3. Non-Billed Record Identification (NBRI)

Non-Billed Record Identification (NBRI) is also available with CD Bill at the charges set forth in California Out of Territory Part 8, Section 8. NBRI provides Individual Station Billing (ISB) Call Detail for Foreign Exchange Trunks, Tie Lines and Interexchange Channel – Interwire Center Private Lines that are used for off-net calling when routed through Flexible Route Selection Service (FRS). In addition, NBRI can be associated with customer dialed account recording which will provide an account number record of inward calls that are extended by an attendant to Centrex station lines and other services terminated in the Centrex system. NBRI is also provided for Interexchange Carrier (IEC) billed calls that are dialed direct or placed with operator assistance. This call detail option is available to business customers with both Centrex and non-Centrex lines used for placing intraLATA, interLATA, interstate and international calls where facilities and operating conditions permit. Furthermore, NBRI can be associated with Account Codes which will provide an account code number on outgoing calls that are direct dialed. This detail option is available to Individual Line Measured or Flat Rate Residence Service, Individual Line Measured Rate Business Service and Centrex stations who subscribe to Account Codes.
