3. ORDERING OPTIONS – ACCESS SERVICES (cont'd)**3.2 ACCESS ORDER (cont'd)****3.2.4 Channel Specification For Access Orders**

- A. Where there are analog or digital high capacity facilities to a Hub on order, or in service for the customer's use, the customer may request a specific channel or transmission path be used to provide the Special Access Service requested in the Access Order. The Company will make a reasonable effort to accommodate the customer's request. If a facility assignment is not specified by the customer, the Company will provide the service from available inventory.
- B. For all other Access Orders, the option to request a specific transmission path or channel is not provided except as provided for SONET Ring and Access Service in Part 20, Section 15 or under Special Facilities Routing as set forth in Schedule Cal. P.U.C. No. 175-T, Section 11.

3.2.5 Minimum Period

- A. Except as set forth in B., C., D. and Schedule Cal. P.U.C. No. 175-T, Section 9.1.4, the minimum period for which Access Service is provided and for which charges are applicable is one month.
- B. The minimum period for Video Payment Plans, GigaMAN® Term Pricing Plans, or Fiber AdvantageSM DS3 and DS3x3 service Rate Stability Payment Plan is one year.
- C. The minimum period for Fiber AdvantageSM DS3x12 or dedicated rings for SONET Ring and Access service^{/1/} is a 3 year Rate Stability Payment Plan. The minimum period for OC-3, OC-12, OC-48 Dedicated SONET Ring service is a three year term pricing plan.
- D. The minimum period for part-time Television and Program Audio Special Access Services is one day even though the service will be provided only for the duration of the event specified on the order (e.g., one-half hour, two hours, five hours, etc.). The minimum period for Serial Component Video Service is 3 months. (C)
- E. Service Rearrangements as set forth in 3.2.8., following, for Special Access Services may be made without a change in minimum period requirements.

/1/ Frozen/Grandfathered SONET Ring and Access Service effective June 30, 2006. See 2.3.2.4.F.

1. VIDEO SERVICE

Additional terms and conditions applicable to Special Access Services may be found in Part 2, Section 2.

1.1 BASIC CHANNEL DESCRIPTION

A Video channel is a channel with one-way transmission capability for a standard 525 line/60 field monochrome, or National Television Systems Committee color, video signal and one or more associated audio signal(s) as described below. The provision and the bandwidth of the associated audio signal(s) is a function of the channel interface selected by the customer. Video channels are provided between customer designated premises via a Company Video Hub.

The technical specifications and compatible channel interfaces are set forth in Technical Reference GR-338-CORE. The Company will conform to the transmission specification standards contained in the Technical References for each service. A customer may accept a Video Service that does not conform to transmission specification standards but will not be eligible to receive a Credit Allowance for Service Interruptions as described in Part 2, Section 2 (see 2.3.5.4).

A. ANALOG VIDEO SERVICE^{/1/}

(C)

Analog Video Service provides one-way transmission of video signals between two customer-designated premises or between a customer-designated premises and a Company Hub, where available, using fiber optic facilities. An NTSC video channel provides a standard 525 line/60 field monochrome, or NTSC color video signal, with up to four (4) associated 20 kHz audio signals. The bandwidth for Analog Video Service is 30 Hz to 6.6 MHz.

Analog Video Service is provided where facilities are available. Where facilities are not available, Special Construction (see Part 2, Section 5) may apply.

/1/ Effective December 31, 2020, this Service will no longer be available for purchase by new or existing customers, and service agreements may no longer be renewed. In addition, requests to move, add or change existing service arrangements will not be accepted. AT&T currently plans to discontinue this Service on or after December 31, 2021.
