ACCESS SERVICE

2. General Regulations (Cont'd)

2.5 Billing Regulations

2.5.1 Advance Payments

Arkansas, Kansas, Missouri, Oklahoma and Texas

A customer may be required to pay in advance a portion of the estimated installation or construction costs where the provision of facilities involve an unusual investment. The amount of the advance payment will be credited to the customer's account as applying to the indebtedness of the customer for the services and facilities provided.

(This page filed under Transmittal No. 3394)

- 2. General Regulations (Cont'd)
 - 2.5 Billing Regulations (Cont'd)

2.5.2 Deposits and Other Payments

(T)

To protect itself from the risk of non-payment, the Telephone Company may require a customer to provide a cash deposit in those instances specified in Section 2.5.2(A).

(T)

- (A) There is a proven history of late payments or the customer has not demonstrated established credit. A proven history of late payments is defined as 2 or more occasions within the preceding 12 months in which payment(s) for the undisputed charges of that month's total billings (sum of all bills sent in that month for all accounts for all services provided under this tariff by the Telephone Company) was
 - (1) not received within 3 business days following the payment due date and
 - (2) the payment(s) not received within 3 business days represented at least 10% of the month's total billings for all accounts for all services provided under this tariff by the Telephone Company.

Example for January 2005 billings:

Assume:

\$100 payment for a January billing received on the due date \$100 payment for a January billing received 1 business day late

\$100 payment for a January billing received 4 business days late

Total January billings for all accounts for all services provided under this tariff by the Telephone Company sum to \$300. There are no disputes.

One payment is recognized as being late since it is beyond 3 business days late and it represents 33% of the monthly billings. This would represent the first occasion of a monthly late payment.

Disputed billed amounts for the sake of this section are disputed via the process outlined in Section 2.5.3(B)(1). (T)

In the event that a customer has a history of late payments or has not demonstrated established credit, the Telephone Company may require the customer to pay a twomonth deposit based on the total charges billed and rendered by the Telephone Company for the most recent two months of service. In the event the customer has not received two months of service from the Telephone Company, the two-month deposit will be based on charges estimated by the Telephone Company for the initial twomonth period.

ACCESS SERVICE

2. General Regulations (Cont'd)

2.5 Billing Regulations (Cont'd)

2.5.2 Deposits and Other Payments (Cont'd)

(Cont.Id)

(A) (Cont'd)

The Telephone Company will provide the customer written notice by Overnight Delivery, as described in Section 2.1.6 (A), if a deposit is required under this section. The customer must pay the two-month deposit within 15 business days following the date the written notice is sent to the customer. Such notice period will begin the day after the notice is sent. If the customer fails to pay the deposit by the due date, as described above, the Telephone Company may send the customer a written notice by Overnight Delivery stating that if the deposit is not received within 15 calendar days of the original deposit due date, the Telephone Company may take any or all of the actions specified in Section 2.1.6(A).

Simple interest at a rate set forth in Section 2.5.2(A)(1) will accrue on cash deposits. Simple interest will be applied for the number of days from the date the customer deposit is received by the Telephone Company to and including the date such deposit is credited to the customer's account or the date the deposit is refunded by the Telephone Company.

The cash deposit will be returned, with any accrued, uncredited interest within 15 business days of when a customer with a history of late payments or no established credit history demonstrates a one-year prompt payment record (undisputed billed balances are paid within the bill payment requirements outlined in Section 2.5.3).

In the event the provision of all service to the customer is terminated and the Telephone Company maintains a cash deposit from the customer, the deposit and any accrued, uncredited interest will be applied to any outstanding sums owed to the Telephone Company, and any remaining balance will be returned to the customer.

(D)

(D)

2. General Regulations (Cont'd)

2.7 Definitions (Cont'd)

C-Message Noise

Denotes the frequency weighted average noise within an idle voice channel. The frequency weighting, called C-message, is used to simulate the frequency characteristic of the 500-type telephone set and the hearing of the average subscriber.

C-Notched Noise

Denotes the C-message frequency weighted noise on a voice channel with a holding tone, which is removed at the measuring end through a notch (very narrow band) filter.

