

3.3 Service Date Change Charge/Dispatch Charge – AT&T Dedicated Ethernet

If Customer is unable to accept Service on the original due date, AT&T may issue one or more supplements to an order to change the original due date to a date no more than 30 calendar days after the original due date. When Customer makes such requests, AT&T will accordingly delay the start of Service and Customer will incur a Service Date Change Charge. AT&T must receive the first supplement to the order on or before 30 calendar days after the original due date.

If Customer is unable to accept service within 31 calendar days after the original due date, one of the following will apply:

- If AT&T has not fully provisioned Service, AT&T will cancel the order on the 31st calendar day after the original due date and the Cancellation Charges specified in Part 1, Section 5, paragraph 5.1 will apply; or
- If AT&T has fully provisioned Service, AT&T will begin billing for the Service on the 31st calendar day after the original due date.

If an AT&T technician is dispatched to the Customer Site on the scheduled service date and Customer is not ready to accept Service or Customer failed to notify AT&T before 3:00 PM (CT) on the business day prior to the scheduled service date that the service date needed to be changed, a Service Date Change Charge will apply, in addition to the Service Date Change Dispatch Charge.

AT&T's Discretionary Cancellation of Orders

If AT&T cannot fully provision Service, or Customer is unable to accept Service, and no due date has been established, AT&T will send Customer a written clarification notice(s) advising Customer to supplement its order(s) within 30 days after the date of the written clarification notice. If AT&T does not receive a supplement to the order(s), or if Customer otherwise fails to resolve any condition that may preclude or impair AT&T's ability to provide Service, within 30 days after the date of the written clarification notice, AT&T may, in its sole discretion, cancel the relevant order(s).

3.4 Service Date Change Charge/Dispatch Charge – AT&T Switched Ethernet Service

If Customer is unable to accept Service on the original due date, Customer may issue supplements to an order to change the original due date to a date no more than 120 calendar days after the original due date. When Customer makes such request, AT&T will accordingly delay the start of Service and Customer will incur a Service Date Change Charge for each supplemental order. AT&T must receive the first supplement to the order on or before the 30th calendar day after the original due date.

If a Customer issues a supplement to an order to extend the original due date but is unable to accept Service within 121 calendar days after the original due date, one of the following will apply:

- If AT&T has not fully provisioned Service, AT&T will cancel the order on the 121st calendar day after the original due date and the charges specified in Part 1, Section 5, paragraph 5.2 will apply; or
- If AT&T has fully provisioned Service, AT&T will begin billing for Service on the 121st calendar day after the original due date.

If Customer is unable to accept Service within 31 calendar days after the original due date, and AT&T has not received a supplement to the order to extend the due date within 30 calendar days after the original due date, AT&T may cancel the order on the 31st calendar day after the original due date and charges specified in Part 1, Section 5, paragraph 5.2 will apply. If AT&T has fully provisioned Service, AT&T alternatively may begin billing for the Service on the 31st calendar day after the original due date. For purposes of this Part/Section, Service has been fully provisioned once a Customer Port Connection (Port) has been installed and is ready for use, including its associated CIR and CoS. Ethernet Virtual Channels (EVCs) associated with a Port may be ordered either at the same time as the Port or subsequently.

If an AT&T technician is dispatched to a Customer Site on the scheduled service date and Customer is not ready to accept Service or Customer failed to notify AT&T before 3:00 pm (CT) on the business day prior to the scheduled service date that the service date needs to be changed, a Service Date Change Charge will apply, in addition to the Service Date Change Dispatch Charge.

AT&T's Discretionary Cancellation of Orders

If AT&T cannot fully provision Service, or Customer is unable to accept Service, and no due date has been established, AT&T will send Customer a written clarification notice(s) advising Customer to supplement its order(s) within 30 days after the date of the written clarification notice. If AT&T does not receive a supplement to the order(s), or if Customer otherwise fails to resolve any condition that may preclude or impair AT&T's ability to provide Service, within 30 days after the date of the written clarification notice, AT&T may, in its sole discretion, cancel the relevant order(s).
