32.1 Contract Offer No. 161 – Special Access Service Offer (Cont’d)

32.1.4 Terms and Conditions (Cont’d)

(I) The Telephone Company will calculate and issue (when applicable) DS3 Credits for each three (3) month period during the Term Period, beginning from the Subscription Date (each such period to be referred to as a "Quarter"). DS3 Credits will be based on the equivalent of one terminated DS3 Subject Service for every twenty-eight (28) DS1 Subject Services that have been terminated without termination liability pursuant to Section (G), above, during the relevant Quarter ("Eligible DS1s"). The Telephone Company will determine the number of Eligible DS1s for the Quarter, divide the number of Eligible DS1s by twenty-eight (28), and round the quotient down to the nearest whole number. The result of this calculation will be referred to as the "DS3 Termination Allowance." The amount of the DS3 Credit will be calculated by multiplying the DS3 Termination Allowance times the average amount of all termination liability charges billed to the Customer per terminated DS3 Subject Service during the Quarter ("Average DS3 TLC").

Formula: DS3 Termination Allowance x Average DS3 TLC = DS3 Credit

Example: During Quarter X of the Term Period, the Customer terminates one hundred sixty-five (165) DS1 Subject Services without termination liability, as provided in Section 32.1.4(G). During Quarter X, the Customer also terminates six (6) DS3 Subject Services. Total termination liability charges for the terminated DS3 Subject Services are $24,000. The DS3 Termination Allowance is 5 (165/28 = 5.89). The Average DS3 TLC is $4,000 ($24,000/6 = $4,000). The DS3 Credit is $20,000 ($4,000 x 5 = $20,000)

(J) The Customer must include the Contract Number associated with this Contract Offer on all disconnect orders for Subject Services.

32.1.5 Assignment/Transfer

If the Customer wishes to assign or transfer its use of services under this Contract Offer pursuant to PBTC Tariff F.C.C. No. 1, Section 2.1.2, the Telephone Company will acknowledge such transfer or assignment if the criteria in PBTC Tariff F.C.C. No. 1, Section 2.1.2, are fulfilled, unless 1) the proposed assignee or transferee demonstrates a lack of credit worthiness under one of the criteria in (A), (B) or (C), below, or 2) if the proposed assignee or transferee or its parent has commenced a voluntary receivership or bankruptcy proceeding (or had a receivership or bankruptcy proceeding initiated against it).

(A) Any debt securities of the proposed assignee or transferee or its parent (defined as an entity that owns directly or indirectly more than fifty percent (50%) of the equity of the proposed assignee or transferee) are rated below investment grade, as defined by the Securities and Exchange Commission; or

If any debt securities of a proposed assignee or transferee or its parent are rated the lowest investment grade and have been placed on review by the rating organization for a possible downgrade.

(B) The proposed assignee or transferee or its parent does not have any outstanding securities rated by credit rating agencies, e.g., Standard and Poor's, but does have a Dun and Bradstreet rating, and the proposed assignee or transferee is rated:

(1) "fair" or below in a composite credit appraisal published by Dun and Bradstreet; or

(2) "high risk" in a Paydex score as published by Dun and Bradstreet.

32.1.6 Mergers and Acquisitions

All provisions of this Contract Offer shall continue in full force and effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all of its stock or assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company (the foregoing generally referred to herein as a merger or acquisition). (H) Breach and Cure

If either party breaches any material term of this Contract Offer, and the breach continues unremedied for sixty (60) days after written notice of default, or in case of the Customer’s breach of the provisions of Section 32.2.4(G) (Access Service Ratio) one hundred twenty (120) days after written notice of default, the other party may terminate this Contract Offer for cause. If the Customer is in breach of its payment obligations, and fails to make payment in full within thirty (30) days after receipt of written notice of default, the Telephone Company may, at its option, terminate this Contract Offer, terminate any Subject Services, suspend the Customer’s ordering capability, and/or require a deposit, advanced payment, or other satisfactory assurances as a condition of the continued effectiveness of this Contract Offer and/or the continued provision of Subject Services, except that the Telephone Company will not take any such action as a result of the Customer's non-payment of a charge subject to a timely billing dispute, unless the Telephone Company has reviewed the dispute and determined that the charge is correct. The foregoing sentence does not limit the Telephone Company’s right to withhold credits, as provided in Section 32.2.4(E). This Contract Offer may be terminated by either party immediately upon written notice if the other party has become insolvent or involved in a liquidation or termination of its business, or adjudicated bankruptcy, or been involved in an assignment for the benefit of its creditors. The Customer shall be liable to the Telephone Company for termination liability charges, as provided in Section 32.2.13. This Section 32.2.4 shall not alter the rights of the Telephone Company in case of interference with, impairment of or unlawful use of service.

