

.1. PREMIERE COMMUNICATIONS SYSTEMS SERVICE

A. DESCRIPTION

Premiere Communications System is an optional telephone service arrangement of central office features furnished to individual line business and residence customers wishing to combine two exchange access lines or up to six exchange access lines into a Premiere 6. It is available within the exchange area of all exchanges served by a central office where facilities and operating conditions permit.

1. Basic Package Features - Premiere 6

Premiere 6 Call Hold

A call can be placed on hold by flashing the switchhook and dialing a code. This frees the line to originate another call or use the call pick up feature.

Premiere 6 Call Pickup

A call can be answered which has been directed to another line in the Premiere group.

1. PREMIERE COMMUNICATIONS SYSTEMS SERVICE (CONT'D)**A. DESCRIPTION (CONT'D)****1. Basic Package Features - Premiere 6 (Cont'd)****Premiere 6 Three-Way Calling**

A call in progress can be placed on hold and a second call completed while maintaining privacy from the first call. In addition, the user may choose to add on the previously held call into a three-way conference.

Premiere 6 Intercom

Up to five other lines can be dialed in the same premiere group by dialing an access code followed by a single digit. Two user stations with same line number cannot access each other utilizing the Intercom feature.

Premiere 6 Call Transfer

Any established call can be transferred to another line within or outside the Premiere group. One person on the final connection must still be within the Premiere group.

2. Optional Line Features - Premiere 6**Premiere 6 Busy Call Forwarding/Delay Call Forwarding**

This line feature automatically transfers incoming calls that encounter a(1) busy condition and/or a (2) don't answer condition after a preselected number of rings (from 1 to 7) on the subscribing Premiere equipped line to an alternate designated line within the Premiere group. Because of technical limitations, the actual number of ring cycles before a don't answer call is transferred may vary slightly from the preset value. The number to which calls are transferred and the approximate number of ring cycles before a don't answer call is transferred are specified by the customer at the time the feature is ordered. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer. Changes to the feature must be requested from the Company.

Premiere 6 Call Forwarding

All calls made to the subscribing line are automatically transferred to a different line, within or outside the Premiere group.

1. PREMIERE COMMUNICATIONS SYSTEMS SERVICE (cont'd)

A. DESCRIPTION (cont'd)

2. Optional Line Features - Premiere 6 (cont'd)

Premiere Call Waiting

A tone burst is provided to alert a user on an existing call that another call is waiting.

3. Optional Group Features - Premiere 6

Premiere 6 Customer Changeable Speed Calling

Allows a user to abbreviate dialing patterns for frequently called and emergency numbers. By dialing an access code followed by two digits, a customer can dial up 30 preprogrammed numbers. All lines in a Premiere group share the same list which can be programmed from a customer specified line.

Premiere 6 Distinctive Ringing

Allows a customer to distinguish between incoming and intercom calls by providing distinctive ringing patterns. Premiere lines equipped for distinctive ringing which are also assigned the Call Waiting feature will receive distinctive tones on incoming and intercom calls which are waiting.

Premiere 6 800 Service Access

Allows access to 800 Service by dialing a separate access line not included as part of the Premiere System.

1. PREMIERE COMMUNICATIONS SYSTEMS SERVICE (cont'd)

B. REGULATIONS

1. The Company may furnish Premiere where there is available central office equipment with the proper program updates as determined by the Company.
2. Premiere is available on all individual business and residence access lines other than public or semi-public service lines.
3. A customer or customers may choose to combine access lines terminating at different premises into a Premiere 6. All access lines combined in a Premiere 6 must be served by the same central office.
4. The combining of access lines carrying different classes of service designations into a Premiere 6 is permitted.
5. All Premiere lines must be equipped for Touch-Tone signaling.
6. The quality of transmission for calls utilizing Premiere Call Forwarding or Premiere Three-Way Calling may vary depending on the distance and routing involved. The Company makes no representation as to the quality of the transmission on such calls.
7. Different customers may arrange to have their individual access lines combined in a common Premiere 6.

In the case where either of the optional group features Premiere Customer Changeable Speed Calling or Premiere Distinctive Ringing are ordered, an agreement must be reached between customers and Company as to which customer will be responsible for these particular features.

8. A customer with a line equipped with Premiere Call Forwarding is responsible for the payment of any applicable charges for each completed call between the subscribing line and the forwarded to line. This charge for local, message unit, zone calling units or dial station toll applies to all forwarding calls that are answered at the forwarded to line station.

1. PREMIERE COMMUNICATIONS SYSTEMS SERVICE (cont'd)

B. REGULATIONS (cont'd)

10. It is the responsibility of the customer forwarding calls to another service to obtain any necessary permission of the customer to whom the calls are forwarded. Schedule Cal.P.U.C. No. A2.1.11 prohibits interference of telephone service of another.
11. The Company may discontinue the telephone service of a customer with Premiere service for nonpayment or noncompliance with other rules. Refer to Schedule Cal.P.U.C. No. A2.1.11.
12. Temporary Service is not offered with Premiere service.
13. The limitation of the Company's liability is set forth in Guidebook, Part 2, Section 2.
14. A minimum of two (2) lines will be needed to establish a Premiere 6 System.
15. Unless otherwise specifically stated in this tariff schedule, Premiere Communications System Service, access lines will be treated as Individual Line Business and/or Residence Service and all applicable tariff schedules of the Company will apply.
16. The Company is not responsible for incompatibility between Company provided service and customer-provided terminal equipment as set forth Guidebook, Part 8, Section 8.
17. A control account is necessary with any Premiere 6 System so central office translations can be provided to activate the Intercom feature. An agreement must be reached between the customer(s) and the Company as to which customer will be designated as the control account. The customer of the control account is also responsible for handling order inquiries and maintenance problems with the Company.

1. PREMIERE COMMUNICATIONS SYSTEMS SERVICE (cont'd)

B. REGULATIONS (cont'd)

18. Premiere basic and optional features are not compatible with existing Custom Calling Services, described in Guidebook, Part 7, Section 1.
19. The optional features Call Waiting and Busy Call Forwarding Delay Call Forwarding may not be provided on the same line for the Premiere 6 group.
20. Lines terminated in a Premiere 6 group only may not be equipped for hunting if Busy Call Forwarding/Delay Call Forwarding is provided.
21. Each customer is responsible for the Premiere basic features and optional line features on their individual access lines(s).
22. On and after February 16, 1987 the offering of Premiere 6 will only be furnished to the same customer on the same premises and supersedures, additions, partial removals or changes to existing Premiere 6 systems are prohibited.
