ACCESS SERVICE

2. General Regulations (Cont'd)2.1 Undertaking of the Telephone Company (Cont'd)2.1.10 Notification of Service-Affecting Activities

The Telephone Company will provide the customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include but are not limited to, equipment or facilities additions, removals or rearrangements, routine preventative maintenance and major switching machine change-out. Generally, such activities are not individual customer service specific, they affect many customer services. No specific advance notification period is applicable to all service activities. The Telephone Company will work cooperatively with the customer to determine the notification requirements.

2.1.11 Coordination with Respect to Network Contingencies

The Telephone Company intends to work cooperatively with the customer to develop network contingency plans in order to maintain maximum network capability following natural or man-made disasters which affect telecommunications services.

2.1.12 Provision and Ownership of Telephone Numbers

The Telephone Company reserves the reasonable right to assign, designate or change telephone numbers, or any other call number designations associated with Access Services, or the Telephone Company serving central office prefixes associated with such numbers, when necessary in the conduct of its business. Should it become necessary to make a change in such number(s), the Telephone Company will furnish to the customer reasonable notice, by Certified U.S. Mail of the effective date and an explanation of the reason(s) for such change(s).

2.1.13 Metropolitan Statistical Area Access Services

For the Metropolitan Statistical Areas (MSAs) in which the Telephone Company has received Phase II pricing flexibility, pursuant to Subpart H of Part 69 of the Commission's Rules. Section 22 of this Tariff governs the offering of service in these MSAs. Upon approval of Phase II pricing flexibility for a petitioned MSA, services purchased via Sections 6, 7, 8, 20, 22, 25, 26, 27, 30 and 32, under the various Pricing Plans as identified in Section 22.4(F), will then become subject to the regulations in Section 22, Metropolitan Statistical Area Access Services.

2.1.14 Broadband Services

Pursuant to the detariffing authority granted by the Commission in Memorandum Opinion and Order, FCC 07-180 (released October 12, 2007), certain broadband services have been withdrawn from this tariff. When offering these services through non-tariffed arrangements, the Telephone Company will abide by all of the special access merger commitments set forth in Memorandum Opinion and Order, FCC 06-189 at Appendix F (released March 26, 2007), including but not limited to commitments that contain references to "tariffs," such as those addressing pricing dispute resolution, and access service ratio terms. The detariffing of these services does not diminish or supersede any of those special access merger commitments.

5.1 General (Cont'd)

5.1.1.1 Negotiated Interval

The Telephone Company will negotiate a service date interval with the customer when:

- (A) There is no standard interval for the service, or
- (B) The quantity of Access Services ordered exceeds the quantities specified in Section 5.2.2(D) (1), or
- (C) The customer requests a service date beyond the applicable standard interval service date.

Standard Intervals	
Analog/Voice Grade/DS0	10 days
DS1/Fractional DS1	7 days
DS3	7 days ⁽¹⁾
⁽²⁾	

(D)

The Telephone Company will offer a service date based on the type and quantity of Access Services the customer has requested. The negotiated interval may not exceed by more than six months the standard interval service date, or, when there is no standard interval, the Telephone Company offered service date.

Certain Telephone Company critical dates are associated with the service interval. These dates provide a means to determine the provisioning costs incurred at any point during the service interval. The critical dates for each Access Order will be provided to the customer on the firm order confirmation. These dates will be used to develop cancellation charges as set forth in 5.2.3 following. Cancellation charges are calculated by determining the provisioning costs the Telephone Company has incurred as of the last critical date completed.

⁽¹⁾ Interval only applies where facilities and equipment exist. When facilities and equipment do not exist the interval is dependent upon the complete installation of new facilities and equipment.

⁽²⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

To qualify for an expedited interval the customer must provide End User premises access, where needed, until 11PM (PT), Monday-Friday.

When the customer requests a 0-2 day expedite interval, on DS3, Analog (Metallic, Telegraph, Direct Analog, Wideband Analog), DS0 (Wideband Data, Base Rate), DS1 128, 256, 384, 512, 768 Kbps, Entrance Facilities (Voice Grade, DS1, DS3) and DS1/DS3 Access Service, the request must be received by the Telephone Company by 8:30AM (PT), Monday-Friday. All 0-2 day expedite interval requests received after 8:30AM (PT) will reflect an application date of the next business day and the due date will also be changed to the next business day. Expedite charges will be determined by the interval between the application date and the expedite due date.