32.2.5 Minimum Annual Revenue Commitment (MARC)

(A) MARC Establishment

The Customer must satisfy a Minimum Annual Revenue Commitment (MARC) for each Term Year. Calculations related to the MARC (including satisfaction of the MARC) shall be determined according to gross billed recurring charges under Eligible ACNAs, after application of any discounts or credits applicable to those recurring revenues (except Area Commitment Plan credits under the BellSouth Tariff F.C.C. No. 1, any credits issued under the Concurrently Subscribed Contract Offers and any circuit-specific monthly recurring charge credits for any broadband services provided under a broadband services agreement with the Qualified Companies, as well as adjustments for overbilling, under billing and billing dispute settlements addressed during the Annual True-up Process only, for MARC-Eligible Services, as defined in the Concurrently Subscribed Contract Offers and purchased under the Eligible ACNAs (collectively, “MARC-Eligible Charges”). MARC-eligible services, as described in the Concurrently Subscribed Contract Offers, are collectively referred as “MARC-Eligible Services.” The Customer’s MARC-Eligible Charges shall specifically exclude MARC Attainment Credits, non-recurring charges, usage-based charges. The Customer’s MARC obligation shall be a continuing obligation during the entire Term Period.

(B) MARC Calculations

The Customer’s MARC for the first year of the Term Period shall be the greater of: (i) ninety five million dollars ($95,000,000), or (ii) Customer’s MARC-Eligible Charges during the three (3) months immediately prior to the Subscription Date, multiplied by four (4), rounded up to the nearest thousand dollars. The MARC for each subsequent Term Year shall be the greater of the MARC-Eligible charges for the last three (3) full calendar months of the previous Term Year multiplied by four (4), rounded up to the nearest thousand dollars or the MARC from the previous Term Year.

32.2.6 MARC Attainment Credit  

(A) The Customer will qualify for MARC Attainment Credits ("MAC") as provided in this Section 32.2.6 if it meets the requirements specified in this Section 32.2.6. The amount of the MAC for which the Customer qualifies will be determined according to the amount of the Customer’s MARC-Eligible Charges, as provided in Table F, below, subject to the provisions of this Section 32.2.6.  

Each Term Year will be divided into three (3) periods of four (4) consecutive months, for purposes of applying MAC (each such period to be referred to as an “Attainment Credit Period”). During the first two (2) Attainment Credit Periods of each Term Year, the Customer will qualify for a MAC for any Attainment Credit Period during which the Customer’s MARC-Eligible Charges are equal to or greater than one-third (1/3) of the MARC that applies during that Term Year. The MAC for the first two (2) Attainment Credit Periods of each Term Year will be calculated by multiplying the Applicable Credit Percentage (as shown in Table F) associated with the “Initial Credit Tier” for that Term Year by the amount of the Customer’s MARC-Eligible Charges attributable to Subject Services during that Attainment Credit Period. For the avoidance of doubt, the Applicable Credit Percentage (as shown in Table F) is based on the Term Year 1 MARC for all Term Years, and shall not be adjusted for any increases in the MARC after Term Year 1. The “Initial Credit Tier” for each Term Year will be the Credit Tier for which the MARC for that Term Year falls within the range from the Minimum MARC-Eligible Charges through the Maximum MARC-Eligible Charges associated with that Credit Tier. The MAC for the third (3rd) Credit Attainment Period of each Term Year shall be determined according to the “Annual True-Up of MARC Attainment Credits,” as described in Section 32.2.6(B), below. If the Customer does not qualify for a MAC for any Attainment Credit Period, no MAC will be issued at the end of that Credit Attainment Period; however, the Customer may be eligible to receive the MAC subsequently, as provided in the “Annual True-Up of MARC Attainment Credits,” as described in Section 32.2.6(B), below.

32.2.6 MARC Attainment Credit (Cont’d)

(A) (Cont’d)

Any MAC shall be allocated among the Concurrently Subscribed Contract Offers in proportion to the MARC-Eligible Charges attributable to Subject Services, and billed under each of the Concurrently Subscribed Contract Offers during the relevant Attainment Credit Period. Any MAC will be issued in arrears, within ninety (90) days after the end of the Attainment Credit Period during which the Customer qualified for the MAC.