Coin Station

Denotes a location where Telephone Company equipment is provided in a public or semipublic place where Telephone Company customers can originate telephonic communications and pay the applicable charges by inserting coins into the equipment.

Commingling⁽¹⁾ (T)

Commingling means the connecting, attaching or otherwise linking of an unbundled network element, or a combination of unbundled network elements, to one or more facilities or services that a requesting telecommunications carrier has obtained at wholesale from the Telephone Company, or the combining of an unbundled network element, or a combination of unbundled network elements with one or more such facilities or services. Commingle means the act of commingling.

Committed Information Rate (CIR)

A statistically guaranteed level of transmission or guaranteed bandwidth that the Ethernet network will provide to the Basic Connection when information (or data) needs to be transmitted.

(1) In the event the Commission or a court, pursuant to any regulatory or judicial review of the Commission's Review of the Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers, Report and Order and Order on Remand and Further Notice of Proposed Rulemaking, CC Docket No. 01-338, FCC 03-36, para. 581 (released Aug. 21, 2003) (Triennial Review Order), vacates, stays, remands, reconsiders, or rejects the portion of the Triennial Review Order requiring ILECs to permit commingling, the terms and conditions of this tariff authorizing commingling, which are identified with a footnote, shall cease to be effective as of the effective date of the Commission order or the issuance of the court's mandate. In that event, the Telephone Company will provide customers that have commingled UNE(s) and/or UNE Combination(s) with wholesale services obtained under this Tariff written notice that, within 30 days, customers must either convert such UNE(s) or UNE Combination(s) to a comparable service, or disconnect such UNE(s) and/or UNE Combination(s) from those wholesale services. Failure to provide the Telephone Company instructions to convert or disconnect such UNE(s) and/or UNE Combination(s) within 30 days, as described above, shall be deemed authorization to convert the UNE(s) and/or UNE Combination(s) to comparable access services at month-to-month rates.

(This page filed under Transmittal No. 3394)

2. General Regulations (Cont'd)

2.7 <u>Definitions</u> (Cont'd)

Entry Switch

See First Point of Switching.

Envelope Delay Distortion (EDD)

Denotes a measure of the linearity of the phase versus frequency of a channel.

Equal Level Echo Path Loss (ELEPL)

Denotes the measure of Echo Path Loss (EPL) at a 4-wire interface which is corrected by the difference between the send and receive Transmission Level Point (TLP). ELEPL = EPL - TLP (send) + TLP (receive).

Equalized

Denotes a procedure which provides for the component frequencies of the material transmitted having about the same relationship at the two ends of the channel.

Ethernet Virtual Connection (EVC) (M)

A logical connection between the customer demarcation point and the Ethernet network. (M)

(This page filed under Transmittal No. 3394)

2. General Regulations (Cont'd)

2.7 Definitions (Cont'd)

Registered Equipment

Denotes the customer's premises equipment (CPE) which complies with and has been approved within the Registration Provisions of Part 68 of the F.C.C.'s Rules and Regulations.

Release Message

Denotes an SS7 Message sent in either direction to indicate that a specific circuit is being released.

Remote Switching Modules (RSM) or Remote Switching Systems (RSS)

Denotes small, remotely controlled electronic end office switches which obtain their call processing capability from an electronic switching system type Host Office. The RSM/RSS cannot accommodate direct trunks to a customer.

Response

Denotes one response from a set of predefined possible responses to a request for information contained in a query from a computer processor.

Return Loss

Denotes a measure of the similarity between the two impedances at the junction of two transmission paths. The higher the return loss, the higher the similarity.

Riser Tail

Denotes a cable that terminates on a fiber termination shelf and has flammability and smoke characteristics which allow it to be routed in a central office area without being enclosed in a conduit.

Serial Input/Output

Denotes a type of data port which provides a higher throughput speed for either asynchronous or synchronous data transmissions.

Filed in compliance with FCC Orders DA 97-2358; FCC 97-158, as amended; FCC 97-401; and FCC 97-403.

