Section 18 - Expanded Interconnection

18.1 General

Expanded Interconnection is available in compliance with the Federal Communications Commission's Report and Order in the matter of Expanded Interconnection with Local Telephone Company Facilities, CC Docket No. 91-141, adopted September 17, 1992 and released October 19, 1992, the Memorandum Opinion and Order in the Matter of Expanded Interconnection with Local Telephone Company Facilities, CC Docket No. 91-141, adopted December 18, 1992 and released December 18, 1992 and the Second Report and Order, CC Docket No.91-141, Transport Phase I, adopted August 3, 1993 and released September 2, 1993.

18.2 Service Description

Expanded Interconnection service provides fiber optic physical interconnection. This service includes a license to occupy physical space and associated requirements such as power and environmental conditioning within a Telephone Company serving wire center to locate certain fiber optic facilities and equipment, and a connection to certain Telephone Company provided services.

The interconnect customer shall bring its fiber optic cable to the Telephone Company designated entrance manhole and leave sufficient length for the Telephone Company to extend the customer's cable to collocated space. Upon request, the Telephone Company will designate two entrance manholes for the interconnect customer in serving wire centers where the Telephone Company has more than one entry point for its own use.

The interconnect customer may use collocated space solely for the purposes of installing, maintaining and operating the customer's equipment to interconnect with telecommunications services and facilities provided by the Telephone Company in accordance with Sections 6 and 7 herein and for no other purpose.

The Telephone Company will provide Expanded Interconnection to the following types of Special Access.