(1)

(D)

(D)

If, upon reviewing availability of equipment, facilities and scheduled workload, the Telephone Company agrees to provide service on an expedited basis and the customer accepts this proposal, an Expedite Order Charge (in case of DS0, Fractional DS1, Voice Grade/DS1 Entrance Facilities and High Capacity DS1 Access Services) or Expedite Circuit Charge (in case of DS3 Entrance Facilities, High Capacity DS3 Access Services)⁽¹⁾ will apply.

(D)

The maximum number of circuits, which may be expedited, is limited to twelve (12) two-point or six (6) multi-point Analog/DS0 circuits at the same location; a limit of nine (9) DS1 circuits at the same location; a limit of four (4) Fractional DS1 circuits at the same location; and a limit of two (2) DS3 circuit at the same location.⁽¹⁾ When the number of access circuits exceeds the maximum threshold the interval will be negotiated.

(T)

(D)

If the Telephone Company determines that service can be provided on an expedited basis, the following charges will apply based upon agreed upon expedited service interval. The Expedited Order Charge (in case of DS0, Fractional DS1, Voice Grade/DS1 Entrance Facilities and High Capacity DS1 Access Services) applies on a per order basis, regardless of the number of circuits. The Expedited Circuit Charge (in case of DS3 Entrance Facilities, High Capacity DS3 Access Services)⁽¹⁾ applies on a per circuit basis.

If the customer desires that service be provided on an earlier date than that which has been established for the access order or the provision of the Access Service, the customer may request that service be provided on an expedited basis.

If the Telephone Company determines that service can be provided on the requested date and that additional labor costs or extraordinary costs are required to meet the requested service date, the customer will be notified and will be provided with an estimate of the additional charges involved. The total charge to the customer for the Additional Engineering may not exceed the estimated amount by more than 10%. If the customer instructs the Telephone Company to proceed, such additional charges will be determined and billed to the customer as follows:

To calculate the additional labor charges, the Telephone Company will, upon authorization from the customer to incur the additional labor charges, keep track of the additional labor hours used to meet the request of the customer and will bill the customer at the applicable additional labor charges as set forth in 13.2.6(A) following.

- (a) Extraordinary Costs: The special construction terms and conditions specified in Pacific Bell's Tariff F.C.C. (A) A customer may cancel an Access Order for the installation of service on any date prior to the service date. The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the order is to be cancelled. The verbal notice must be followed by written confirmation within 10 days. If a customer or a customer's end user is unable to accept Access Service within 30 calendar days after the original service date, the customer has the choice of the following options:

- The Access Order shall be cancelled and charges set forth in (B) following will apply, or
- Billing for the service will commence.

In such instances, the cancellation date or the billing date, depending on which option is selected by the customer, shall be the 31st day beyond the original service date of the Access Order.

(B) When a customer cancels an Access Order for the installation of service, a Cancellation Charge will apply as follows:

- (1) Installation of Switched or Special Access Service facilities is considered to have started when the Telephone Company incurs any cost in connection therewith or in preparation thereof which would not otherwise have been incurred.
- (2) Where the customer cancels an Access order prior to the start of installation of access facilities, no charges shall apply.
- (3) Where installation of access facilities has been started prior to the cancellation, the lesser of the charges specified in (a) or (b) following, shall apply except for Switched Access service. For Switched Access, (b) following will always apply.

8.1 General Description (Cont'd)

(B) Service Provisioning

(1) Manner of Provisioning (Cont'd)

MON Ring Service provides physical layer transport only. Telephone Company assumes no responsibility for the signals generated by the CPE, or address signaling to the extent the CPE performs addressing. Error detection and correction of data generated by the CPE are the customer's responsibility.

ACCESS SERVICE

8. Multi-service Optical Network (MON) Ring Service (Cont'd)8.2 Route Diversity

MON Ring Service is configured with diversely routed fiber whenever possible. Unprotected channels will be lost in the event of a fiber path failure on which the circuit is assigned. Equipment interfaces towards the customer are not protected.