(This page filed under Transmittal No. 3394)

2. General Regulations (Cont'd)

2.7 Definitions (Cont'd)

Signaling Transfer Point (STP)

Denotes a packet switch in the Common Channel Signaling network that is used to route signaling messages between signaling nodes. STPs also transfer signaling messages to other CCS networks.

Singing Return Loss (SRL)

Denotes the frequency weighted measure of return loss at the edges of the voiceband (200 to 500 Hz and 2500 to 3200 Hz), where singing (instability) problems are most likely to occur.

SONET-based Interface

Denotes interfaces which are available only when transport facilities are provided via SONET equipment. This does not imply that all such interfaces are pure SONET interfaces.

Storage Area Network (SAN)

(M)

(M)

Network which links host computers, storage servers, and systems.

Subtending End Office of an Access Tandem

Denotes an end office that has final trunk group routing through the tandem.

Super Intermediate Multiplexing Hub

Denotes the conversion from higher to lower bit rate, or bandwidth, or from digital to voice grade channels, serving itself and/or subtending wire centers in an entire LATA, or one or more Numbering Plan Areas (NPAs).

Switching System

Denotes an assembly of equipment, hardware and/or software, utilized by the Telephone Company for establishing connections between lines and/or trunks. A Switching System may either be an end office or an access tandem.

Synchronous

Denotes the type of data transmission where the characters or bits are sent at a fixed rate, with the transmitting and receiving devices synchronized, so that start and stop bits are not required.

Synchronous Optical Network (SONET)

Denotes a set of international standards for the interconnectivity and interoperability of fiber optic based transmission systems.

(This page filed under Transmittal No. 3394)

- 5. Ordering for Access Service (Cont'd)
 - 5.3 Rate Regulations (Cont'd)
 - 5.3.3 Access Order Cancellation Charges (excluding the following Special Access Services: Self-healing Transport Network (STN) and ReliaNet)

(T)

- (A) Cancellation of an Access Order
 - A Customer may cancel an access order at any time prior to (1) the service date or (2) notification by the Telephone Company that service is available for the Customer's use, whichever is later. The cancellation date is the date the Telephone Company receives written or verbal notice from the Customer that the order is to be cancelled. The verbal notice must be followed by written confirmation within 10 days. Termination liability charges, associated with term plans, will not apply to orders that are cancelled within 90 calendar days after the original service date where the Customer has accepted billing but not accepted service.
- (B) When Cancellation Charges Apply

When the Customer cancels an Access Order, a Cancellation Charge will apply.

Cancellation charges are calculated by multiplying the nonrecurring charges (NRC) associated with the shortest term available for the service being cancelled, by the applicable critical date percentage shown in the Table of Cancellation Charge Percentages, following, for the critical date last completed on the order, plus:

- 1. The Access Order Charge
- 2. Other charges specified in Section 5.3.2 (Access Order Modification Charges), if applicable.

Example

If a Customer submits an order to install a new DS1 High Capacity service channel termination and then cancels the order after the Design, Verified, and Assigned (DVA) critical date, but before the Wired and Office Tested (WOT) critical date, the cancellation charge will be calculated as follows:

Cancellation Charge = 55.7% (from the Table of Cancellation Charge Percentages, following) X Non-Recurring installation charge for one channel termination.

The Access Order Charge and other charges specified in Section 5.3.2 (Access Order Modification Charges), if applicable, are added to the cancellation charge.

- 5. Ordering for Access Service (Cont'd)
 - 5.3 Rate Regulations (Cont'd)
 - 5.3.3 Access Order Cancellation Charges (excluding the following Special Access Services: Self-healing Transport Network (STN) and ReliaNet) (Cont'd)

(T)

(B) When Cancellation Charges Apply (Cont'd)

The critical dates tracked by the Telephone Company are as follows:

- Application (APP) Date: The date by which the Customer must provide to the Telephone Company both (1) a firm commitment for service and (2) sufficient information to enable the Telephone Company to begin service provisioning. This is also the order date.
- Scheduled Issue Date (SID): The date that the order is entered into the Telephone Company's order distribution system.
- Loop Assignment and Make-up (LAM) Date: The date by which Local Loop Assignment and Make-up information is available.
- Engineering Information Report Date (EIRD): The date that the engineering information report for facilities and station equipment is received by the engineering control office (ECO).
- Design Layout Report Date (DLRD): The date the Design Layout Report is forwarded to the Customer.
- Records Issue Date (RID): The date that all design and assignment information is sent to the central office and installation forces.
- Designed, Verified, and Assigned (DVA) Date: The date by which field implementation groups report that all documents and materials have been received.
- Wired and Office Tested (WOT) Date: The date by which all intraoffice wiring is completed, all plug-ins optioned, aligned, and frame continuity established, and the interoffice facilities, if applicable, tested. In addition, switching equipment, including translation loading, is installed and tested.
- Frame Continuity Date (FCD): The date on which frame-to-frame testing is completed. This is sometimes referred to as the Facility Continuity Check Date.
- Plant Test Date (PTD): The date on which overall testing of the service is performed.
- Service Date (DD): The date on which service is made available to the Customer. This is sometimes referred to as the Due Date.

ACCESS SERVICE

- 5. Ordering for Access Service (Cont'd)
 - 5.3 Rate Regulations (Cont'd)
 - 5.3.3 Access Order Cancellation Charges (excluding the following Special Access Services: (1) Self-healing Transport Network (STN) and (T) ReliaNet) (1) (Cont'd) (T)
 - (C) When Cancellation Charges Do Not Apply
 - (1) When a customer cancels an order for the discontinuance of service, no charges apply for the cancellation.
 - (2) When a customer cancels an access order prior to the application date, no charges apply for the cancellation.
 - (3) If the Telephone Company or the customer misses a service date by more than 30 days, due to circumstances over which it has no direct control (i.e., acts of God, governmental requirements, work stoppages and civil commotion's), the customer may cancel the access order without incurring Cancellation Charges.
 - (4) If the Telephone Company misses a service date for daily rated Audio Service or daily rated Video Service, as provided in Section 7 (Special Access Service), the customer may cancel the access order without incurring Cancellation Charges.
 - 5.3.3.1 Access Order Cancellation Charges (for the following Special Access Services: (1) Self-healing Transport Network (STN), ReliaNet (1)

Cancellation charges are applied based upon the type of special access service being cancelled which is categorized as either, 1) "point to point" service or 2) "non-point to point" service. However, at no time will cancellation charges apply until costs for installation of facilities have been incurred by the Telephone Company. Service installation costs incurred by the Telephone Company start on the application date, when the Telephone Company confirms the order with the customer.

Cancellation charges for "point to point" services are based upon the date that a customer cancels an Access Order with respect to the Design Layout Report Date (DLRD), of the service being provisioned, as described in Section 5.3.3.1(B)(2). The DLRD is the date the Design Layout Report is forwarded to the customer. The DLRD is provided to the customer upon firm order confirmation.

(1) Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

- (A) Cancellation of a letter of agreement
 - (1) When facilities must be constructed prior to the Telephone Company receipt of an Access Order ⁽¹⁾, excluding special construction as described in F.C.C. No. 69, the customer will be required to submit a written letter of agreement to the Telephone Company which includes a maximum estimate as previously provided by the Telephone Company of the cancellation charges as defined at 5.3.3.1(A)(2). A customer may cancel a written letter of agreement.

(This page filed under Transmittal No. 3394)

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

- 5. Ordering for Access Service (Cont'd)
 - 5.3 Rate Regulations (Cont'd)
 - 5.3.3.1 Access Order Cancellation Charges (for the following Special Access Services: (1) Self-healing Transport Network (STN) and (T) ReliaNet) (1) (Cont'd) (T)
 - (A) Cancellation of a letter of agreement (Cont'd)
 - (1) (Cont'd)

The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the letter of agreement is to be cancelled. If verbal notice is given, it must be followed by written confirmation within 10 days or it shall be deemed to be void.

If a customer does not place an Access Order for the services within 30 days of receiving notification that the network is ready for the services ordered, the letter of agreement will be deemed cancelled.