Example 1:
Assume that the Customer’s MARC for Term Year 1 is $100 million. The Initial Credit Tier for Term Year 1 will be Tier 1 (which includes the range from $100 million to $109,999,999.99), and the “Applicable Credit Percentage” for the first two Credit Attainment Periods of Term Year 1 will be five percent (5%). During the first Credit Attainment Period of Term Year 1, the Customer’s total MARC-Eligible Charges are $34 million, and the MARC-Eligible Charges attributable to Subject Services are $20 million. Because the Customer’s MARC-Eligible Charges are greater than one-third of the MARC, a MAC will be issued for five percent (5%) of $20 million, or $1 million, for the first Credit Attainment Period of Term Year 1.

Example 2:
Assume that the Customer’s MARC for Term Year 2 is $110 million. The Initial Credit Tier for Term Year 2 will be Tier 2 (which includes the range from $110 million through $120,999,999.99), and the “Applicable Credit Percentage” for the first two Credit Attainment Periods of Term Year 2 will be six percent (6%). During the first Credit Attainment Period of Term Year 2, the Customer’s total MARC-Eligible Charges are $38 million, and the MARC-Eligible Charges attributable to Subject Services are $25 million. Because the Customer’s MARC-Eligible Charges are greater than one-third of the MARC, a MAC will be issued for six percent (6%) of $25 million, or $1.5 million, for the first Credit Attainment Period of Term Year 2.

32.2.6 MARC Attainment Credit (Cont’d)

(B) Annual True-up Process

(1) Annual Shortfall. If, at the end of any Term Year, the amount of the Customer’s MARC-Eligible Charges is less than the MARC for that Term Year, the Qualified Companies shall bill, and the Customer shall pay, an amount equal to the difference between the MARC and the Customer’s MARC-Eligible Charges for that Term Year ("Annual Shortfall"). Any Annual Shortfall will be allocated among the Qualified Companies according to the amounts of MARC-Eligible Charges attributable to Subject Services and billed by the Qualified Companies during the relevant Term Year. Upon payment of the Annual Shortfall, the Qualified Companies shall issue to the Customer a credit in the amount, if any, by which the "Minimum Annual MAC" exceeds the MAC previously issued to the Customer during that Term Year. The "Minimum Annual MAC" is the product of (a) the Applicable Credit Percentage associated with the Initial Credit Tier for that Term Year times (b) the MARC-Eligible Charges attributable to Subject Services during the relevant Term Year. Notwithstanding the foregoing, the Qualified Companies may, with the agreement of the Customer, offset all or part of the credit amount against all or part of the Annual Shortfall, in lieu of payment of the full amount of the Annual Shortfall. In either case, the credit issued to the Customer may be referred to as a "Shortfall True-Up Credit." Any Shortfall True-Up Credit will be allocated among the Qualified Companies according to the amounts of MARC-Eligible Charges attributable to Subject Services and billed by the Qualified Companies during the relevant Term Year.

32.2.6 MARC Attainment Credit (Cont’d)

(B) Annual True-up Process (Cont’d)

(1) Annual Shortfall. (Cont’d)

Example:
Assume that, the Customer’s Term Year 1 MARC was $100 million, and its Term Year 2 MARC is $110 million, so the Initial Credit Tier is Tier 2, and the Applicable Credit Percentage is six percent (6%). Also assume that, during Term Year 2, the Customer receives $2 million in MAC during the first two Credit Attainment Periods of Term Year 2 and that, as of the end of Term Year 2, the Customer’s MARC-Eligible Charges are $109 million, of which the amount attributable to Subject Services is $80 million. The Customer must pay an Annual Shortfall of $1 million. Upon payment of that amount, the Qualified Companies will issue a Shortfall True-Up Credit to the Customer in the amount of $2.8 million (6% x $80 million = $4.8 million, minus $2 million in MAC previously issued during Term Year 2). In the alternative, with the Customer’s agreement, the Qualified Companies could instead offset the $1 million Annual Shortfall against the $2.8 million credit amount, and issue to the Customer a Shortfall True-Up Credit of $1.8 million.

(1) Annual True-Up of Attainment Credits. If, at the end of a Term Year, the amount of the Customer’s MARC-Eligible Charges is equal to, or greater than, the MARC for that Term Year, the Telephone Company will issue a credit (a “MAC Achievement Credit”) in the amount by which the “Achieved Annual MAC” exceeds the MAC previously issued to the Customer during that Term Year. The “Achieved Annual MAC” is equal to the product of (a) the Applicable Credit Percentage for the Credit Tier associated with the amount of the Customer’s MARC-Eligible Charges for that Term Year times (b) the MARC-Eligible Charges attributable to Subject Services and billed by the Qualified Companies during the relevant Term Year. Any MAC Achievement Credit will be allocated among the Qualified Companies according to the amounts of MARC-Eligible Charges attributable to Subject Services during the relevant Term Year.

