

2.11 Types of Rates and Charges

This section contains information pertaining to the different types of rates and charges in this tariff.

2.11.1 Monthly Rates (MR)

Flat recurring rates that apply each month, or fraction thereof, that a service or specific rate element is provided. For billing purposes, each month is considered to have 30 days.

2.11.1.1 Optional Payment Plans (OPPs)

A. Description

An Optional Payment Plan (OPP) is a provision that allows a customer to select specific Special and Switched Access Services over a selected commitment period or term. Special Access DS3 (High Capacity 44.736 Mbps) Service is available with OPPs of 1, 3 and 5 year terms. Switched Access DS3 (High Capacity 44.736 Mbps) Service is available with OPPs of 3 and 5 year terms. Multichannel Video Service<sup>(1)</sup> is available with an OPP of a 3 year term. All other services are available with OPPs of 1, 3 and 5 year terms. During the effective term, rate decreases will automatically be applied to the monthly payments for the remaining months of the OPP. Monthly rates for services installed under this arrangement will not be subject to Telephone Company-initiated rate increases. Rate changes due to zone restructures will flow through to the affected rate elements.

The following services are offered under an OPP:

- (1) DS3 (High Capacity 44.736 Mbps) Service rates and charges which apply to services billed under an OPP are set forth in 6.3.1 and 7.16.4, following.
- (2) DS1 (High Capacity 1.544 Mbps) Services offered under an OPP will have monthly rates reduced by a fixed percentage for the Entrance Facility, Channel Termination, Direct Trunked Transport, Mileage and DS1-VG Multiplexer rate elements as set forth in 6.3.1 and 7.16.4 following. The amount of the discount percentage differs based on the length of the commitment period selected by the customer, as follows:

1 Year	5%
3 Year	15%
5 Year	25%

- (3) Fractional DS1 service rates and charges which apply to services billed under an OPP are set forth in 7.16.4 following.
- (4) Digital Data Service (DDS) 56 Kbps and 64 Kbps rates and charges which apply to a service billed under an OPP are set forth in 7.15.4.

<sup>(1)</sup> Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers.

(x) Issued under authority of Special Permission No. 14-001 of the FCC in order to withdraw material filed under Transmittal No. 1061 and suspended under Order DA-13-2349, released December 9, 2013, without its becoming effective and to restore currently effective material.

ACCESS SERVICE

2.11 Types of Rates and Charges (Cont'd)

2.11.1.1 Optional Payment Plans (OPPs) (Cont'd)

- (3) Fractional DS1 service rates and charges which apply to services billed under an OPP are set forth in 7.16.4 following.
- (4) Digital Data Service (DDS) 56 Kbps and 64 Kbps rates and charges which apply to a service billed under an OPP are set forth in 7.15.4.
- (5) Multichannel Video Service <sup>(1)</sup> rates and charges which apply to a service billed under an OPP are set forth in 2.12.4.
- (6) Internet Network Access Service (INAS) rates and charges which apply to service billed under an OPP are set forth in 22.6.
- (7) DS1 (High Capacity 1.544 Mbps) Collocation Transport Services offered under an OPP will have monthly rates reduced by a fixed percentage for the Inter/Intra Office (Fixed and Per Mile) as set forth in 7.16.4. The amount of the discount percentage differs based on the length of the commitment period selected by the customer, as follows:

1 Year	5%
3 Year	15%
5 Year	25%

(Tx)

Customers subscribing to an OPP will be subject to nonrecurring charges as set forth in 6.3.1, 7.15.4, 7.16.4, and 22.6 for installation and in 2.11.5 C & D for rearrangements of services covered by the plan. Nonrecurring charges will not be spread over an OPP term. If the customer subscribes to an OPP on an existing service and requests no other changes to the service, no nonrecurring charge will apply.

<sup>(1)</sup> Effective August 25, 2011, MVS is no longer available to new customers. There is no change for existing customers.

2.11 Types of Rates and Charges (Cont'd)

2.11.1.1 Optional Payment Plans (OPPs) (Cont'd)

D. DS1 OPP Portability Commitment

DS1 OPP Portability Commitment provides a customer the ability to establish a regional volume commitment in the form of DS1 Channel Terminations and receive a waiver on DS1 OPP Termination Liability, as described in 2.11.1.1 (B), during the life of the Portability Commitment. The Portability Commitment will consist of a Commitment Level (CL), as described below, and has terms of 3-years or 5-years. The Portability Commitment cannot be renewed. (Tx)  
Customers may purchase Special Access DS1 service under DS1 OPP terms of 3 or 5 years and have the associated Channel Terminations count towards the CL. All installation nonrecurring charges will be billed as applicable as described in Section 2.11.1.1(A). (Tx)

Following are the terms and conditions associated with the DS1 OPP Portability Commitment:

- (1) Customer commits to a 3-year or 5-year Commitment Level (CL) that is reviewed by the Telephone Company on a monthly basis. The initial monthly CL is calculated by the Telephone Company and is the total of all Special Access DS1 Channel Terminations in-service for the most current month in which Telephone Company billing data is available. The initial monthly CL will consist of all Special Access DS1 Channel Terminations, including those on Month-to-Month terms and other term pricing plans. The effective date of the Portability Commitment will be the first day of the month immediately following the month in which the customer provides written notification of their participation into the program; and (Tx)
- (2) Customer must have a minimum of 40 DS1 Channel Terminations in-service each month and at least 80% of the CL under a 3 or 5 year DS1 OPP each month; and (Tx)
- (3) Each month, the total number of 3 and 5 Year DS1 OPP Channel Terminations for the previous month will be calculated and measured against the corresponding monthly CL; (Tx)
  - (a) If the total number of Channel Terminations, as calculated above, is between 80% and 124% of the CL, no other charges will apply for the previous month. (Tx)

(x) Issued under authority of Special Permission No. 14-001 of the FCC in order to withdraw material filed under Transmittal No. 1061 and suspended under Order DA-13-2349, released December 9, 2013, without its becoming effective and to restore currently effective material.

(This page filed under Transmittal No. 1065 )

2.11 Types of Rates and Charges (Cont'd)

2.11.1.1 Optional Payment Plans (OPPs) (Cont'd)

D. DS1 OPP Portability Commitment (Cont'd)

- (5) If the customer elects to terminate the DS1 OPP Portability Commitment or elects to decrease the CL prior to the 3-year or 5-year commitment, Termination Liabilities will apply. Termination Liability is calculated as the decreased number of Channel Terminations multiplied by the lowest prevailing Zone 1 Month-to-Month DS1 recurring Channel Termination rate multiplied by the number of months remaining in the term of the Portability Commitment. (Tx)

EXAMPLE #3: Customer C has a CL equal to 1,000 Channel Terminations. In Month 10 of the 36-month Portability Commitment, Customer C elects to Decrease the CL by 50 Channel Terminations. The Terminations Liability Associated with the decrease is equal to:

(50 Channel Terminations) X (26 months remaining) X  
(lowest prevailing Zone 1 Month-to-Month recurring Rate)

E. Additions of Service

When a customer with an existing OPP wishes to increase the number of services of the same type between the same two locations, it has the following options:

- (1) Subscribe to the additional services under standard rates.

(Tx)  
(Tx)  
(Tx)

(x) Issued under authority of Special Permission No. 14-001 of the FCC in order to withdraw material filed under Transmittal No. 1061 and suspended under Order DA-13-2349, released December 9, 2013, without its becoming effective and to restore currently effective material.

(This page filed under Transmittal No. 1065 )

2.11 Types of Rates and Charges (Cont'd)

2.11.1.1 Optional Payment Plans (OPPs) (Cont'd)

E. Additions of Service (Cont'd)

(2) Subscribe to the additional services under a separate OPP at the then effective OPP rate.

(3) Cancel the existing OPP and include both the existing and the additional services under a new OPP for a commitment period equal to or longer than the original period. No termination charges apply to such cancellation. (Tx)

F. Extension of Commitment Period

A customer may, at any time prior to the expiration of the selected commitment period for an existing OPP or month to month plan, change to an OPP with a longer commitment period at the then effective OPP rates. No termination liability charges will apply for any services extended under the longer commitment period. The monthly rates applicable for the longer commitment period will apply effective with the customer's next bill day following the request for the change. (Tx)

G. Rate Regulations

Where an OPP is requested coincident with the connection of new service, it will be effective with the establishment of service.

Where an OPP is requested on existing service, the effective date will be the date negotiated with the customer.

At the end of its selected commitment period, the customer will have the option of subscribing to any then effective OPP or of retaining the service under the standard rates in effect at that time.

If the customer does not notify the Telephone Company of its choice prior to the expiration of the commitment period, standard monthly rates will be applied upon expiration of the commitment period.\*

If the customer does not choose one of the preceding options prior to the expiration date of the commitment period, monthly extension rates will be applied upon expiration of the commitment period.

\* This option will no longer be available for new circuits provisioned on or after, December 19, 2003. There will be no change to existing circuits.

(Tx)  
(Tx)  
(Tx)

(x) Issued under authority of Special Permission No. 14-001 of the FCC in order to withdraw material filed under Transmittal No. 1061 and suspended under Order DA-13-2349, released December 9, 2013, without its becoming effective and to restore currently effective material.

7.16 High Capacity Special Access Service (Cont'd)

7.16.4 Rates and Charges General Description

This section contains the specific regulations governing the rates and charges, which apply to High Capacity Services.

DS3 High Capacity Service is available under a month-to-month\*, one, three or five-year billing period as described in 7.16.4(A), following. (Tx)

DS1 and DS3 Services are subject to zone pricing. Rates for three rate zones have been established pursuant to the Federal Communications Commissions Report and Order in the Matter of Expanded Interconnection with Local Telephone Company Facilities, CC Docket No. 91-141, adopted September 17, 1992 and released October 17, 1992.

Each Central Office has been assigned to one of three pricing zones. The pricing zone for each central office is identified in NECA FCC Tariff No. 4.

(A) DS3 High Capacity Service Rate Description

Monthly Extension Rates

Monthly extension rates are charges that the customer may elect to be converted to at the end of their 1, 3 or 5-year billing period, until a new billing period is selected or service is disconnected. Monthly extension rates are only available once the term plan has expired. (Tx)

(1) DS3 High Capacity Service Billing Period

The billing period establishes the amount of time that rates for a service are stabilized by the Telephone Company.

The following billing periods are available for DS3 High Capacity Services and associated optional features and functions:

- Month-to-Month\*
  - Monthly Extension Rate
  - 1 Year
  - 3 Year
  - 5 Year
- (Tx)

At the expiration of the billing period, the customer will have the option of subscribing to one of the following options:

- (a) Elect to renew the service for a new 1, 3 or 5 year billing period, at rates and charges currently in effect. (Tx)
- (b) Elect to be converted to monthly extension rates.
- (c) Elect to disconnect the service upon expiration of the billing period.

\* This option will no longer be available for new circuits provisioned on or after, December 19, 2003. There will be no change to existing circuits.

(Tx)  
(Tx)

(x) Issued under authority of Special Permission No. 14-001 of the FCC in order to withdraw material filed under Transmittal No. 1061 and suspended under Order DA-13-2349, released December 9, 2013, without its becoming effective and to restore currently effective material.

(This page filed under Transmittal No. 1065 )

7.16 High Capacity Special Access Service (Cont'd)

7.16.4 Rates and Charges General Description (Cont'd)

(A) DS3 High Capacity Service Rate Description (Cont'd)

(1) DS3 High Capacity Service Billing Period (Cont'd)

If the customer does not choose one of the preceding options prior to the expiration date of the commitment period, monthly extension rates will be applied upon expiration of the commitment period.

Option (a) as described preceding is available to customers if the term plans remain in effect and are not grandfathered. If the term plans are grandfathered and the service expires, absent customer notification, the customers expired service will be converted to monthly extension rates upon expiration.

Nonrecurring charges are not applicable for services renewed, as long as the same number of DS3s are renewed. Any change in the number of DS3s will incur the appropriate nonrecurring charges.

The customer must provide the Telephone Company with a written notice of intent to extend the DS3 billing period no later than one month prior to the expiration of the service period.

An existing DS3 under a 1 or 3 year billing period may be converted to a DS3 under a longer term 3 or 5 year billing period without termination liabilities, provided that: (Tx)

- (a) the expiration date for the new term agreement is beyond the end of the original term agreement,
- (b) the converted DS3 must be based upon the prevailing rates,
- (c) the customer maintains the same or greater number of DS3 circuits under the new billing period, and
- (d) No lapse in service occurs.

(Tx)  
(Tx)

(x) Issued under authority of Special Permission No. 14-001 of the FCC in order to withdraw material filed under Transmittal No. 1061 and suspended under Order DA-13-2349, released December 9, 2013, without its becoming effective and to restore currently effective material.