Routing of fiber may be diversified from the customer premises to their serving wire center or alternate serving wire center as determined by the Telephone Company, and where facilities are available, to ensure that loop fibers follow separate paths to the serving wire center or alternate serving wire center. In addition, IOF (interoffice facility) fiber paths may be diversified to ensure that at any serving wire center drop node, the fibers do not egress and ingress at the same location. In cases, where the serving wire center does not have multiple entrance fiber facilities, the section of the fiber from the manhole closest to the serving wire center will be routed within the same duct structure.

At the customer's request, additional protection to the customer premises nodes can be provided via dual entrance facilities. This special request will cause the customer to incur special construction cost. Without this special request, diverse fiber is provided to the manhole closest to the customer premises. The customer or building owner is responsible for providing the conduit.

In the case where dual entrance facilities are not established at the customer premises, collapsed facilities from the customer premises to the building equipment location are not diverse.

8.3 Rate Regulations(A) Rate Elements

There are nine basic rate elements which apply to the MON Ring Service:

(T)

(1) Nonrecurring Charges

These are one-time charges that apply for specific work activities (i.e., installation of new service, moves, and rearrangements of installed services). There are three different nonrecurring charges:

- (a) Administrative Charge - applies any time a customer initiates an order for service. This charge applies once per customer order.
- (b) Design and Central Office Connection Charge - applies once for the initial MON Ring installation, and applies once for each circuit ordered on the MON Ring Service.
- (c) Customer Connection Charge - applies to establish the MON Ring network, and is charged per node. Subsequent installation charges apply to each subsequent shelf installed after the MON Ring network is established.

ACCESS SERVICE

8. Multi-service Optical Network (MON) Ring Service (Cont'd)8.3 Rate Regulations (Cont'd)(A) Rate Elements (Cont'd)(2) Customer Premises Node

Provides for the termination of service at the customer's premises and presents the various selected ports to the customer. Applies per customer designated premises, per first shelf and subsequent shelves.

(3) Central Office Node

Provides for the termination of service at a Telephone Company serving wire center. Applies per first shelf and subsequent shelves.

(4) Channel Mileage

Provides for the transmission facilities between the serving wire centers associated with the customer designated premises. The mileage measurement is developed utilizing the V&H coordinate method as set forth in the National Exchange Carrier Association, Inc. (NECA) Wire Center Information Tariff, F.C.C. No. 4. A one-mile minimum will be billed between nodes. A two-node ring configuration has a two mile minimum, one mile from the central office node to the customer premises node, and one mile from the customer premises node to the central office node.

(5) Optical Amplifier

Provides for an optical signal boost and applies when the distance between nodes exceeds the transmission loss parameters (link loss specific). Optical amplifiers are located at the customer premises node, a central office node, or a serving wire center. Each amplifier provides amplification for up to 16 channels per location (one amplifier per C or L band). Available where facilities and equipment permit⁽¹⁾.

(C)
(C)(6) Regenerator

Provides for re-timing, re-shaping, and regeneration when the degradation of the signal exceeds the dispersion and/or optical amplifier noise limits. Applies on a per shelf basis for up to 2.5 Gbps services and on a per circuit basis for up to 10 Gbps service.

(7) Bulk Power

Provides for customer premises node power, which will be required if the customer's power source is AC. Applies once per 4 shelves, with the first shelf and fifth subsequent shelf at each applicable customer premises node.

(N)
(N)

(1) This regulation only applies to customers purchasing this service after 08/19/06.

ACCESS SERVICE

8. Multi-service Optical Network (MON) Ring Service (Cont'd)
8.3 Rate Regulations (Cont'd)(A) Rate Elements (Cont'd)(8) Port

Provides for the channel interface at any node location for each unprotected or protected channel. Applies per port/per circuit terminating location. Charges will apply at the lower speed circuit level. (N)

(9) Sub-Rate System (N)

Allows for multiple ports, also called riding circuits, on a Single wavelength. (N)

(B) MON Ring Connection Capacity

MON Ring Service offers the following port interfaces:

(1) IBM Protocols:

ESCON^{TM/1/} (200 Mbps) - Enterprise Systems Connection. An IBM duplex optical connection used for computer-to-computer data exchange. ESCONTM is limited to a maximum distance of 43 km and actual data throughput is distance sensitive. (Offered as a riding circuit where facilities and equipment permit.) (C) (N)

