## ACCESS SERVICE

2. General Regulations (Cont'd)2.3 Obligations of the Customer (Cont'd)2.3.9 Customer Provided Reports

Customers may be required to provide the following reports in connection with the provision of access service. The specific report requirements are provided in other sections of this tariff as set forth following.

<u>Customer Provided Reports</u>	<u>Tariff Section No.</u>	
Percentage of Interstate Use (PIU)	2.4.1	
Special Access Certification Requirements	2.4.3	(T)
Percent Common Line Report	3.3.2 (B) (3)	
Resold MTS and MTS-Type Usage Report	3.3.4 (F)	
800 Number Portability Access Service	2.4.1 (A) (6)	(T)
Media Stimulated Mass Calling Events	6.7.12	(T)
Percent Direct Routed Reports	6.7.16	
CCS/SS7 Forecast Report	23.3.5	
Percent Tandem Signaling Factor	6.7.17	
Tandem Signaling Terminating Billing Data	6.7.18	

2.3.10 VoIP - PSTN Traffic

This Section applies to Toll VoIP-PSTN Traffic exchanged between the Telephone Company and the Customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user Customer of a service that requires Internet protocol-compatible Customer premises equipment. The Switched Access rate elements in this tariff for both usage and facilities apply to any Toll VoIP-PSTN traffic.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.4 Jurisdictional Reports (Cont'd)2.4.1 Percentage of Interstate Use (PIU) for Arkansas, Kansas, Missouri and Oklahoma (Cont'd)(A) Report Requirements (Cont'd)

## (5) Miscellaneous Access Services

Upon ordering the specific Access Services listed below for which call details are insufficient to determine jurisdiction, the customer will provide an interstate percentage of such miscellaneous access service traffic for each end office or LATA from which the customer may originate or terminate such traffic. The following services are to be included in the Miscellaneous Access Services PIU Report:

- Answer Supervision-Line Side
- Directory Assistance Service
- MicroLink II Service<sup>(1)</sup>
- Selective Class of Call Screening

(D)

If a LATA-level Miscellaneous PIU factor is provided by the customer, the specified percentage will be applied to all end offices from which the customer may originate or terminate such access traffic within the LATA or to those end offices for which an end office-level PIU is not provided.

For Directory Transport Services, a Miscellaneous PIU factor must be provided for Entrance Facilities, Direct-Trunked Transport and Tandem-Switched Transport as set forth in 2.4.1(A)(11) (Switched Transport Services) following.

(1) As of October 6, 2004, MicroLink II service utilizing the X.75 protocol is obsolete and limited to existing installations, at existing locations, for existing customers.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.4 Jurisdictional Reports (Cont'd)2.4.1 Percentage of Interstate Use (PIU) for Arkansas, Kansas, Missouri and Oklahoma (Cont'd)(A) Report Requirements (Cont'd)

## (16) 700 Access Service

Upon ordering FGD or BSA-D, the customer must provide the Telephone Company with an originating PIU for 700 Access Service. The 700 Access Service PIU report shall reflect an interstate percentage, by feature group or basic serving arrangement, of originating 700 Access Service access minutes for each end office or LATA from which the customer may originate 700 traffic. If a LATA-level PIU factor is provided by the customer, the specified percentage will be applied to all end offices to which the customer may originate traffic within the LATA or to those end offices for which an end office-level PIU is not provided.

If a customer does not provide the Telephone Company with an originating 700 PIU report, the Telephone Company will designate a PIU factor of 17% for 700 Access Service.

(17)

(D)

(D)

## (18) Incidental InterLATA SS7 Transport (SS7 Transport)

For SS7 Transport, where jurisdiction can be determined from the records, the Telephone Company will bill according to such jurisdiction by developing a projected interstate percentage. The projected interstate percentage will be developed on a monthly basis, by Originating Point Code (OPC).

