2.3 REGULATIONS – ACCESS SERVICES (cont'd)

2.3.5 Payment Arrangements and Credit Allowances (cont'd)

2.3.5.1 Payment of Rates, Charges and Deposits (cont'd)

C. When a payment for Access Service charges billed under this Guidebook is due to the Company from the customer as set forth in B.(3), preceding on the same payment date that a Purchase of Accounts Receivable net purchase amount is due to the customer from the Company as set forth in Schedule Cal. P.U.C. No. 175-T, Section 8.2.3 the Company may, with at least 31 days notice to the customer, net the payment for customer Access Service Charges with the net purchase amount. The Company will pay the net amount to the customer on the payment date when such net amount is due to the customer or require the customer to pay the Company.

D. Adjustments for the quantities of services established or discontinued in any billing period beyond the minimum period set forth for services in other sections of this Guidebook will be prorated to the number of days or major fraction of days based on a 30 day month. The Company will, upon request and if available, furnish such detailed information as may reasonably be required for verification of any bill.

2. TERMS AND CONDITIONS (cont'd)**2.3 REGULATIONS – ACCESS SERVICES (cont'd)**

2.3.5 Payment Arrangements and Credit Allowances (cont'd)

2.3.5.4 Credit Allowance for Service Interruptions (cont'd)

B. When A Credit Allowance Applies (cont'd)

(9) (a) Unprotected DecaMAN® Service

For unprotected DecaMAN Service, no credit shall be allowed for an interruption of less than 10 seconds. The customer shall be credited for an interruption of service as follows:

- an interruption of 10 seconds to four hours at the rate of 10% of the monthly rates
- an interruption of four hours to 12 hours at the rate of 25% of the monthly rates
- an interruption of 12 to 24 hours at the rate of 50% of the monthly rate
- an interruption of 24 hours or greater, at the rate of 100% of the monthly rates.

Unprotected DecaMAN Service is considered interrupted when the customer reports the interruption to the Company and the Company confirms that continuity has been lost. The credit allowance for service interruptions shall not exceed 100% of the applicable monthly rates during any billing period.

(b) Protected DecaMAN Service

A Service Level Agreement (SLA) is offered with fully-protected DecaMAN Service, which provides the customer with a performance commitment that includes a service credit if the service does not perform as described.

Service availability^{/1/} performance of 99.999% is offered on a DecaMAN Service with Protection (defined as Equipment Plus Fiber Path Protection for every segment of the service).

If this SLA is not met or if there is any single event of unavailability of service of greater than ten (10) seconds, the customer will be entitled to a credit equal to 100% of the monthly rate not to exceed the total monthly charges for the service. Only one such credit in a billing period will apply.

/1/ Service availability will be determined using unavailable seconds as defined in ANSI T1.503.2002 Network Performance Parameter for Dedicated Digital Service Definitions and Measurements.

2.3 REGULATIONS – ACCESS SERVICES (cont'd)

2.3.5 Payment Arrangements and Credit Allowances (cont'd)

2.3.5.4 Credit Allowance for Service Interruptions (cont'd)

B. When A Credit Allowance Applies (cont'd)

(9) (b) Protected DecaMAN® Service (cont'd)

The service is considered interrupted when the customer reports to the Company a service disruption of greater than ten (10) consecutive seconds and the Company confirms that continuity of its service has been lost.

In order to qualify for this credit, the event of unavailability must be determined by the Company to be in its network and the failure occurred in that part of the service with the Protection. SLA adjustments are not available in the event of a cable cut in any unprotected portion of the DecaMAN Service fiber path or due to customer requested modifications to the service that may require down time. Routine maintenance is not counted against unavailability.

SLAs are applicable to customers who purchase Equipment Plus Alternate Wire Center Path Protection or Equipment Plus Fiber Path Protection with Local Channel Path Protection on both ends of a circuit (both local channels), as well as Inter-Wire Center Path Protection when applicable. The Customer is responsible for notifying the Company when the service parameter within the calendar month falls below the committed level. The customer must request a service credit within 25 calendar days after the end of the month when the unavailability event occurred.

Rate changes resulting in an increase of rates for an existing service will not exceed the original rate for that selected service period unless mandated by the California Public Utilities Commission.

3. ORDERING OPTIONS – ACCESS SERVICES (cont'd)**3.2 ACCESS ORDER (cont'd)****3.2.4 Channel Specification For Access Orders**

- A. Where there are analog or digital high capacity facilities to a Hub on order, or in service for the customer's use, the customer may request a specific channel or transmission path be used to provide the Special Access Service requested in the Access Order. The Company will make a reasonable effort to accommodate the customer's request. If a facility assignment is not specified by the customer, the Company will provide the service from available inventory.
- B. For all other Access Orders, the option to request a specific transmission path or channel is not provided except as provided for SONET Ring and Access Service in Part 20, Section 15 or under Special Facilities Routing as set forth in Schedule Cal. P.U.C. No. 175-T, Section 11.

3.2.5 Minimum Period

- D. The minimum period for part-time Television and Program Audio Special Access Services is one day even though the service will be provided only for the duration of the event specified on the order (e.g., one-half hour, two hours, five hours, etc.). The minimum period for AVS-270 is 3 months.
- E. Service Rearrangements as set forth in 3.2.8., following, for Special Access Services may be made without a change in minimum period requirements.

/1/ Frozen/Grandfathered SONET Ring and Access Service effective June 30, 2006. See 2.3.2.4.F.

3. ORDERING OPTIONS – ACCESS SERVICES (cont'd)**3.2 ACCESS ORDER (cont'd)**3.2.9 Moves^{/1/,/2/}

A move involves a change in the physical location of one of the following:

- The Point of Termination at the customer's designated premises
- The customer's premises
- The EIS Point of Termination

The charges for the move are dependent on whether the move is to a new location within the same premises or to a different premises.

A. Moves Within the Same Premises

When the move is to a new location within the same premises, the charge for the move will be an amount equal to one half of the nonrecurring (i.e., installation) charge for the Special Access Service termination affected. There will be no change in the minimum period requirements.

B. Moves To a Different Premises

Moves to a different premises will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established for the new services. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

/1/ Move rules for GigaMAN® can be found in Part 15, Section 4.

/2/ Move rules for DecaMAN® can be found in Part 15, Section 4.

3. ORDERING OPTIONS – ACCESS SERVICES (cont'd)**3.2 ACCESS ORDER (cont'd)**3.2.9 Moves^{/1/,/2/} (cont'd)C. Moves for Fiber AdvantageSM DS3x3 and DS3x12 (cont'd)

The fixed period associated with the payment plan for the rearranged Fiber AdvantageSM DS3 will not change.

When a Fiber AdvantageSM DS3 service is hubbed into individual Fiber AdvantageSM DS1 service under a Rate Stability Payment Plan, and the customer desires to move the location of that Fiber AdvantageSM DS1 service, and there is no change to Fiber AdvantageSM DS3, then the nonrecurring charge associated with the individual Fiber AdvantageSM DS1 service channel termination under that current Rate Stability Payment Plan will apply. The fixed period associated with the payment plan for the rearranged Fiber AdvantageSM DS1 service will not change.

During a 3 or 5 year Fiber Advantage DS3, DS3x3 or DS3x12 Rate Stability Payment Plan term, a customer may move one end of a Fiber Advantage DS3, DS3x3 or DS3x12 Service to another location, within the same LATA, without incurring termination charges, provided the following conditions are met:
