ACCESS SERVICE

3.2 Limitations (Cont'd)

3.2.3 WATS Access Lines (Cont'd)

WATS-type Services, Switched Access Service minutes which are carried on that end of the service (i.e., originating minutes for outward WATS and WATS-type services and terminating minutes for inward WATS and WATS-type services) shall not be assessed Carrier Common Line Access per minute charges. An End Office Line Port will be charged for each WATS Access Line that terminates in a WATS Serving Office.

3.3 Undertaking of the Telephone Company

3.3.1 Provision of Service

Where the customer is provided Switched Access Service under other sections of this tariff, the Telephone Company will provide the use of Telephone Company common lines by a customer for access to end users at rates and charges as set forth in Section 3.8, following. (T)

3.3.2 Interstate and Intrastate Use

The Switched Access Service provided by the Telephone Company includes the Switched Access Service provided for both interstate and intrastate communications. The Carrier Common Line Access rates and charges as set forth in Section 3.8, following, apply to interstate Switched Access Service access minutes in accordance with the rate regulations as set forth in Section 3.7.3, following. (D)

3.4 Obligations of the Customer

3.4.1 Switched Access Service Requirements

The Switched Access Service associated with Carrier Common Line Access shall be ordered by the customer under other sections of this tariff.

3.4.2 Supervision

The customer facilities at the premises of the ordering customer shall provide the necessary on-hook and off-hook supervision.

(This page filed under Transmittal No. 1067)

3.6 Resold Services

3.6.1 Scope

Where the customer is reselling MTS and/or MTS-type service(s) on which the Carrier Common Line and Switched Access charges have been assessed, the customer may, at the option of the customer, obtain Feature Group A, Feature Group B or Feature Group D Switched Access Service under this tariff as set forth in Section 6 following for originating and/or terminating access in the local exchange. Such access group arrangements whether single lines or trunks or multiline hunt groups or trunk groups will have Carrier Common Line Access charges applied as set forth in Section 3.8, following, in accordance with the resale rate regulations set forth in Section 3.6.4, following. For purposes of administering this provision: (T)

Resold interstate terminating MTS and MTS-type service(s) shall include collect calls, third number calls and credit card calls where the reseller pays the underlying carrier's service charges; and shall not include intrastate minutes of use. (T)

Resold interstate originating MTS and MTS-type service(s) shall not include collect, third number, credit card or intrastate minutes of use.

(This page filed under Transmittal No. 1067)

ACCESS SERVICE

3.6 Resold Services (Cont'd)

3.6.2 Customer Obligations Concerning the Resale of MTS and MTS-type Services

When the customer is reselling MTS and/or MTS-type service as set forth in Section 3.6.1, preceding, the customer will be charged Carrier Common Line Access charges in accordance with the resale rate regulations as set forth in Section 3.6.4, following, if the customer or the provider of the MTS service furnishes documentation of the MTS usage and/or the customer furnishes documentation of the MTS-type usage. Such documentation supplied by the customer shall be supplied each month and shall identify the involved resold MTS and/or MTS-type services. (T)

The monthly period used to determine the minutes of use for resold MTS and/or MTS-type service(s) shall be the most recent monthly period for which the customer has received a bill for such resold service(s). This information shall be delivered to the Telephone Company, at a location specified by the Telephone Company, no later than 15 days after the bill date shown on the resold MTS and/or MTS-type service bill. If the required information is not received by the Telephone Company, the previously reported information, as described, preceding, will be used for the next two months. For any subsequent month, no allocation or credit will be made until the required documentation is delivered to the Telephone Company by the customer. (T)

(This page filed under Transmittal No. 1067)

Issued: May 23, 2014

Effective: June 7, 2014

Four AT&T Plaza, Dallas, Texas 75202

ACCESS SERVICE

3.6 Resold Services (Cont'd)

3.6.3 Resale Documentation Provided By the Customer

When the customer utilizes Switched Access Service as set forth in Section 3.6.2, preceding, the Telephone Company may request a certified copy of the customer's resold MTS or MTS-type usage billing from either the customer or the provider of the MTS or MTS-type Service. Requests for billing will relate back no more than 12 months prior to the current billing period. (T)
(T)

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services

When the customer is provided an access group to be used in conjunction with the resale of MTS and/or MTS-type services as set forth in Section 3.6.1, preceding, subject to the limitations as set forth in Section 3.2, preceding and the Telephone Company receives the usage information required as set forth in Section 3.6.2, preceding, to calculate the adjustment of Carrier Common Line Access charges, the customer will be billed as set forth in Section D, following. (T)
(T)
(T)
(T)

A. Apportionment and Adjustment of Resold Minutes of Use

When the customer is provided with more than one access group in a LATA in association with the resale of MTS and/or MTS-type services, the resold minutes of use will be apportioned as follows:

(1) Originating Services

The Telephone Company will apportion the resold originating MTS and/or MTS-type services and originating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the originating usage for each access group to the total originating usage for all access groups in the LATA. For purposes of administering this provision:

Resold originating MTS and/or MTS-type services minutes shall be only those attributable to interstate originating MTS and/or MTS-type minutes and shall not include collect, third number, credit card or intrastate minutes of use.