When the Telephone Company receives insufficient records to determine the jurisdiction of the customer's use of the STP and the SS7 Transport Service is available in the intrastate jurisdiction, the Telephone Company will designate a PIU factor of 50% for the use of the STP octets of information.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.4 Minimum Periods

- (A) The minimum period for which service is provided and for which rates and charges are applicable is set forth in each section of this tariff, where appropriate.
- (B) When a service is discontinued prior to the expiration of the minimum period, charges are applicable whether the service is used or not, as follows:
  - (1) When a service with a one month minimum period is discontinued prior to the expiration of the minimum period, a one month charge will apply at the rate level in effect at the time service is discontinued.
  - (2) When a service with a minimum period greater than one month is discontinued prior to the expiration of the minimum period, with the exception of Specialized Services or Arrangements, MegaLink Custom Services, STN or SBNS Services, the applicable charge will be (D) the lesser of:
    - a. The Telephone Company's total nonrecoverable costs, less the net salvage value, for the discontinued service, or
    - b. The total monthly charges, at the rate level in effect at the time service is discontinued, for the remainder of the minimum period.
- (C) For Specialized Services and associated multiplexing in Section 12, MegaLink Custom Services and associated optional features and functions in Section 20, STN Service and associated optional features and functions in Section 22, and SBNS Services in Section 31, the applicable charges (D) are set forth in each respective section.
- (D) For Specialized Services or Arrangements provided on an individual case basis in Section 12, the minimum period is one month unless a different minimum period is established with the individual case filing.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service,  
and Telecommunications Relay Interconnection Service (D)  
(TRIS)

A credit allowance for service interruptions will be applied to Switched Access Service and Directory Assistance Service depending upon whether or not the interruption is associated with a service that is usage rated or monthly recurring rated as set forth in (a) and (b), following: (T)

(a) Credit Allowance for Usage Rated Services

If the service experiencing an interruption is billed assumed minutes of use, credit shall be allowed for an interruption of greater than 24 hours. Such credit will be at the rate of 1/30th of the assumed minutes of use charge for each period of 24 hours or fraction thereof that the interruption continues.

If the service experiencing an interruption is billed on a measured, usage sensitive basis, a credit allowance does not apply.

If the service experiencing an interruption includes optional features or BSEs being billed monthly recurring rates, credit for an interruption of greater than 24 hours for the associated features or BSEs will be at the rate of 1/30th of the applicable monthly rate for each period of 24 hours or fraction thereof that the interruption occurs.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service,  
and Telecommunications Relay Interconnection Service (TRIS) (Cont'd) (D)(b) Credit Allowance for Monthly Recurring Rated  
Services

- (1) For the following Switched Access, Directory Assistance and Telecommunications Relay Interconnection Services with monthly recurring rates as defined in 6.8.3 (Monthly Recurring and Usage Rates), 9.4.3 (Monthly Recurring and Usage Rates) and 26.5.3 (Monthly Rates):

- Switched Transport
- Directory Transport
- Switched Access DNAL BSA
- Telecommunications Relay Interconnection Service (TRIS)

the charges for which a credit will apply due to service interruptions will be the total of all monthly rate elements associated with the transport facility or BSA (i.e., per channel, per point of DNAL termination, DNAL mileage, per DS1 or DS3, fixed per month and per mile per month, per point of TRIS termination and TRIS Mileage) including any monthly rated features and BSEs associated with either the transport facility or the DNAL BSA.

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service, and Telecommunications Relay Interconnection Service (TRIS) (Cont'd) (D)(b) Credit Allowance for Monthly Recurring Rated Services (Cont'd)

## (1) (Cont'd)

No credit allowance shall be allowed for an interruption period of less than 30 minutes. The customer shall be credited for an interruption of 30 minutes or more up to, and including, 2 hours at the rate of 1/1440 of the monthly charges for the facility for each period of 30 minutes or fraction thereof that the interruption continues after the initial 30 minute outage. When the total service interruptions on the same service exceeds 2 hours within a 12 hour time period, the customer shall receive an additional credit per the Service Assurance Warranty Schedule (SAWS) specified in 2.5.7.

In any month, as a result of the interruption, the total credit per rate element of the interrupted service may not exceed 100 percent of the monthly charge for that particular rate element.

- (a) When Switched Transport is provided in a multiplexing arrangement and the multiplexer becomes inoperative, the monthly charge being credited will be the total of all monthly charges associated with the facilities being interconnected by the multiplexer. Such credit will include all monthly rated features or BSEs associated with the interconnected facilities.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service,  
and Telecommunications Relay Interconnection Service (TRIS) (D)  
(Cont'd)(b) Credit Allowance for Monthly Recurring Rated  
Services (Cont'd)

## (1) (Cont'd)

(b) When a Switched Transport facility being provided in a multiplexing arrangement becomes inoperative, the monthly charge being credited will be the total of all monthly charges associated with the inoperative transport facility as well as that portion of all interconnected transport facilities which also becomes inoperative. Such credit will include all monthly rated features or BSEs associated with the inoperative facility or that portion of the interconnected facilities which also becomes inoperative.