ETR/CLO^{TM/1/} (8 Mbps - Manchester Encoded) - External Timing References/Control Link Oscillator. This protocol is used for IBM GDPSTM architecture for multiple-location host processors. ETR/CLOTM is limited to a maximum distance of 40 km. (N)

FICON^{TM/1/} (1.0625 and 2.125 Gbps) - A higher-speed evolution of ESCONTM, enabling 1 Gbps connectivity among mainframes, storage devices and peripherals. FICONTM is limited to a maximum distance of 100 km and actual data throughput is distance sensitive. (Offered as a riding circuit where facilities and equipment permit.) (C) (N)

ISC-1^{TM/1/} (1.0625 Gbps) - Inter-System Coupling. This protocol is used with IBM GDPSTM architecture for multiple-location host processors. ISC-1TM is limited to a maximum distance of 40 km. (N) (N)

ISC-3^{TM/1/} - ISC-3 links have a peak data rate of 2.125 Gbps and can interconnect IBMTM eServer z900 systems for distances up to 10 km. (N)

ACCESS SERVICE

22. Metropolitan Statistical Area Access Services22.1 General Description

- (A) This section of the tariff provides the regulations, rates and terms and conditions that apply to telecommunications services provided by the Telephone Company in the Metropolitan Statistical Areas (MSAs) in which the Telephone Company has received Phase II pricing flexibility pursuant to Subpart H of Part 69 of the Commission's Rules. MSAs are divided into the categories below:

(1) Full Service MSAs

Full Service Relief MSAs are those MSAs which qualified for Phase II pricing flexibility for all elements of service, i.e., local channels (channel terminations) between LEC end offices and customer (end user) premises; entrance facilities; dedicated interoffice facilities; local channels (channel terminations) between an interexchange carrier's point of presence and a serving wire center. The Full Service Relief MSAs are set forth in Section 22.2(A), following.

(2) Limited Service MSAs

Limited Service Relief MSAs are those MSAs that qualified for Phase II pricing flexibility for all elements of service except local channels (channel terminations) between a LEC end office and a customer (end user) premise. The Limited Service Relief MSAs are set forth in Section 22.2(B), following.

- (B) The services provided in MSAs pursuant to this section of the tariff are set forth in Section 22.3, following. These services are comparable to the SWA Dedicated Transport Services in Sections 6.8.1(A), 6.8.1(B), 6.8.1(I), and the Special Access Services in Sections 7, 20 and 22. ⁽¹⁾ The general regulations, service descriptions, and rate regulations for the SWA Dedicated Transport Services in Section 6 and the Special Access Services in Sections 7 and 20 ⁽¹⁾ are also applicable to the services specified in this section, except as provided below. (D)

An exception in 22.4(F) applies for term pricing plans.

- (B) Unless otherwise provided for in this section, regulations set forth in Sections 1, 2, 5, and 13 are also applicable.

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

23. Pricing Flexibility Contract Offerings (Cont'd)23.5 Contract Offering No. 5 - Access Discount Offer (Cont'd)23.5.6 Calculation of Total Revenue Commitment (TRC) (Cont'd)(B) Application of Credits (Cont'd)(3) Transfer of Qualified Services

- (a) The Customer may transfer services purchased from SBC non - wholesale entities or channels, or purchased by the Customer under a different Access Customer Name Abbreviation (ACNA) than those identified under this Contract Offer. Upon such transfer, the Customer's TRC commitment must be increased proportionally, based on the amount of revenue associated with the transferred services. The Customer's Maximum Basic Credit amount will not change as a result of this transfer.

Example:

The Customer has a Contract Year 1 TRC of \$8.75M and is eligible to earn up to a maximum of \$18M in Basic Credits. The Customer transfers \$10M of services from a non-SBC wholesale entity. The Customer's new Contract Year 1 TRC will be \$18.75M (\$8.75M plus \$10M = \$18.75M). The Customer's maximum Basic Credit (\$18M) will not change as a result of the transfer.

This increase in the TRC amount will apply to Contract Year 2 and Contract Year 3, as well as the optional Contract Year Extensions.

