the customer converts the access lines to another access line package with a term equal to or greater than the remaining term herein.

8. LINE EXTENSION AND SERVICE CONNECTION FACILITIES IN SUBURBAN AREAS**A. GENERAL**

1. Charges below are for abnormally long plant extensions to prevent unreasonably burdening the general body of existing customers and in addition to the provisions of Guidebook Part 3, Section 1.
2. Charges in this schedule are:
 - a. Applicable to aerial and underground facilities whether Company or jointly owned or rented; all classes, types and grades of service.
 - b. Not applicable to new subdivisions and real estate developments see G. following, or to farmer lines and tree-contact-type construction.
3. In lieu of charges for excess footage, applicant, may for all such excess, furnish and set the poles where aerial construction is employed, or furnish the underground supporting structure, all in accordance with Company construction specifications; the Company in that case provides and installs the fixtures and wire or cable at its expense. Sole ownership of facilities so provided by applicant shall be vested in the Company, except that underground supporting structures for service connections on private property shall be owned and maintained by the customer as set forth in Schedule Cal.P.U.C. No. A2.1.16,A.3.b.(1)(a).¹
4. Charges in this schedule are payable in advance and except as described in F. and G. following are not refundable.

B. ROUTE, TYPE AND MEASUREMENT

1. The line extension and service connection facility distance (excluding the length of aerial drop wire) for determining free footage and charge is measured from the point of connection at the existing distribution facility to the point of connection with the Company's network interface at the building being served.
2. Where the proposed route over private property will be part of the route to serve two or more customers, or where, at the Company's option, the route will be on private property rather than on public roads, such routes shall be treated as being on public roads.

/1/ Includes Income Tax gross-up amount, as listed in Schedule Cal.P.U.C. No. A2.1.3,D.

8. LINE EXTENSION AND SERVICE CONNECTION FACILITIES IN SUBURBAN AREAS (Cont'd)**C. COLLECTIVE APPLICATION AND GROUPING OF APPLICANTS**

1. When construction is required to serve a new applicant, a survey is made of all prospects who might be served from the new construction or an extension thereof and who might benefit by being included in the project. Allowances are made only for those prospective customers making bona fide applications for service (see H. following).
2. All applicants are grouped in a single project when there is no more than one-half mile of construction between successive applicants. Separate projects are established whenever the construction between any two successive applicants exceeds one-half mile. Two or more projects are combined, however, whenever this results in lower charges (or no increase in charges) for all of the applicants involved.
3. An applicant at any premises receives only a single free footage allowance regardless of the number of residence services ordered at that premises.
4. Where an applicant orders residence service at more than one premises, he is treated as being a separate applicant at each premises for purposes of this schedule.
5. An applicant may receive an additional free footage allowance at the same premises if business service is ordered in addition to residence service. Bona fide applications for multiple business service located in separate premises on continuous property may be treated as separate applicants provided the applicants execute an agreement as described in J. following (see also H. following).

8. LINE EXTENSION AND SERVICE CONNECTION FACILITIES IN SUBURBAN AREAS (Cont'd)**D. APPORTIONMENT OF CHARGES TO GROUP OF APPLICANTS WITHIN A SINGLE PROJECT**

1. Applicants are divided into two groups. The first group includes all applicants whose collective allowance equals or exceeds the construction required to serve them. No charge is made to such applicants. The second group includes all remaining applicants on the project. The over-all charge for the project is divided equally among all the applicants in the second group.
2. Exceptions
 - a. No applicant is required to pay a higher charge than they would if the project were established for them alone.
 - b. Charges for extensions to plant on private property are assumed by applicants on whose property such extensions are made and these charges are not included in the over-all charges for the project. Likewise, the free footage allowance on private property is not included in the collective allowance for the project.

E. CHARGES TO SUBSEQUENT APPLICANTS

1. When a new applicant is secured who can be served from a completed project, within three years from the date service was initially established for such project, the charges for the entire project are recomputed to include the new applicant. The new applicant pays a prorate of the charge based upon the number of months (a fraction of a month is counted as a full month) remaining in the original three-year term, the time to be computed from the date service is established for the new applicant.¹
2. Where additional construction is required for an applicant to be served from a project less than three years old, the charge for the project is recomputed as above if such recomputation does not increase the charges to those customers served from the existing project. Otherwise, a new project will be established.

/1/ Includes Income Tax gross-up amount, as listed in Schedule Cal.P.U.C. No. A2.1.3,D.

8. LINE EXTENSION AND SERVICE CONNECTION FACILITIES IN SUBURBAN AREAS (Cont'd)**H. DISCONNECTS**

1. When one or more customers on a project disconnect within the three-year term, no refund is made of the charge to the disconnected customers. Charges to remaining customers are not affected by disconnects.
2. If a customer has received free footage allowances as a result of being included in a group project, or by ordering an additional business service, then cancels the service(s) within a three year period of time, the customer agrees to pay the Company the differences between the line extension charges that would have been applicable had the customer not received the free footage allowance(s). The charges payable will be based on a prorated amount (total line extension charges divided by 36 months) times the number of months remaining in the three-year period contract. A fraction of a month will be counted as a full month.

I. RE-USE OF FACILITIES

1. When a customer disconnects service or moves off the project and service is established for a new applicant at the same location, any adjustment in charges is a matter for negotiation between the original customer and the new applicant.
2. Where a customer is disconnected for any reason and subsequently reapplies for service from the same premises, the customer will not be required to pay any charges under this schedule in addition to his total original obligation.
3. Where a customer has paid charges under this schedule for service at a premises on a given project and subsequently applies for service at a different premises on the same project, the customer will not be assessed additional charges greater than his original obligation unless additional construction is required.

J. CONTRACTS

Contracts covering periods not exceeding three years of telephone service, will be required by the Company as a condition precedent to establishment of the service when extensions to plant are necessary. Such contracts will not require advance or unusual payments in excess of those otherwise required by this schedule, and shall not interfere with the Company's right to collect amounts as provided for elsewhere in its tariff schedules. (See Agreement LF 4585, Schedule Cal.P.U.C. No. A2.3.)