(B) Annual True-up Process (Cont’d) (M)

(1) Annual Shortfall. (Cont’d)

Example:
Assume that the Customer’s Term Year 1 MARC was $100 million, and its Term Year 2 MARC is $110 million. Also assume that the Customer’s MARC-Eligible Charges for Term Year 2 are $123 million, of which the amount attributable to Subject Services is $80 million, and that the Customer has received $2 million in MAC during the first two Credit Attainment Periods of Term Year 2. The Credit Tier applicable in Term Year 2 will be Tier 3 (which applies if the Customer’s MARC-Eligible Charges fall in the range from $121,000,000 through $133,099,999.99), and the Applicable Credit Percentage is seven percent (7%). The Qualified Companies will issue a MAC Achievement Credit in the amount of $3.6 million (7% x $80 million = $5.6 million, minus $2 million in MAC previously issued in Term Year 2).

32.2.7 Rate Stability Credit (T)

If the Telephone Company increases the Monthly Recurring Charges (MRCs) applicable to Subject Services in Phase II pricing flexibility MSAs, as listed in PBTC Tariff F.C.C. No. 1, Section 31, the Telephone Company will issue credits to the Customer to offset the increase in MRCs. The amount of such credits, if applicable, will be equal to the difference between the increased MRCs and the MRCs in effect as of the Subscription Date, during the period to be covered by the credits. Any such credits will be issued concurrently with MAC, as provided in Section 32.2.6, provided, however, that the following shall not be considered such a rate increase: (i) any rate change resulting from a grant of Phase II pricing flexibility for any MSA subject to this Contract Offer, or (ii) any change in applicable charges due to the expiration of a term commitment or payment plan. 32.2.8 Service Level Assurance

(A) Service Level Assurance (SLA). The Customer will be eligible for additional credits if certain Service Level Assurance (SLA) benchmarks are not achieved by the Qualified Companies, as provided below. SLA Benchmark measurements will be calculated in the aggregate, for all DS1 and DS3 Subject Services provided to the Customer by the Qualified Companies, for each Term Year. SLA benchmark measurements will be calculated according to the Qualified Companies’ generally applicable business rules and criteria associated with each of the SLA benchmark measurements. The SLA benchmarks will apply to both DS1 and DS3 services on a combined basis. SLA will apply to the following service performance measurements.

(1) Mean Time to Repair (MTTR). “Mean Time to Repair” means the sum of the “Receipt to Restore Durations” of “Total Trouble Reports” divided by the number of Total Trouble Reports. “Total Trouble Reports” means all closed Customer trouble reports. “Receipt to Restore Duration” means the number of minutes (converted to hours) from the date and time each such trouble report is received by the Telephone Company to the date and time each such trouble report is closed.

(2) On Time Delivery. “On Time Delivery” means the percentage of total Customer orders that are completed on or before their due dates.

(3) New Circuit Failure Rate. “New Circuit Failure Rate” means the percentage of total for new circuits that are subject to trouble reports within thirty (30) calendar days after the date of installation.

(4) Repeat Reports within 30 Days. “Repeat Reports within 30 Days” means the percentage of closed trouble reports for any circuit that are received within thirty (30) calendar days after the restoral date of a prior closed trouble report for the same circuit.

If the Qualified Companies fail to achieve the benchmarks in this Contract Offer, the Qualified Companies will issue SLA Credits to the Customer, as set forth in Table H, below (SLA Credits). A single SLA Credit will apply per SLA benchmark, per Term Year, for the Qualified Companies in the aggregate. 32.2.9 Termination Liability Credit (M)

The Qualified Companies will bill, and the Customer shall pay termination liability charges as they come due in accordance with applicable tariffs. The Qualified Companies will issue credits for otherwise applicable termination liability charges for moves and/or disconnections of non-channelized DS1 and/or non-channelized DS3 Subject Services located in pricing flexibility MSAs, which circuits connect to end user locations, up to the maximum credit amounts set forth in Table I, below. A single maximum Termination Liability Credit will apply per Term Year for the Qualified Companies in the aggregate. Termination Liability Credits will be allocated among the Qualified Companies according to the amounts of MARC-Eligible Charges attributable to Subject Services and billed by the Qualified Companies during the relevant Term Year.