(This page filed under Transmittal No. 1067)

ACCESS SERVICE

3.6 Resold Services (Cont'd)

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services
(Cont'd)

A. Apportionment and Adjustment of Resold Minutes of Use (Cont'd)

(1) Originating Services (Cont'd)

The resale credit adjustment shall apply for resold originating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

(2) Terminating Services

The Telephone Company will apportion the resold terminating MTS and/or MTS-type services and terminating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the terminating usage for each access group to the total terminating usage for all access groups in the LATA. For purposes of administering this provision:

Resold terminating MTS and MTS-type services minutes shall be only those attributable to interstate terminating MTS/MTS-type (i.e., collect calls, third number calls, and credit card calls) and shall not include intrastate minutes of use or MTS/MTS-type minutes of use paid for by another party.

The resale credit adjustment shall apply for resold terminating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

B. Same State/Telephone Company/Exchange Limitation

In order for the rate regulations to apply as set forth in Section D, (T)
following, the access groups and the resold MTS and/or MTS-type services (T)
must be provided in the same state in the same exchange, provided by the
same Telephone Company and connected directly or indirectly. For those
exchanges that encompass more than one state, the customer shall report
the information by state within the exchange.

(This page filed under Transmittal No. 1067)

ACCESS SERVICE

3.6 Resold Services (Cont'd)

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services
(Cont'd)

D. Access Groups

The Carrier Common Line Access Charge per minute as set forth in Section 3.8, following, will apply to all usage on an access group. The minutes billed Carrier Common Line Access Service charges will be the adjusted originating interstate access minutes and the adjusted terminating interstate access minutes for such access groups. (T)

The adjusted originating access minutes will be the originating interstate access minutes less the reported resold originating MTS and/or MTS-type service minutes of use as set forth in Section (A)(1), preceding; but not less than zero. The adjusted terminating access minutes will be the terminating interstate access minutes less the reported resold terminating MTS and/or MTS-type service minutes of use as set forth in Section (A)(2), preceding; but not less than zero. (T)

(This page filed under Transmittal No. 1067)

Issued: May 23, 2014

Effective: June 7, 2014

Four AT&T Plaza, Dallas, Texas 75202

ACCESS SERVICE

3.6 Resold Services (Cont'd)

3.6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services
(Cont'd)

E. When the Adjustment Will Be Applied to Customer Bills

The adjustment as set forth in Section (D), preceding, will be made to the involved customer account no later than either the next bill date, or the one subsequent to that, depending on when the usage report is obtained. (T)

F. Conversion of Billed Usage to Minutes

When the MTS and/or MTS-type usage is shown in hours, the number of hours shall be multiplied by 60 to develop the associated MTS and/or MTS-type minutes of use. If the MTS and/or MTS-type usage is shown in a unit that does not show hours or minutes, the customer shall provide a factor to convert the shown units to minutes.

G. Percent Interstate Use (PIU)

The adjustment as set forth in D. preceding will be made to the involved customer account after making the adjustments to the customer account as set forth in Section 3.7.3, following. (D)

(This page filed under Transmittal No. 1067)

ACCESS SERVICE

3.7 Rate Regulations

3.7.1 Billing of Charges

Carrier Common Line charges will be billed to each Switched Access Service provided under this tariff in accordance with the regulations as set forth in Section 3.7.4, following, except as set forth in Section 3.6.4, preceding, and Section 3.7.3, following.

(T)
(T)

3.7.2 Measuring and Recording of Call Detail

When access minutes are used to determine Carrier Common Line charges, they will be accumulated using call detail recorded by Telephone Company equipment.

The Telephone Company measuring and recording equipment will be associated with end office or local tandem switching equipment and will record each originating and terminating access minute where answer supervision is received. The accumulated access minutes will be summed on a line by line basis, by line group or by end office, whichever type of account is used by the Telephone Company, for each customer and then rounded to the nearest minute.

3.7.3 Percent Interstate Use (PIU)

When the customer reports interstate and intrastate use of in-service Switched Access Service, Carrier Common Line charges will be billed to interstate Switched Access Service access minutes based on the data reported by the customer as set forth in Section 2.7, preceding, except where the Telephone Company is billing according to actuals by jurisdiction. Interstate Switched Access Service access minutes will, after adjustment as set forth in Section 3.6.4, preceding, when necessary, be used to determine Carrier Common Line Charges as set forth in Section 3.7.4, following.