(c) When the service riding the channel of the multiplexed facility is inoperative, the monthly charge to be credited for the multiplexed facility shall be the total of all monthly rate element charges associated with the inoperative portion of the facility. The credit will include all monthly rated features or BSEs associated with the inoperative transport facility.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service,  
and Telecommunications Relay Interconnection Service (D)  
(TRIS) (Cont'd)(b) Credit Allowance for Monthly Recurring Rated  
Services (Cont'd)

- (2) When a service outage occurs on a Direct-Trunked Transport facility and traffic is alternately routed to a Tandem-Switched Transport facility to avoid the service outage, the Telephone Company may allow additional out-of-service credits as follows:

For Switched Access Service and DA Access Service, the Telephone Company will first determine the length of time for which the customer is entitled to an adjustment on the Direct-Trunked Transport facility as set forth in (1), preceding. Because actual alternate tandem traffic cannot be captured during the service outage period, surrogate tandem usage factors have been developed based on an assumed 9,000 minutes of use per channel per month and a DA holding time of .633962 minutes. (T)

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service,  
and Telecommunications Relay Interconnection Service (TRIS) (D) (Cont'd)(b) Credit Allowance for Monthly Recurring Rated  
Services (Cont'd)

## (2) (Cont'd)

Based on a 30 day month and a 24 hour day, each half hour increment of service outage will result in an assumed alternate tandem usage level of 6.25 minutes of use per channel for Switched Access and 9.86 calls per channel for DA Access Service (i.e., 150 minutes or 237 calls per DS1 and 4,200 or 6,626 calls per DS3). This surrogate alternate traffic usage will be rated based on the airline distance between the customer's serving wire center and the end office where the Direct-Trunked Transport facility that experienced the service outage terminated. The appropriate Tandem Switched Transport subelements (i.e., Tandem Switched Transmission and Tandem Switching or Tandem-Switched Directory Transmission and Directory Tandem Switching) will be used to determine the total Alternate Traffic Credit.

General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(B) When a Credit Allowance Applies (Cont'd)(3) Switched Access Service, Directory Assistance Service, and Telecommunications Relay Interconnection Service (TRIS) (Cont'd) (D)(b) Credit Allowance for Monthly Recurring Rated Services (Cont'd)

## (2) (Cont'd)

If the Direct-Trunked Transport facility that experienced the service outage provided transport only for Switched Access Service, an Alternate Traffic Credit will only be calculated for Switched Access. If the facility provided transport only for DA Access Service, an Alternate Traffic Credit will only be calculated for DA Access Service. If the facility provided transport for both Switched Access Service and DA Access Service, the total Alternate Traffic Credit will be the sum for the credits calculated for both Switched Access and DA Access Service.

If the amount of the Alternate Traffic Credit is greater than the amount of credit that would have been allowed as set forth in (1), (T) preceding, the Telephone Company will credit the customer the Alternate Traffic Credit instead of the lesser credit for the inoperative facility. If the Alternate Traffic Credit is less than or equal to the amount that would otherwise be credited to the customer (as set forth in (1) preceding), the Alternate Traffic Credit will not be allowed.

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

2. General Regulations (Cont'd)2.5 Billing Regulations (Cont'd)2.5.6 Credit Allowance for Service Interruptions (Cont'd)(C) When a Credit Allowance Does Not Apply (Cont'd)

- (7) Interruption of service caused by a customer's failure to provide notification to the Telephone Company of media stimulated mass calling events as specified in 6.7.12 (Media Stimulated Mass Calling Events). (T)
- (8) An interruption or a group of interruptions, resulting from a common cause, for amounts less than one dollar.
- (9) Credit Allowance for Service Interruptions also apply when service is interrupted due to labor difficulties, governmental orders, civil commotions, criminal actions taken against the Telephone Company, acts of God and other circumstances beyond the Telephone Company's reasonable control. No credit shall be allowed for an interruption period of less than 30 minutes. The customer shall be credited for an interruption of 30 minutes or more at the rate of 1/1440 of the monthly charges for the facility or service for each period of 30 minutes or fraction thereof that the interruption continues after the initial 30 minute interruption. However, the Service Assurance Warranty Schedule (SAWS) as specified in 2.5.7 will not apply.

