ACCESS SERVICE

2. General Regulations (Cont'd)2.7 Definitions (Cont'd)Busy Hour Minutes of Capacity (BHMC)

Denotes the customer specified maximum amount of Switched Access Service and/or Directory Assistance Service access minutes the customer expects to be handled in an end office switch during any hour in an 8:00 A.M. to 11:00 P.M. period for the feature group, basic serving arrangement or Directory Assistance Service ordered. This customer furnished BHMC quantity is the input data the Telephone Company uses to determine the number of transmission paths for the feature group, basic serving arrangement or Directory Assistance Service ordered.

Call

Denotes an attempt for which the complete destination code or a Carrier Access Code (e.g., 950-XXXX, 101XXXX#, 0- or 00-) is provided in the originating direction or a complete destination code is provided in the terminating direction.

Call-out

Callout is when a Telephone Company employee is called into work at a time not consecutive with the employee's scheduled work period. Any Callout will be subject to a minimum charge on an Overtime and/or Premium Time basis of four (4) hours. However, at no time will the customer be charged if trouble is found to be on the Telephone Company's side of the demarcation point. (C)

Carrier or Common Carrier

See Interexchange Carrier

Carrier Identification Code (CIC)

Denotes a numeric code that is assigned by Bellcore to long distance carriers for the provisioning of Feature Group B and/or D trunk side Access Service. The numeric code uniquely identifies the carrier.

Carrier Identification Code Parameter (CIP)

Denotes the transmission of the Carrier Identification Code (CIC) to the customer within the Initial Address Message (IAM) of an originating FGD or BSA-D call.

Cascading Service User

Customer who has their service on a channel or port of a multiplexed DS1, DS3 or SONET service belonging to a Third Party Host through a Cascading Shared Network Arrangement.

Cascading Shared Network Arrangement

A service offering whereby a Cascading Service User may connect subtending services to a Third Party Host's multiplexed DS1, DS3 or SONET service which is on a Shared Network Arrangement with a Host Subscriber, and the Telephone Company will undertake to maintain separate customer records and billing.

C Band

1525-1565 nanometers (unit of spatial measurement that is one billionth of a meter).

CCS

Denotes a hundred call seconds, which is a standard unit of traffic load that is equal to 100 seconds of usage or capacity of a group of servers (e.g., trunks).

Cellular Mobile Carrier

A common carrier provider of domestic public cellular telecommunications service, as defined in Part 22, Subpart K, of the F.C.C. Rules and Regulations.

(This page filed under Transmittal No. 20)

ACCESS SERVICE

4. End User Access Service (Cont'd)

4.3 Rate Regulations (Cont'd)

4.3.2 Federal Universal Service Fund (FUSF) Surcharge (Cont'd)

(C) End User Port FUSF Surcharges

When a customer is assessed the BRI ISDN Port line charge as discussed in Section 4.3.1(F)(1), preceding, a FUSF Surcharge will also be assessed to recover the FUSF Surcharge obligation associated with each interstate end user charge as set forth in Section 4.4(H), following.

(D) Other Non-recurring FUSF Surcharges

In addition to the basic FUSF Surcharges, when a customer is assessed an Easy Access Dialing Change Charge, a FUSF Surcharge will also apply as set forth in Section 4.4(G).

Contribution Factor: 0.42

(I)

To the extent an IC is assessed the Easy Access Dialing Change Charge, the Non-recurring FUSF Surcharge will also apply to the IC.

(This page filed under Transmittal No. 20)

Issued: September 16, 2026

Effective: October 1, 2026

Four AT&T Plaza, Dallas, Texas 75202

ACCESS SERVICE

4. End User Access Service (Cont'd)

4.3 Rate Regulations (Cont'd)

4.3.2 Federal Universal Service Fund (FUSF) Surcharge (Cont'd)

(E) Other FUSF Surcharges

A percentage surcharge factor is assessed monthly on billed recurring and non-recurring charges of end user services other than surcharges described in Section 4.

FUSF Surcharge factor: 0.42 (I)

4.3.3 Minimum Period

The minimum period for which End User Access Service is provided to an end user and for which charges are applicable is the same as that in the general or local exchange tariffs for the associated local exchange service.

4.3.4 Cancellation of Application

End User Access Service is cancelled when the order for the associated local telephone exchange service is cancelled. No cancellation charges apply.

4.3.5 Changes to Orders

When changes are made to orders for the associated local exchange service, any necessary changes will be made for the End User Access Service. No charges will apply.

4.3.6 Allowance for Interruptions

When there is an interruption to an End User Access Service, requested end user access credit allowances for interruptions will be provided as set forth in 2.5.6 (Credit Allowance for Service Interruption) and 2.5.7 (Service Assurance Warranty Schedule).

4.3.7 Temporary Suspension of Service

When an end user temporarily suspends its local exchange service which is associated with End User Access Service, one-half of the End User Common Line and FUSF Surcharge per month charges will be temporarily suspended for the time period the local exchange service is suspended.

ACCESS SERVICE

13. Additional Engineering, Additional Labor and Miscellaneous Services
(Cont'd)13.2 Additional Labor

Additional Labor is that labor requested by the customer on a given service and agreed to by the Telephone Company as set forth in this Section 13.2.

Types of Additional Labor are:

- Installation, moves, network reconfigurations, and/or other service activities that the Customer requests the Telephone Company to perform outside of Basic Time. (USOC ALH, ALH++)
- Standby includes all time in excess of one-quarter (1/4) hour during which Telephone Company personnel standby at the customer's request. (USOC ALT, ALT++)
- Additional Labor testing with other telephone companies, or repair of facilities which connect to facilities of other service providers which is in addition to the normal effort required to test, maintain, or repair facilities provided solely by the Telephone Company. (USOC ALK, ALK++)
- Other Labor is that Additional Labor not included in the preceding items including, but not limited to, labor incurred to extend the Point of Termination, and labor incurred to accommodate a specific customer request that involves only labor which is not covered by any other section of this tariff. (USOC ALK, ALK++)

The Telephone Company will notify the customer that Additional Labor Charges as set forth in 13.4 (Rates and Charges) will apply before any Additional Labor is undertaken. Additional Labor Charges apply on a first and additional basis for each half hour or fraction thereof unless otherwise specified herein.

A Callout is when a Telephone Company employee is called into work at a time not consecutive with the employee's scheduled work period. Any Callout will be subject to a minimum charge on an Overtime and/or Premium Time basis of four (4) hours. However, at no time will the customer be charged if trouble is found to be on the Telephone Company's side of the demarcation point.