- (2) When a customer cancels a letter of agreement, cancellation charges will apply as follows:
 - (a) Installation of facilities is considered to have started when the Telephone Company incurs any cost in connection therewith or on preparation thereof which would not otherwise have been incurred.
 - (b) Where an Access Order has been issued, cancellation charges shall apply as indicated in Section 5.3.3.1(B). (D)
 - (c) Applicable letter of agreement cancellation charges will be calculated from the costs incurred by the Telephone Company at the time the letter of agreement is cancelled. The cancellation charge equals:
 - Non-recoverable cost of equipment and material ordered, provided or used, and
 - (ii) Non-recoverable cost of installation and removal including the cost of engineering, labor, supervision, transportation, rightsof-way and other associated costs.
 - (iii) Less previously collected special construction charges, if applicable.

(This page filed under Transmittal No. 3394)

⁽¹⁾ Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

 - 5.3.3.1 Access Order Cancellation Charges (for the following Special Access Services: Self-healing Transport Network (STN) and ReliaNet) (Cont'd)

(T)

(T)

- (B) Cancellation of Access Order
 - (1) A customer may cancel an Access Order for installation of service. The Access Order must be cancelled at least one (1) day before the service date.

The cancellation date is the date the Telephone Company receives written or verbal notice from the customer that the order is to be cancelled. If verbal notice is given, it must be followed by written confirmation within 10 days or it shall be deemed to be void.

If a customer or customer's end user is unable to accept Access Service and the new service date requested is beyond 30 calendar days of the original service date, the customer has the choice of the following options:

- (a) The Access Order shall be cancelled and charges specified in Section 5.3.3.1(B)(2) will apply, or
- (b) Service shall be accepted, and billing for the service will commence.

In such instances, the cancellation date or the billing date, depending on which option is selected by the customer, shall be the 31st day beyond the original service date of the Access Order. If the customer does not select one of the options, the Telephone Company will begin billing for the service on the 31st day beyond the original service date of the Access Order.

(2) When Cancellation Charges Apply

When a customer cancels an Access Order (or a part of an order) after it has been issued, but before notification by the Telephone Company that the service is available for use, cancellation charges will apply, even when nonrecurring installation charges would be waived, as follows:

- (a) When a "point to point" special access service is cancelled on or before the Design Layout Report Date (DLRD), a cancellation charge will apply on a per circuit basis as shown in Table A in Section 5.3.3.1(B)(3)(a).
- (b) When a lower-speed "point to point" service (1) with a Connecting Facility Assignment (CFA) of a higher-speed "point to point" or "non-point to point" service (1) is cancelled, and a cancelled service has no channel termination or local distribution channel, a cancellation charge will apply on a per circuit basis as shown in Table A in Section 5.3.3.1(B)(3)(a).
- (1) Material in this Section has been de-tariffed as required by the Commission upon use of the forbearance relief pursuant to FCC Memorandum Opinion and Order No. 07-180, released October 12, 2007. Terms and Conditions associated with de-tariffed services are available at www.att.com/guidebook.

- (T) (T)

- (B) Cancellation of Access Order (Cont'd)
 - (3) Cancellation Charges (Cont'd)
 - (b) Non-point-to-point services:

Applicable charges will be calculated from the costs incurred by the Telephone Company at the time the Access Order is cancelled. The Cancellation Charge equals:

- (i) Non-recoverable cost of equipment and material ordered, provided or used, and
- (ii) Non-recoverable cost of installation and removal including the cost of engineering, labor, supervision, transportation, rightsof-way and other associated costs.
- (4) When Cancellation Charges Do Not Apply
 - (a) When a customer cancels an order for the termination of existing service.
 - (b) If the Telephone Company misses a service date by more than 30 days, the customer may cancel the Access Order without incurring cancellation charges.
 - (c) Where the customer cancels a letter of agreement prior to the start of installation of access facilities.
 - (d) Network reconfiguration order.

5.3.4 Minimum Period Requirements

The minimum period for which Access Service is provided and for which charges are applicable is set forth in each section of this tariff.

When Access Service is disconnected prior to the expiration of the minimum period, charges are applicable for the balance of the minimum period. A disconnect constitutes facilities being returned to available inventory. This terminology does not refer to when billing is stopped, but rather distinguishes a disconnect from a service rearrangement.