(D) Use of An Alternative Service Provided by the Telephone Company

Should the customer elect to use an alternative service provided by the Telephone Company during the period that a service is interrupted, the customer must pay the tariffed rates and charges for the alternative service used.

(E) Temporary Surrender of a Service

In certain instances, the customer may be requested to surrender a service for purposes other than maintenance, testing or activity relating to a service order. If the customer consents, a credit allowance will be granted. The credit allowance will be determined in the same manner as a credit for service interruptions as set forth in (A) preceding.

## ACCESS SERVICE

5. Ordering for Access Service (Cont'd)5.2 Access Order (Cont'd)5.2.2 Ordering Requirements (Cont'd)(U) Multiple 64 Clear Channel Capability (64 CCC) (T)

In addition, the customer must specify one of three trunk allocation schemes: fixed, floating or flexible. In the fixed allocation scheme, the FGD or BSA-D trunks selected for a Multiple 64 CCC call are contiguous and the first FGD or BSA-D trunk is constrained to certain fixed starting points. In the floating allocation scheme, the FGD or BSA-D trunks selected for a Multiple 64 CCC call are contiguous, but the position of the first trunk can float. For the flexible allocation scheme, the FGD or BSA-D trunks selected for a Multiple 64 CCC call may occupy non-contiguous positions within a group of 24 FGD or BSA-D trunks.

Customers may segregate their originating and terminating Multiple 64 CCC traffic by specifying dedicated Multiple 64 CCC trunk group(s) on the order. A Multiple 64 CCC trunk group(s) represents access capacity for carrying only Multiple 64 CCC traffic.

(V) Advanced Carrier Identification Service (ACIS)

The customer must have LATA-wide Switched Access in order to receive originating ACIS routed traffic. The customer must specify the:

- LATAs from which they wish to receive originating ACIS calls,
- the ACIS Access Code(s) to be activated in a given LATA,
- the Carrier Identification Code (CIC) of each ACIS Code in a given LATA, and
- the desired due date of the order.

Originating ACIS routed calls from LATAs in which the customer has not ordered ACIS will be blocked.

Originating traffic that is to be routed using ACIS may be combined with FGB, FGD, BSA-B, or BSA-D Switched Access Service. The customer shall designate which FGB, FGD, BSA-B, or BSA-D Switched Access Service trunk groups are to be associated with ACIS. However, when FGD or BSA-D Switched Access Service becomes available in an end office, ACIS traffic originating from that end office must be provided with FGD or BSA-D Switched Access Service.

ACCESS SERVICE

5. Ordering for Access Service (Cont'd)

5.2 Access Order (Cont'd)

5.2.2 Ordering Requirements (Cont'd)

(V) Advanced Carrier Identification Service (ACIS) (Cont'd)

Direct-Trunked Transport will be available from end offices equipped to provide the ACIS functionality. All originating traffic to be routed using ACIS from end offices not equipped to provide the ACIS functionality will require routing to an access tandem where the function is available. When the ACIS functionality is located at an access tandem, the customer must utilize a Tandem-Switched Transport Facility. Information regarding the availability of ACIS will be provided to customers who contact their Telephone Company Account Manager, Access Service Center (ASC) or Business Service Center (BSC).

## ACCESS SERVICE

5. Ordering for Access Service (Cont'd)5.3 Rate Regulations5.3.1 Access Order Charges

- (A) An Access Order Charge applies, per access order, for the installation, addition, change, rearrangement or move of Access Services provided in this tariff (in addition to other applicable Access Service tariff charges) with the following exceptions:
- Nonchargeable administrative changes where so specified in this tariff;
  - Access order modifications as specified in 5.3.2 (Access Order Modification Charges);
  - Initial or subsequent activation of NXX's for 900 Access Service;
  - Establishment of 0+900 Access Service;
  - Complete or partial disconnection of Access Services and/or features (except when a Carrier Identification Code (CIC) is deleted);
  - Upgrades from FGA or FGB service to FGD service and upgrades from BSA-A or BSA-B service to BSA-D service;
  - Revocation or discontinuance of Telecommunications Service Priority System;
  - Installation, modification or rearrangement of MicroLink II<sup>(1)</sup> Service or features;
  - Conversions during the transition period of FGA to BSA-A, FGB to BSA-B, and FGD to BSA-D;
  - Change of Access Services Bill Period;
  - As specified in 6.8.2(D)(7), following; and (D)
  - <sup>(2)</sup>
  - When additional Access Orders are required as set forth in Section 5.2.1(A) preceding, for establishment of, removal of, or changes to multiple Carrier Identification Codes and are submitted at the same time, with the same due date, for the same central office and the same trunk group. In such cases only one Access Order Charge shall apply for the group of orders.
- (B) An Access Order Charge applies per access order for the addition, change, or rearrangement of the WATS Access Line features, specified in 6.9 (Rates and Charges), when such features are requested subsequent to the installation of the WATS Access Line.