23.5.7 Portability

- (A) The Telephone Company will waive termination liability charges for moves and/or disconnection of non-channelized DS1, DS3, ⁽¹⁾services connecting to an end user premise, provided the conditions listed below are met, and provided the Eligibility Criteria in Section 23.5.2, and terms and conditions in Section 23.5.3 have been met. If the Customer both (i) fails to meet the monthly TRC during the Contract period pursuant to Section 23.5.6, and (ii) fails to pay the True-up amount, as defined in Section 23.5.8, or if the Customer fails to comply with the terms and conditions of their underlying term plans, the Customer will be back-billed for termination liability charges that were waived during the Term Period, up to a maximum of two years of such charges, to the extent such termination liability charges would otherwise apply under the relevant underlying term plans. Portability will apply subject to the following terms and conditions:
- (D)
- (1) Each move and/or disconnection must be from any SBC Tariff as described in Section 23.5.1; and
- (1) Services moved or disconnected must be in the Price Flex MSAs described in Tariff F.C.C. No. 1, Section 22.

23. Pricing Flexibility Contract Offerings (Cont'd)23.5 Contract Offering No. 5 - Access Discount Offer (Cont'd)23.5.7 Portability (Cont'd)

(A) (Cont'd)

(1) Services must be non-channelized and must include at least one end user termination. The end user must be disconnected.

(2) The Customer must meet the minimum in-service period for each service, as described below:

(a) DS1 - no minimum in-service period;

(b) DS3, ⁽¹⁾ and ⁽¹⁾ - 1 year minimum in-service period; and (D)

(c) ⁽¹⁾ and ⁽¹⁾ - 3 year minimum in-service period; (D)

(3) The Customer must continue to meet the terms and conditions of any underlying term plan.

23.5.8 End of Contract Year True-up Process

A true-up calculation will be performed at the end of each Contract Year during the Term Period as follows:

- (A) At the end of each Contract Year, the Customer's Gross Spend, as defined in Section 23.5.6 preceding, will be calculated to determine the applicable Basic Credit and Achievement Credits.

For true-up calculation purposes, the Gross Spend for Contract Year 1 will include the Customer's Contributory Service revenue for the full 2005 calendar year. The amount of Contributory Service minimum required revenue at final true-up for Contract Year 1 will be the 2005 TRC, plus 11/12ths of 86.5 percent of the 2004 Gross Spend, rounded to the nearest million. The applicable Basic Credit Amount and Achievement Credit Amount received as a result of this calculation will apply only to the TRC amount included in this Contract Offer, as described in Section 23.5.6 Table 7 preceding.

For Contract Years 2 and 3, the minimum required revenue shall be equal to the TRC.

The Basic Credit Amount shall be equal to the Gross Spend minus the TRC for each year (or, for Contract Year 1, the Gross Spend minus the sum of the TRC plus 11/12ths of 86.5 percent of 2004 Gross Spend), provided, however, that the Basic Credit Amount shall not exceed the amount provided in Section 23.5.6 Table 7 preceding, and will only apply to the TRC amount included in this Contract Offer.

Credits received under this Contract Offer during the Contract Year, as well as any MVP credits earned in 2005, MVP SLA credits earned in 2005, and DVP credits, will be calculated to determine the amount of Basic Credit the Customer has been paid.

23. Pricing Flexibility Contract Offerings (Cont'd)23.5 Contract Offering No. 5 - Access Discount Offer (Cont'd)23.5.12 Cessation of Business

If, at any time during the Term Period, the Telephone Company, or any of its affiliated telephone companies, cease to provide telecommunications services in any MSA subject to this Contract Offer, or any of the other Contract Offers as described in Section 23.5.2 (C), sells or divests its operating assets in any MSA subject to this Contract Offer, or otherwise ceases to provide any of the Contributory Services subject to this Contract Offer, the TRC will be decreased by the amount of the qualified revenue associated with the Contributory Services no longer provided by the Telephone Company or its affiliated telephone companies.

23.5.13 Termination Liability Charges

Termination liability language described below applies in lieu of the termination liability language in F.C.C. No. 1, Section 7 and ⁽¹⁾. If the Customer terminates Contract Offer No. 5 before the expiration of the Term Period for any reason, except for that defined in 23.5.13 (B) below, the Customer must pay the Telephone Company termination liability charges as described below. These charges shall become due as of the effective date of the cancellation or termination. The Customer must provide written notification to the Telephone Company 90 days prior to the desired date of termination. This notification must include the date upon which the Customer will terminate the Contract Offer. (D)

(A) If the Customer fails to meet any of the eligibility criteria in Section 23.5.2, or fails to meet any of the terms and conditions in Contract Offer No. 5, then the Telephone Company shall provide the Customer with written notification of such non-compliance, and the Customer will have sixty (60) days to return to compliance. If the Customer does not return to compliance within such time period, the Customer will be deemed to have terminated its participation in Contract Offer No. 5, and termination liability charges will apply as stated in 23.5.13 (C), and will be payable within sixty (60) days from the time the contract is deemed terminated.

