

8.1 Inside Wiring Availability

Customer may request that AT&T install Inside Wiring at the time of Service installation. Inside Wiring is a deregulated connection from AT&T's demarcation point to Customer Premises Equipment (CPE).

For AT&T Switched Ethernet Service and AT&T Dedicated Ethernet terms and conditions, refer to:

[https://cpr.att.com/pdf/publications/Inside Wiring Service Guide Attachment.pdf](https://cpr.att.com/pdf/publications/Inside_Wiring_Service_Guide_Attachment.pdf)

8.2 Entrance Facility Construction Availability⁽¹⁾

AT&T will provide Entrance Facility Construction (EFC) for eligible orders. EFC is a deregulated activity consisting of conduit, other support structures, or physical pathway necessary for the installation of Service from the property line of the site where the entrance facility is to be constructed to the minimum point of entry of the building where the Network Terminating Equipment (NTE) is located.

For terms and conditions, refer to:

AT&T Dedicated Ethernet