<sup>(1)</sup> As of October 6, 2004, MicroLink II service utilizing the X.75 protocol is obsolete and limited to existing installations, at existing locations, for existing customers

<sup>(2)</sup> Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at [www.att.com/guidebook](http://www.att.com/guidebook).

(This page filed under Transmittal No. 3387 )

## ACCESS SERVICE

5. Ordering for Access Service (Cont'd)5.3 Rate Regulations (Cont'd)5.3.2 Access Order Modification Charges (Cont'd)(B) Service Date Change Charge/Dispatch Charge (Cont'd)

## (4) (Cont'd)

A Service Date Change Charge is applicable on a per order per occurrence basis for each service date changed. A Service Date Change Dispatch Charge will apply per occurrence when a technician is dispatched to the Customer's premises and the Customer is not ready for service. Service Date Change Charges and Service Date Change Dispatch Charges are specified in Section 5.4 (Rates and Charges).

Credit for Missed Installation on Confirmed Due Date, as described in Section 2.5.5 (Missed Installation on Confirmed Due Date), does not apply to Service Date Change Charge.

(C) Expedite Charges

Analog (Metallic, Telegraph, Wideband Analog), DS0 (Wideband Data, Megalink Data (2.4, 4.8, 9.6, 19.2, 56, 64 Kbps)), Entrance Facilities (Voice Grade, DS1, DS3), High Capacity DS1 (Megalink Data (128, 256, 384, 512, 768 Kbps)) Access Services and MegaLink Custom Services

If a Customer desires that service be provided on a due date earlier than the standard interval, the Customer may request that service be provided on an expedited service interval. To qualify for an expedited interval the Customer must provide End User premises access, where needed, until 11PM (CT), Monday-Friday.

When the Customer requests a 0-2 day expedite interval, on DS3, Analog (Metallic, Telegraph, Direct Analog, Wideband Analog), DS0 (Wideband Data, Base Rate), DS1 (128, 256, 384, 512, 768 Kbps, Entrance Facilities (Voice Grade, DS1, DS3) and DS1/DS3 Access Service, the request must be received by the Telephone Company by 8:30AM (CT), Monday-Friday. All 0-2 day expedite interval requests received after 8:30AM (CT) will reflect an application date of the next business day and the due date will also be changed to the next business day. Expedite charges will be determined by the interval between the application date and the expedite due date. APP day 0 does not begin until SBC verifies facilities or determines facilities are not in place.

If, upon reviewing availability of equipment, facilities and scheduled workload, the Telephone Company agrees to provide service on an expedited basis and the Customer accepts this proposal, an Expedite Order Charge (in case of Analog, DS0, Voice Grade/DS1 Entrance Facilities and High Capacity DS1 Access Services) or Expedite Circuit Charge (in case of DS3 Entrance Facilities and MegaLink Custom Services) will apply. (T)

5.4 Rates and Charges

All rates and charges contained in this section are applicable to Arkansas, Kansas, Missouri, Oklahoma and Texas. The applicable FIDs or USOCs are included when appropriate.

(A) Access Order Charges (NRB1X)

- (1) The following access order charge applies to Switched Access Service (with the exception of the DNAL BSA), CCS/SS7 Interconnection Service, DirectLine Custom Service, (D) Directory Assistance Service, Operator Call Processing Service, Service Provider Number Portability and TRIS.

Charge per  
Access Order

Switched Access Order Charge ..... \$17.00

- (2) The following access order charge applies to the DNAL BSA, Special Access Service, MegaLink Custom Services, STN and Expanded Interconnection.<sup>(1)</sup>

Charge per  
Access Order

Special Access Order Charge ..... \$14.00

- (3) The following access order charge applies to LIDB Service, per order form.

Charge per  
Access Order

LIDB Service Order Charge ..... \$19.00

(1) This charge does not apply to OC-192 Dedicated SONET Ring Service.