23. Pricing Flexibility Contract Offerings (Cont'd)23.17 Contract Offer No. 17 - Special Access Bundle Service Offer (Cont'd)23.17.9 Detariffing

If, during the Term Period of this Contract Offer, the Telephone Company withdraws, cancels or amends any tariff provisions related to any of the services subject to this Contract Offer as a result of an order of the Federal Communications Commission (FCC) granting approval, in whole or in part, of a petition for forbearance from Title II regulation of any services subject to this Contract Offer, the Telephone Company and the Customer shall cooperate in good faith to assure that the rights and obligations of both parties under this Contract Offer are preserved and continue in full force and effect to the greatest extent practicable and consistent with applicable law.

23.17.10 Termination Liability(A) Contract Term Period

Termination liability, as described below, applies in lieu of the termination liability language in NBTC Tariff F.C.C. No. 1, Sections 7 and ⁽¹⁾. If the Customer discontinues services provided under this Contract Offer before the completion of the Term Period for any reason, or if the Customer breaches the terms or conditions of this Contract Offer or of any other applicable tariff provision, the Customer must pay the Telephone Company termination liability charges as described below. These termination liability charges shall become due as of the effective date of the termination of service, and are payable as described below. (D)

The Customer's termination liability charges shall be equal to the MRC, multiplied by the number of months remaining in the Term Period, multiplied by fifty (50) percent.

Example 1: A Customer with a \$100,000 MRC terminates service after thirty-six (36) months, and has forty-eight (48) months remaining on the seven (7) year Term Period. The termination liability would be calculated as:

$$(\$100,000 \times 48 \text{ months}) \times 50\% = \$2,400,000 \text{ termination liability charge}$$

28. AT&T Volume Discount Plan (AVDP)28.1 General Description

The AVDP provides volume discounts applicable to the interstate term plans listed below, for Customers who purchase DS1 and DS3 ⁽¹⁾ at the volume tiers outlined in Section 28.1 (B). The AVDP provides a Billing Credit Discount (BCD) annually, in accordance with the terms and conditions set forth below: (D)

(A) Terms and Conditions

- (1) The AT&T Volume Discount Plan is available for DS1 and DS3 ⁽¹⁾ channel terminations purchased for one, three and five-year term periods: (D)
- (a) DS1 TPP (Sections 7.11.5.2, 7.11.5.3(F) and 22.5.2.6); and
 - (b) DS3 High Capacity Service Billing Period (Sections 7.11.5.1(A), 7.11.5.3 and 22.5.2.5).
- (1) (D)
(1) (D)
- (2) To subscribe to the AVDP, the Customer must provide written notification to its Telephone Company account manager or the Business Office.
- (2) Circuits ordered on or after March 14, 2007, or circuits which have completed a term period and are subscribed to a new term period on or after March 14, 2007, under one, three and five-year term plans described in 28.1(A)(1), will count toward the volume levels identified in Section 28.1(B) from the day the Customer has notified the Telephone Company of its subscription to AVDP.
- (4) AVDP expires on December 31, 2010. The last BCD will be paid in January 2011.
- (5) The Customer's BCD is identified by referencing the Billing Credit Discount Table in 28.1(B) using the monthly in-service volumes, aggregated by service type. The Average Monthly In-Service Volume (AMISV) is calculated by totaling the number of channel terminations by service each month, and dividing the total by the number of subscribed months in the plan year. See example of BCD calculation in 28.1(B).
- (6) The BCD is applied as a percentage discount to the total monthly recurring billed revenue for channel terminations, by service, for the subscription period of the current year for the services identified in Section 28.1(B). The BCD will be paid as an annual discount credit to the Customer's bill in January of the following year for subscribed services in 2007, 2008, 2009 and 2010.
- (7) Services subject to the Customer's Managed Value Plan or a Price Flex Contract Tariff are not eligible for the AVDP offering.