Service rearrangements may be made without a change in minimum period requirements where so specified in this tariff.

7. Special Access Service (Cont'd)

7.2 Rate Regulations (Cont'd)

7.2.4 Nonrecurring Charges

(D)

Nonrecurring charges are one-time charges that apply for specific work activity (i.e., installation or change to an existing service). The types of nonrecurring charges that apply for Special Access Service are:

- Installation of Service
- Installation of Optional Features, BSEs and Functions
- Installation of Service to Service Through Connect Arrangements
- Service Rearrangements

(T)

(A) Installation of Service

Nonrecurring charges apply to each service installed. These charges are set forth in Section 7.3 as a (T) nonrecurring charge for the Channel Termination rate element and are applied per circuit on a first and additional basis for each service ordered. The initial circuit incurs the first nonrecurring charge for each Channel Termination associated with that circuit. Each subsequent circuit incurs the additional nonrecurring charge for each Channel Termination associated with that additional circuit.

In order to receive the benefit associated with ordering multiple circuits, the following criteria must be met:

- Same Access Service Order
- Same Application for Service Date
- Same Due Date
- Identical Services
- Same Billing Account Number (BAN)
- Same Originating and Terminating Customer Designated Premises

13. Additional Engineering, Additional Labor and Miscellaneous Services (Cont'd)

(T)

Section 13 addresses Additional Engineering, Additional Labor and Miscellaneous Services (e.g., Easy Access Dialing, Maintenance of Service, Access Service Billing and Information, etc.)

The specific rates and charges for these activities are set forth in Section 13.4 (Rates and Charges).

For the purposes of Section 13 the terms "Basic Time", "Overtime" and "Premium Time" are defined as follows:

- Basic Time Work related efforts of the Telephone Company performed during a normal business day, 8:00 a.m. 5:00 p.m., Monday through Friday.
- Overtime Work related efforts of the Telephone Company performed outside of a normal business day (Monday through Friday), and on Saturdays.
- Premium Time Work related efforts of the Telephone Company performed on Sundays and/or holidays (i.e., New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, and Christmas Day).

23. Common Channel Signaling/Signaling System 7 (CCS/SS7) Interconnection Service (Cont'd)

23.3 Rate Regulations (Cont'd)

23.3.4 Determining Mileage and Charges

The mileage to be used to determine the monthly rate, per mile, for the DS1 (1.544 Mbps) facility and the STP Access Link is calculated on the airline distance between the locations involved, i.e., the serving wire center associated with the customer's premises and the Telephone Company designated hub, or the Telephone Company designated hub and the Telephone Company interconnecting STP.

Mileage is shown in terms of mileage bands as specified in 23.4 (Rates and Charges). To determine the rate to be billed, first compute the mileage using the V&H coordinates method, as set forth in the National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4, then determine which band (0 miles or over 0 miles) that computed mileage falls and apply the rate shown for that band. When the calculation results in a fraction of a mile, always round up to the next whole mile before determining the mileage band and applying the rates.

23.3.5 Minimum Period

CCS/SS7 Interconnection Service is provided for a minimum period of one month. When service is disconnected prior to the expiration of the minimum period, monthly charges are applicable for the balance of the minimum period.

If service is disconnected after the minimum period, monthly charges will be based on the actual number of days the service is furnished. In order to determine the charges for a fractional portion of a month, every month is considered to have 30 days.

23.3.6 Moves (T)

The regulations for moves and application of charges are set forth in 6.8.10 (Moves).

24. Line Information Data Base (LIDB) Service (Cont'd)

24.3 Service Provisioning (Cont'd)

24.3.3 LIDB Data Specifications

The Telephone Company's LIDB will contain a record for every working line number and Billed Number Group, as defined in Section 2.7, served by the Telephone Company. Other exchange carriers who may store their data in the Telephone Company LIDB are requested to provide this data as well.

(T)

The Telephone Company will update the LIDB information; e.g. add, delete, and modify customer accounts as customers move, become delinquent on their account, or order new service, on a daily basis.

Customers can contact their Telephone Company Business Office to confirm the screening service(s) applied to their account.
