

1.1 General

AT&T Dedicated Ethernet (Service) is a fiber based, point-to-point, Ethernet service that allows Customers to transport data signals between 2 locations. Service can be used to transport data as an Ethernet signal or embedded within an Optical Transport Network (OTN) signal.

Service is available at the following speed and format options:

Speed	Ethernet Formats	Optical Transport Unit (OTU) Formats
1Gbps	1GE – Gigabit Ethernet	Not available
2.5Gbps	Not available	OTU1
10Gbps	10GE LAN-PHY	OTU2e
	10GE WAN-PHY	OTU2
40Gbps	40GE	OTU3
100Gbps	100GE	OTU4

1.2 Service Availability

Service is available from this Service Guide in the following jurisdictions across the following AT&T ILEC states:

(C)

(C)

Service provides transport service where suitable equipment and facilities are available in select geographic areas. Where facilities are not available, facilities may be constructed subject to terms as set forth in Part 1, Section 7. Special Construction charges may apply.

AT&T offers Service on a private carriage basis and reserves the right to make individualized decisions regarding the provision of Service to individual customers. AT&T may negotiate the specific prices and terms for Service for each individual customer.
