

1. ADVANCED SERVICES**1.1 OPT-E-MAN®****A. DESCRIPTION**

OPT-E-MAN® Service is an advanced service offering networking capabilities utilizing Optical Ethernet. Optical Ethernet is the use of Ethernet LAN packets running over optical fiber within or as access to a service provider's network. OPT-E-MAN provides an integrated service consisting of fiber transport connected to an Ethernet device capable of switching and routing. OPT-E-MAN will provide bandwidth ranging from 2 Mbps to 1 Gbps. Customers will connect to the service using a router, bridge or switch.

OPT-E-MAN supports a logical point-to-point, point-to-multi-point or multipoint-to-multipoint configuration and enables the customer to connect locations within the Local Access and Transport Area (LATA) or Metropolitan Area Network (MAN) as if they were segments on the same LAN.

B. TERMS AND CONDITIONS

1. All terms and conditions relating the individual service offering found in this Guidebook as specified on the list of California Out of Territory Guidebook Part 2, Section 2 can be found in the Guidebook or tariff schedule indicated next to that service. All of these terms and conditions are applicable to the provisions of service in this tariff.
2. All rates and charges may be adjusted at a later date.
3. OPT-E-MAN service is available at the listed rates in this tariff where facilities and operating conditions permit. Where facilities can only be provided as a Special Construction offering, special construction charges as set forth in Schedule Cal. P.U.C. No. 175-T, Section 15, in an Individual Case Basis (ICB) will apply.
4. New 2 Mbps, 4 Mbps and 8 Mbps CIR bandwidth options will only be available under this tariff over fiber optic facilities, where such facilities exist or permit.
5. Meet-Point Billing, as described in AT&T California Guidebook Part 6, Section 9 is not available under this Guidebook.

1. ADVANCED SERVICES**1.2 Customized Switched Metro Ethernet (CSME) Service****A. Description**

Customized Switched Ethernet (CSME) Service is an advanced service offering networking capabilities utilizing Optical Ethernet. CSME provides an integrated service offering consisting of fiber transport connected to an Ethernet device capable of switching and routing. Customers will connect to the service using a router, bridge or switch. CSME Service provides bandwidths of 10 Mbps, 100 Mbps or 1 Gbps.

B. Terms And Conditions

1. All terms and conditions relating the individual service offering found in this Guidebook as specified on the list of services California Guidebook Part 2, Section 2 can be found in the Guidebook or tariff schedule indicated next to that service. All of these terms and conditions are applicable to the provisions of service in this Guidebook.
2. All rates and charges may be adjusted at a later date.
3. CSME service is available at the listed rates in this Guidebook where facilities and operating conditions permit. Where facilities can only be provided as a Special Construction offering, special construction charges as set forth in Schedule Cal. P.U.C. No. 175-T, Section 15, in an Individual Case Basis (ICB) will apply.

2. AT&T SWITCHED ETHERNET SERVICESM

A. Description

AT&T Switched Ethernet Service is a switched Ethernet transport service providing Ethernet transport functionality using fiber and copper access facilities and a switched Ethernet core network. AT&T Switched Ethernet Service provides full duplex transport of data signals between a customer's premises and an Ethernet switch in a Company central office.

AT&T Switched Ethernet Service supports point-to-point, point-to-multipoint or multipoint-to-multipoint configurations. Point-to-point service provides a connection between two ports. Point-to-multipoint service provides multiple point-to-point connections to multiple ports in the network. Multipoint-to-multipoint service provides a connection between three or more designated ports on the AT&T Switched Ethernet Service network.

AT&T Switched Ethernet Service provides intraLATA transport service where suitable equipment and facilities are available. Where facilities are not available, facilities may be constructed, subject to certain conditions as determined by the Company. Special Construction charges may apply.

AT&T Switched Ethernet Service is available in two serving arrangements, the *Basic Service Arrangement* and the *Per Packet Class of Service (PPCoS) Arrangement*, and two types of customer port connections, *Basic Ports* and *Per Packet Class of Service Ports*.

B. Terms and Conditions

1. All terms and conditions relating to the individual service offering found in this Guidebook as specified on the list of California Out of Territory Guidebook Part 2, Section 2, can be found in the Guidebook reference or tariff schedule indicated next to that service. All of these terms and conditions are applicable to the provisions of service in this tariff.
2. All rates and charges may be adjusted at a later date.
3. AT&T Switched Ethernet Service is available at the listed prices, shown in C. following, in this Guidebook where facilities and operating conditions permit. Where facilities can only be provided as a Special Construction offering, special construction charges, as set forth in Schedule Cal. P.U.C. No. 175-T, Section 15, in an Individual Case Basis (ICB), will apply.
4. Meet-Point Billing, as described in AT&T California Guidebook Part 6, Section 9 is not available under this Out of Territory Guidebook.
