## A. GENERAL (cont'd)

## 3. Territory

Between two points within a LATA where the respective rate centers of such points also are located in said LATA.

## 4. Rates and Charges

a. Method of Applying Rates<sup>1</sup>

- (1) Toll rates between points (cities, towns or localities) are based on the airline distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes.

- (2) Determine the rate airline distance between the rate centers involved.

Where a point is divided into district areas specified in Guidebook, Part 9, Section 2, the rate airline distance is the mileage between the rate center of the district area and the rate center of the other point, except that when such mileage exceeds 40 miles the rate airline distance is the mileage between the exchange rate center and the rate center of the other point with a minimum of 41 miles.

If both points are divided into district areas the rate airline distance is the mileage between the rate centers of the district areas, except that when such mileage exceeds 40 miles the rate airline distance is the mileage between the exchange rate centers with a minimum of 41 miles.

- (3) Refer to (10) following. Opposite the mileage step which includes the mileage determined as in (2) preceding, will be found the rates for sent-paid dial initial periods and rates for additional minutes for all classes of service between the rate centers involved. Below the table are the service charges for dial (credit) credit card station, operator station, and operator person service.

/1/ In addition to the rates shown in this schedule, one or more of the operator assistance service charges in Guidebook Part 11, Section 2, may apply per message.

B. MOBILE TELEPHONE SERVICE

1. Description

a. General

- (1) Message toll mobile telephone service is a communication service through a mobile telephone service base station, between a mobile unit and a wire telephone located outside the mobile service area associated with such base station, or between two mobile units served through different base stations.

Message toll mobile telephone service also includes service through a mobile telephone service base station between a wire telephone located outside the mobile service area and a fixed station, located within the normal range of the base station, which is authorized by the Federal Communications Commission to communicate through that base station, or between two such fixed stations served through different base stations.

In the application of rates and special conditions fixed stations, as described above, are considered as mobile units.

## B. MOBILE TELEPHONE SERVICE (cont'd)

## 3. Territory

Mobile Telephone service is available through numerous mobile telephone service base stations; provided by various carriers operating partly within and partly without the State of California, and between various mobile telephone units, base stations, fixed stations and wire telephones all of which are explained in 1. preceding.

## 4. Rates and Charges

a. Person rates, subject to a minimum rate of \$2.65 for the first minute or fraction, apply to toll messages as follows:

- (1) Between a wire telephone outside the mobile service area and a mobile unit served by a base station listed in 2.a.(1) preceding or between a wire telephone and a mobile unit served by, but not registered with a base station listed in 2.a.(2) preceding.
- (2) Between two mobile units, one or both served by base stations listed in 2.a.(1) above or between two mobile units, one served by a base station listed in 2.a.(3) preceding, and the other served by, but not registered with a base station listed in 2.a.(2) preceding.

b. The dial, dial (credit) calling card station, or operator station or person, day, evening or night rate, as applicable, applies to toll messages as follows:

- (1) Between a wire telephone outside the mobile service area and a mobile unit served by and also registered with a base station listed in a.(2) above or between a wire telephone and a mobile unit served by a base station listed in a.(2) above.
- (2) Between two mobile units served by different base stations listed in a.(2) above, or between two mobile units, one served by a base station listed in a.(2) above and one served by and also registered with a base station listed in a.(2) above.

## c. Regulations

The party on the mobile unit placing or receiving a toll call shall inform the mobile service operator, upon request, as to the state in which the mobile unit is located at the time of placing or receiving the call.

<sup>1</sup>/ Also known as Local Toll.

## C. SERVICE THROUGH RADIOTELEPHONE UTILITIES

## 1. Rates and Charges

- a. Service is available to and from customers of a radiotelephone Company with which arrangements have been made for the interexchange of telephone traffic.
- b. For mobile telephone service, the rates between the applicable wire telephone rate center and the rate center of the radiotelephone Company are the rates set forth in A.4. preceding for two-point service.
- c. For maritime radiotelephone service, the rates between the applicable coast station toll rate center and the rate center of the radiotelephone Company are the rates set forth in D. below. The rate center of the radiotelephone Company is the rate center of the Company serving exchange. An additional charge which the radiotelephone Company bills to and collects from its customer is applicable to the remainder of the haul as set forth in the Radiotelephone Company's tariff on file with the Public Utilities Commission of the State of California.

## D. MARITIME MOBILE RADIOTELEPHONE SERVICE

2. Regulations

- a. For service between a ship or aircraft served through a coast station listed in 4.b.(1) following and a telephone within a LATA, or two ships or aircraft, or a ship and an aircraft, where both are served through these stations, the total charge is the sum of the rates in 4.a. and b. following:

- (1) The appropriate charge as determined by the rates set forth following:

between the rate center for the telephone and the rate center of the coast station which serves the ship or aircraft

OR

between the rate centers of the coast stations when both the ship and the aircraft, or two ships or two aircraft are served through such stations.

- b. Maritime mobile radiotelephone service is available to ships or aircraft or other stations which are authorized by the Federal Communications Commission to communicate with the coast stations listed under 4.b.(1) following, when equipped for this service and within range of coast stations through which such service is furnished and is furnished subject to transmission, atmospheric and like limitations.
- c. Calls filed in advance of the time communication is desired are accepted on the basis that the Company will endeavor to complete them as nearly as possible to the time specified by the calling party.
- d. The ship or aircraft shall, upon request by the Company, furnish advice as to its position at the time the call is established.

3. Territory

Between a ship in the territorial waters of the State of California or an aircraft over the State of California or its territorial waters and a telephone within the State of California where the rate center of such telephone is also located in said State; between two ships, between two aircraft, or between a ship and an aircraft, each of which is located as set forth above.

## 4. Rates and Charges (cont'd)

## c. Application of Rates

- (1) Calls may be filed either on an operator station service or person service basis at charges shown in 4.a. preceding.
- (2) The Company does not undertake to bring to a telephone a called person who cannot be reached. However, at the request of the calling party, the Company, when possible, will arrange on behalf of the calling party for messenger service; that is, a messenger or other means to notify the called party of the call. The Company shall be reimbursed by the calling party for the amount expended for such messenger service, such charges being subject to prior authorization by the calling party to the extent that they can be determined in advance. Such charges for messenger service are in addition to the Guidebook charges for the message.

## (3) Initial and Additional Periods

Maritime Mobile Radiotelephone service rates are quoted in terms of initial and additional periods.

The initial period is three minutes or any fraction thereof.

The additional period is one minute or any fraction thereof.

Timing of messages is as provided in A.4.a.(11) preceding.

- c. Operator assisted interexchange receiving service

A telephone number designation will be assigned to each service in each exchange in which interexchange receiving service is subscribed. Only those calls to this number which originate at stations served from the exchange in which the service is subscribed will come within the scope of the service in this schedule and then only when the customer's telephone service where calls are received is not included in the local service area of the calling station.

- d. Dial interexchange receiving service

A listing of the telephone number of the service on which calls will be received may be furnished, at the customer's option, in the directory serving each exchange in which the service is subscribed. The listing will indicate that calls dialed, without the assistance of a Telephone Company Operator, to the listed number will not be billed to the caller.

Only those calls to this number which originate at stations served from the exchange in which the service is subscribed will come within the scope of the service under this schedule, and then only when the customer's telephone service where calls are received is not included in the local service area of the calling station.

With this service, dial station rates apply as described in 11.2.1,A.4.a.(10), except that Subparagraph (2) will not apply. Where dial completion facilities are not available, calls are not within the scope of this service. The customer to interexchange receiving service will be billed for calls to his number completed in accordance with the paragraph above.