Subject Services eligible for termination liability waivers under the Concurrently Subscribed Contract Offers shall not be eligible for similar termination liability waivers under any other pricing flexibility contract offer, promotional offering, discount plan or other arrangement.

The non-recurring charges (NRCs) set forth in PBTC FCC Tariff Section 1, Parts 5, 7, 13 and 31, shall apply to Subject Services provided under this Contract Offer, subject to this Section 32.2.10.

(A) The Qualified Companies shall establish on behalf of the Customer a credit pool in the amount of two million seven hundred fifty thousand dollars ($2,750,000) for each Term Year to be applied against NRCs otherwise applicable to certain Subject Services during the Term Period (NRC Credit Pool). The credit pool will be available only for the reimbursement of NRCs associated with the following USOCs: (i) TMECS (for DS1 Subject Services); and (ii) ZOMAC, ZOMAP, Z3MAC and Z3MAP (for DS3 Subject Services). NRC Credits shall be applied against NRCs associated with installations or moves of Subject Services. Notwithstanding anything to the contrary in the foregoing sentence, NRC Credits shall not be applied against: (i) NRCs subject to waivers or credits other than those provided under this Section 32.2.10; (ii) Special Construction Charges; or (iii) termination liability, shortfall, true-up or other charges resulting from customer’s failure to satisfy a term, revenue or volume commitment.

Non-Recurring Charge Credits, if any, will be issued no later than ninety (90) days after the end of each four (4) month period.

(C) Non-Recurring Charge Credits shall apply only to the installation of new DS1 and DS3 Subject Services in MSAs eligible for pricing flexibility. All provisions of this Contract Offer shall continue in full force and effect if the Customer, in whole or in part, merges with, acquires, is acquired by, sells all or substantially all of its stock or assets to any other entity, or purchases all stock or substantially all stock or certain assets of another company (the foregoing generally referred to herein as a merger or acquisition). Upon the Transaction Close Date of the merger or acquisition, if the other company involved in the merger or acquisition also purchases Subject Services from the Telephone Company, the Subject Services, as provided for in this Contract Offer, will continue to be maintained at the same volume, rates, and Terms and Conditions, as outlined herein, and existing or new services purchased by such other company may not be included in, or purchased under, this Contract Offer. The Transaction Close Date shall be defined as the date that the stock purchase is complete and/or the final date on which the assets of the acquired/merged company have been purchased.

2. If this Contract Offer is terminated in Term Year 2, 12.5 percent of the Term Year 2 MARC for the remaining portion of Term Year 2, plus 12.5 percent of the MARCs for the remaining years of the Term Period (determined using the MARC for Term Year 2 as the MARC for each of Term Years 3-5);

32.2 Contract Offer No. 164 - Access Service (Cont’d)

32.2.13 Termination Liability Charges (Cont’d)

(C) The “Pro-rated True-Up Amount” will be equal to the difference, if any, between the pro-rated MARC for that Term Year under this Contract Offer, as of the termination effective date, minus the aggregate of (a) the MARC-Eligible Charges, and (b) any Shortfall charges paid for the Term Year in which the termination occurs.

For avoidance of doubt, if the Pro-rated True-Up Amount is a negative number (i.e., Customer has, on a year-to-date basis, paid MARC-Eligible Charges and Annual Shortfall charges in excess of the pro-rated MARC for that Term Year as of the termination effective date), the Pro-rated True-Up Amount shall be zero, and the amount of termination liability owed by Customer under this section shall be reduced as follows:

(1) by either ten percent (10%) if termination occurs during Term Year 1, or twelve and one half percent (12.5%) if termination occurs during any other Term Year, of the excess, if any, of

(a) the MARC-Eligible Charges for that Term Year, over
(b) the pro-rated MARC for the period covered by the Pro-rated True-Up Amount; and

(2) if there is a reduction under Section 32.2.13(C)(1), by the amount of any Annual Shortfall charges paid for that Term Year, not to exceed the excess amount determined under Section 32.2.13(C)(1), above; or

(3) if there is no reduction under Section 32.2.13(C)(1), then by the excess of

(a) the MARC-Eligible Charges and Annual Shortfall charges paid for that Term Year, over
(b) the pro-rated MARC for the period covered by the Pro-rated True-Up Amount.

If the aggregate reduction under Section 32.2.13(C)(1) and (2), or the reduction under Section 32.2.13(C)(3), exceeds the amount of the termination liability owed by Customer under this Section, then the Telephone Company shall issue a credit in the amount of such excess.

The Customer will pay in full any termination liability charge within thirty (30) days after notice by the Telephone Company.
