## ACCESS SERVICE

16. Operator Services16.1 General Description

Operator Service is provided to customers from Telephone Company Operator Service System (OSS) Tandem locations. Operator Call Processing, an Operator Service, provides the ability to perform call processing activities for customers through the use of the Telephone Company operators. Operator Call Processing service is deployed at all SWBT end offices in a Local Access and Transport Area (LATA). The OSS Tandem locations will be provided to customers who contact their Telephone Company Account Manager, Access Service Center (ASC) or Business Service Center (BSC).

Operator Call Processing service provides Inward Assistance. Inward (D) Assistance provides for the use of the Telephone Company OSS equipment and operators associated directly with providing the specific Operator Call Processing activity.

Operator Call Processing service is provided in conjunction with the rules and regulations as specified in Section 2 (General Regulations), Section 3 (Carrier Common Line Access Service), Section 5 (Ordering for Access Service) and Section 6 (Switched Access Service).