(T)
(T)
(T)

(This page filed under Transmittal No. 1067)

ACCESS SERVICE

3.7 Rate Regulations (Cont'd)

3.7.4 Determination of Common Line Charges

After the adjustments as set forth in Section 3.6.4 and Section 3.7.3, (T)
preceding, have been applied, when necessary, to Switched Access Service
access minutes, charges for the involved customer account will be determined
as follows:

- A. Access minutes for all rated Switched Access Service subject to Carrier
Common Line charges will be multiplied by the Common Line Access per
minute rates as set forth in Section 3.8, following. (T)
- B. Carrier Common Line charges shall not be reduced as set forth in Section (T)
3.6.1, preceding, unless Switched Access Charges, as set forth in Section (T)
6, following, are applied to the customer's Switched Access Services. (T)
- C. Terminating Common Line Access per minute charge(s) apply to:
 - all terminating access minutes of use;
 - all originating access minutes of use associated with FGA Access
Services where the off-hook supervisory signaling is forwarded by the
customer's equipment when the called party answers;
 - all originating access minutes of use associated with calls placed to
700, 800 series and 900 numbers, less those originating access minutes
of use associated with calls placed to 700, 800 series and 900 numbers
for which the customer furnishes for each month a report of either the
number of calls or minutes or a report of the percent of calls or
minutes that terminate in a Switched Access Service that is assessed
Carrier Common Line charges.

When the customer makes this report available to the Telephone Company
in advance of billing, these minutes of use will be charged on the
current bill as originating minutes of use as set forth in Section D, (T)
following.

If a billing dispute arises concerning the customer provided report,
the Telephone Company will request the customer to provide the data the
customer used to develop the report. The customer shall supply the
data within 30 days of the Telephone Company request. If the customer
fails to provide the requested data within 30 days, the Telephone
Company will apply originating access charges.

When this report is not available to the Telephone Company until after
billing, it shall be used by the Telephone Company to calculate and

(This page filed under Transmittal No. 1067)

ACCESS SERVICE

3.7 Rate Regulations (Cont'd)

3.7.4 Determination of Common Line Charges (Cont'd)

C. (Cont'd)

post a credit or debit to the customer's account. The credit or debit shall be posted to the customer's account within 30 days of the receipt of the report. The credit or debit shall be calculated by multiplying the number of access minutes of use, for which a credit or debit is determined to be applicable, times the difference between the terminating and originating Carrier Common Line charges in effect when the calls were completed.

If the customer does not supply the monthly reports, the Telephone Company will assume the common line percentages to be the same as those provided in the last monthly report. No prorating or back billing will be done based on the report.

For those cases in which a monthly report has never been received from the customer, the originating per minute access charges will apply to all 700, 800 series and 900 calls.

D. The originating Common Line Access per minute charge(s) apply to:

- all originating access minutes of use;
- less those originating access minutes of use associated with FGA Access Services where the off-hook supervisory signaling is forwarded by the customer's equipment when the called party answers;
- less all originating access minutes of use associated with calls placed to 700, 800 series and 900 numbers;
- plus all originating access minutes of use associated with calls placed to 700, 800 series and 900 numbers for which the customer furnishes for each month a report of either the number of calls or minutes or a report of the percent of calls or minutes that terminate in a switched Access Service that is assessed Carrier Common Line charges, and for which a corresponding reduction in the number of terminating access minutes of use has been made as set forth in Section C, preceding.

(T)

E. End Office Line Port charge(s) apply to:

- An End Office Line Port is required for the line termination of Feature Group A and WATS Access Lines. The End Office Line Port will be assessed on a flat monthly basis to the Feature Group A and the WATS Access Line customer for each equipped line. This charge is set forth in Section 3.8.

7.10 WATS Access Line Service (WAL Service)

7.10.1 Basic Service Description

WAL Service provides a channel for the transmission of analog signals in the nominal frequency range of 300 to 3000 Hz. WAL Service may be provided using an effective two-wire or four-wire voice grade channel.

The Service is provided between a customer premises and a WATS serving office associated with the closed end of 800 Service, WATS or similar services. WAL Service is provided for use with Feature Group A, B, or D Switched Access Service as set forth in Section 6. (D)

7.10.2 Technical Information

At the option of the customer, WAL Service is arranged for either: (1) originating, terminating or two-way calling; (2) dial pulse or dual tone multifrequency address signaling; and (3) loop start or ground start, subject to the technical limitations specified in Technical Reference TR-NWT-000334.

The Network Channel code for WAL Service is either SE (standard transmission) or SF (improved two-wire transmission). WAL Service shall be ordered with the following network channel interface (NCI) codes at the point of termination:
